

Two Cafeterias To Open Soon

New Van Will Replace Present Snack Truck In Outlying Areas

Two more cafeterias and a new serve-yourself food van are expected to go into operation at Redstone soon, Capt. Bruno Lambruschi, Post Exchange officer announces.

A cafeteria in Bldg. 679, Plants Area Three, will probably open in September for the benefit of personnel in that area. The unit will also have a small retail outlet in connection with it for the benefit of 3523 ASU personnel.

FSD Cafeteria

Another cafeteria, the eighth in the arsenal's string, is planned for Bldg. 819, the Field Service Division area. An opening date will depend on the speed with which renovations can be made and equipment installed, Capt. Lambruschi said.

Other changes in the Army-Air Force Exchange Service at Redstone include the expected arrival of a mobile food truck with a serve-yourself feature. The two and one-half ton truck, similar in appearance to the present hot food van will serve areas now without cafeteria or snack bar facilities.

PX Grows

About 900 square feet have been added to the main post exchange in the 9330 TSU area. And an expanded line of merchandise is expected soon.

With the growth of the food services of the post exchange, Capt. Lambruschi said Andrew C. Foster, formerly cafeteria manager of the headquarters cafeteria had been promoted to food supervisor over the whole chain.

James Durham, Ozark, Ala. a World War II infantry veteran, with 14 years experience in restaurant business has been named to succeed Foster as headquarters cafeteria manager.

Screened Porch

The Plants Area Three cafeteria will cost about \$16,000 for renovations and equipment. It will have a capacity of about 125 persons. In addition to the regular inside cafeteria facilities it will also have tables on a screened-in porch.

Capt. Lambruschi says the cafeteria will probably be the only one on the arsenal that will serve three meals a day. When it opens it will open for the customary breakfast and luncheon service, and will add supper later.

Snack Truck

The serve-yourself food truck is expected to go into operation in about three weeks. It will replace a panel body truck currently being used to carry snack luncheons and soft drinks to outlying arsenal areas.

Similar to the cream-colored hot food van, the new snack truck will allow patrons to walk through, serve themselves, and pay the driver as they leave.

New Group Of Officers Promoted By U. S. Army

WASHINGTON (AFPS) — Continuing its policy of promoting officers in small increments, the Army has announced the temporary promotion of 99 first lieutenants to captain and 29 lieutenant colonels to colonel.

Of the 99 new captains, 78 were reservists, six were national guardsmen and six were regular Army. The cut-off date for this group was Aug. 3, 1947.

Of the 29 colonels, 19 were reservists and 10 were regular Army. The cut-off date for this group was April 13, 1943.

Think Abit, Earn Money

It pays to have ideas.

In the first six months of 1952 \$852.16 have been paid by the Efficiency Awards program for ideas on how to get Redstone's national defense job done better.

These ideas are saving the government an estimated \$26,275.62 a year. These ideas were suggested by only ten people!

Again we say, it pays to have ideas. All it takes is a little exercise of the grey matter, a trip to the nearest red-white-and-blue Efficiency Awards box for a form, the filling out of the form and placement in the box.

3 RSA Officers Go To Aberdeen

Three Redstone officers have been named to attend the ten-months Advanced Ordnance School at Aberdeen Proving Ground, Aberdeen, Md. They are Maj. Richard C. Miles, Maj. James C. Miller, Jr., and 1st Lt. Gerald E. Ledford. Maj. Miles came to the arsenal in August, 1951 from the Office, Chief of Ordnance, Washington, D. C. Here he has been project manager in the Director of Projects office.

Maj. Miller, chief of the Technical Staff, T. E. Division, has been at Redstone since guided missile activities were transferred from Ft. Bliss, Tex.

Lt. Ledford was assistant chief of the National Procurement Division before receiving the new assignment. He also came to Redstone from Texas in 1950.

Column Capsules

The August meeting of the National Federation of Federal Employees will be held at 7:30 p. m. Aug. 7 at the Yarbrough Hotel.

Plans for the opening of the Service Club, now in the process of remodeling have been moved back to Aug. 21.

THINGS TO REMEMBER (or forget): Aug. 5, 1847, Gen. Scott marches on Mexico City. Aug. 6, 1925, motion pictures begin their eternal talkathon; Aug. 8, 1909, the Indianapolis Speedway is opened. Aug. 9—1780, Francis Scott Key born, 1831, the first steam locomotive, and 1921, Veterans' Bureau established. Aug. 10—1821, Missouri enters the Union, and in 1874, Herbert Hoover is born.

The Tennessee Valley Accountants, now known as the North Alabama chapter of the National Association of Cost Accountants will have its Charter Night celebration, Sept. 15 at the Decatur Country Club. The national president and national secretary will present the charter.

William C. Sayre, originally of Asheville, N. C., has been named chief of the Legal Branch at the arsenal. He came here from Atlanta where he was an attorney adviser for the Civil Aeronautics Administration.

Sayre attended Asheville University and Biltmore College in Asheville, and is a graduate of the (Continued On Page 2)

Second Third Army Safety Award Is Given To Redstone Organization

SIGNAL BRANCH RECEIVES SAFETY AWARD—Maj. Henry C. Kincaid (right) receives the Third Safety Award, Certificate of Merit, from Brig. Gen. Thomas K. Vincent, Redstone Arsenal commander, in a brief ceremony July 31. Watching were members of the Signal Branch who aided in compiling the two and one-year record of no lost time accidents. Center is J. H. Hyer, Safety Section. The award is the second major safety recognition given to an arsenal unit this year. Earlier Manufacturing Division received a similar certificate. (U. S. Army Photograph by O. B. Schlotterbeck.)

K - Vet Bill Signed For Fall School

WASHINGTON (AFPS) As promised, Congress delivered the eagerly awaited K-Vet Bill in time for the fall school term. The President promptly signed it.

The Bill would give educational loans and unemployment benefits, as well as mustering-out pay, on-the-job and on-the-farm training to veterans who served in the Armed Forces on or after June 27, 1950.

The big problem posed in the conference committee was how much the veteran would receive to pay for his subsistence, books and tuition. It had already been (Continued On Page 2)

CPL. PLUMMER

Cpl. Plummer Wins July MP of Month

Cpl. Richard Plummer 23, of 3523 ASU is the Military Policeman of the Month for July, according to an announcement by Capt. James M. Fail, Provost Marshal. Cpl. Plummer was selected from a group of three candidates July 31 at the Provost Marshal's office. Each of the four military police platoons stationed at the arsenal nominates a candidate for the honor based on the number of times a man has been named "M.P. of the Day" by his platoon leader. One of the four men for July was hospitalized at the time of the selection. His name will be carried over on the August group.

Cpl. Plummer is the son of Mr. and Mrs. Stewart Plummer, Syracuse, N. Y. He came to Redstone in February, 1952 after three years duty in Japan as a military policeman. He first entered service in July, 1948, and received basic training at Ft. Bragg, N. C.

12th PROS Class Graduated Monday

Lt. Col. S. M. Smolensky, chief of the Procurement Group, National Procurement Division, was guest speaker, Monday, 1 p. m. at the Post Chapel for the 12th weekly graduation exercise for the Provisional Redstone Ordnance School.

Students of the class who were scheduled to receive proficiency certificates for completion of the Guided Missile Guidance Components course included:

Pvt-2s: Gerald F. Amfah, John L. Crobin, Maurice A. Dickens, Robert H. Ferguson, Gene L. Fredrickson, Robert F. Merz, Frank J. Metually, Donald A. Minton, Martin J. O'Connell, George A. Reed, Horton B. Shute, Floyd R. Sowers, William J. Webb, Robert B. Woodville, Robert G. White, James Wright, Norman R. Haltner, and John E. Coleman.

Friends and relatives of the students, as well as others interested are welcome to attend the weekly exercises.

Post Signal Piles Up 2 1/2 Year Record Free Of Lost Time Accidents

A second Redstone Arsenal working organization has been recognized for its safety-conscious operations. The Post Signal Branch, late Thursday afternoon, received the Third Army Safety Award, Certificate of Merit for a two and one-half year record of no lost time accidents.

In a brief ceremony in the Post Signal headquarters, members of the group witnessed the presentation of the award by Brig. Gen. Thomas K. Vincent, Redstone commander, to Maj. Henry P. Kincaid, Post Signal officer.

During the period, beginning Jan. 1, 1950 and ending June 30, 1952, the Signal Branch compiled 10,500 military man-days and 135,250 civilian man-hours without a lost time accident.

Earlier this summer, the Manufacturing Division received a similar certificate for an 11 month period of 1,000,000 man-hours. Both records contributed to the arsenal's 1951 3.1 accident frequency rate which aided the Ordnance Corps in receiving the National Safety Council's highest safety award.

Gen. Vincent said the Signal Branch's record is remarkable as its field of responsibility has increased fivefold while the staff has only doubled. He also noted the latent danger of the work in such things as pole climbing and working near high-tension lines in all types of weather.

Since January, 1950, the arsenal's telephone system has increased from about 325 instruments and one manual switchboard to today's 1,575 telephones, two automatic exchanges and three manual switchboards. Signal crews maintain about 50 miles of telephone cable, a teletype net, radio communications and two fire-emergency telephone nets.

13 Days Of Heat Unlucky Enough!

Who says 13 isn't an unlucky number?

Superstitious or not the 13 days of 100-degrees, or over, heat at Redstone through Thursday is certainly to be considered unlucky. Besides, July 29, last Tuesday, saw the silvery column hit the 108 mark, the highest recorded so far. As for rain, the last measurable rain was .01 inches on July 16, which means at least 16 days of dry, dry skies.

Night temperatures have, however, continued to be pleasant, with reading ranging in the 60s and low 70s. The lowest was 61 degrees Fahrenheit on July 25, and the highest, 74 on July 30.

Humidity has ranged in the 60s also, at the height of the days' temperatures. The highest daytime humidity was 69, 68 per cent on July 25, the lowest 23 per cent on July 30.

The statistics as given by the Water Treatment Plant:

Date	max.	min.	hmdy
July 25	103	61	68
July 26	105	64	60
July 27	107	66	60
July 28	107	68	64
July 29	108	63	66
July 30	102	74	23
July 31	100	72	58

PARIS — During the Franco-German war in 1870, Paris' only contact with the outside world were microscopically photographed messages sent by carrier pigeon.

Manufacturing Division

By ROBERT M. HOOKER

We haven't figured out whether it is a coincidence or whether it holds true to fashion for all the chauffeurs in our division to be named James. The drivers for the Manufacturing Division headquarters are James Boyd, James Holway and James Jones. We identify them by Pete, Jimmy and Jones, respectively, and it simplifies matters greatly.

By the way, James Jones is quite the versatile type. Besides being Capt. Long's driver, he is in the pill reducing business, stock car racing and the jewelry and watch repair business. The latest news is that he is raising hounds.

Bicycle Hat

Mrs. Martha Frierson's most recent surprise is her hat with the bicycle on top. She says that the wheels on the dome automatically make her a "big wheel".

We were so sorry to hear of Mrs. Martha Frierson's little accident in Decatur. We know it must have been very painful due to the amount of swelling.

New Talent

Mrs. Ethel Overton and Mrs. Louise Steakley have taken up singing. It is understood that the duet is available for dinner meetings, fish fries, and what have you. If you like hill billy music with lots of yodeling, these are the gals to see.

James C. Prestage is getting so nervous these days that he nearly chewed up a cigar he was smoking the other day. Is it the hot weather or what, Cecil???

If you go to the stock car races on Wednesday night be sure to look and root for "The It Tee Go - 72." I hear the Walkers and Haislips have been doing pretty good on the speedway lately.

Helping Hands

The employees at A-156 are taking up a collection to buy Alma Boggs a pair of glasses. It seems Alma couldn't see the stop sign at our entrance. Of course, the M. P. presented her with a little reminder that might help.

Someone referred to our friend John Clarke as the "friendly undertaker."

Hoke Wallace, Billy Payne and Earnest Baucom have returned from Cornhusker. Gus Woodard has completed his training and is back from Rock Island.

Silent Rival

Ethel Overton was very worried when she heard that Jack Hyer was getting a new secretary. Ethel is happy now though because she found out that it was Mrs. Hyer who bought the secretary to go in their living room at home.

Foke Wallace certainly cleared up a lot of questions in people's minds when he finally told us that the bags he kept referring to on his recent trip was really his luggage.

3 Parties, He's Out

The funny and very peculiar way in which you find Bill Young these days will wear off in time. You see Bill has gone through much lately. You can tell this not only by his manner, but by his looks.

Bill is a serious minded person and has taken this election year to mean much. He feels deep down in him that our whole civilization depends upon what actually happened last week in Chicago, what happened week before last, and what must happen in November.

As you have already summed up, Bill's appearance, moods, manner and peculiarities are not really Bill,

but the repercussion of an election year.

Girl Bait

It is understood that James Prestage is turning his title of "Lover Boy" over to Billy Payne - as if Billy needed it. Billy tells us that his main difficulty is keeping the girls away - you know, bees around honey.

Louise Steakley informed Pfc. Hunt and Pfc. Kassel that she heard through the grapevine they were going to build a private swimming pool for privates.

Sandra Cribbs isn't talking too much these days. It is hard to find out very much from Sandy. She couldn't keep these deep secrets from us. What's cooking Sandy?

Dewey Meeks stays in trouble all the time. We don't know what he will get into next. He will have to account to Bob Hooker for his last act.

Luxurious Lap

The latest in the Manufacturing Division is the sudden rush to buy air conditioning units. It must be nice to afford such luxury and comfort. This reporter is waiting for his GS-2 raise so he can get in that class - you know Buicks, deep freezes, television and now air conditioning. What is more pleasant than this "American Way of Life." Believe it or not, there are people in our division who have all these things.

Oui, You All

The report is that Jack Bock, who went to Canada on his vacation, has already picked up much of the French-Canadian dialect. Do hope we will be able to understand him when he gets back.

It has often been said that you can spin your wheels and get nowhere. This is not the case in Manufacturing. When our wheels spin they go somewhere; in fact, four of them went to OAC recently. Capt. Long, J. M. Julich, I. D. Lewis and E. L. Merritt.

Our latest addition to the Manufacturing Division is Doris Toftoy Doris, we welcome you as a member of the gang.

Mary Kate (Daisy Mae) DeYoung has a very bad habit of slowing down for green lights, waiting and then going on after the light turns red. We won't be surprised at all to find her with a set of wings before long. On the other hand, it would surprise us if she did get a set of wings.

James Jones ran into Mr. Hyer's office the other day with a Southern Railway time table. He asked Jack to help him read it. After much discussion and a long detailed explanation, Jack asked Jones where he was going. Jones replied very coolly - "Nowhere."

Better Than Brains

Berby Majors tells us that the best cure for dandruff is to spend one week on Line 2. While there, each day rub a handful of tetryl in your hair and wash thoroughly. However, there were repercussions from this treatment. Although it did get rid of dandruff, in a few cases it got rid of the hair and the top layer of tissues.

Science has recently revealed that the lack of hair on a man's head was directly proportional to his intelligence. The moral to the whole thing is, if you want to be intelligent just rub tetryl on your head.

You have to be tall, blond and beautiful these days before you can get a personally conducted tour of A-156 by the deputy chief. "Just

DEMONSTRATES MECHANICAL BOOKKEEPING—Mrs. Helen Curtis, 1305 Pratt Ave., Huntsville, attractive Redstone accounting clerk (bookkeeping machine operator,) in the Budget and Fiscal Branch, demonstrates one of the three automatic bookkeeping units now used to keep up with the vast business of guided missiles and rockets. In front of Mrs. Curtis is the electrically powered bookkeeping unit. The unit automatically

ly tabulates entries made on ledger sheets and retains information for transmission to the card punching unit at right. The punched cards represent a running account of the arsenal's business. With this equipment, the arsenal's Budget and Fiscal Branch will ultimately eliminate the costly and time-consuming need for manually prepared financial reports. (U. S. Army Photograph by John Pinkerton.)

ain't fair," says Judy Walker.

Civilization Moves Slowly

E. L. Merritt tried to turn "Yankee" land into "Dixie" land when he ordered grits for breakfast in Joliet, Ill. Good Buddy, you didn't really expect grits above the Mason-Dixon Line, did you? (30)

Military Personnel

By CPL. EUGENE S. SZUBA

There has been a lapse in our column writing at Military Personnel. No one in the office had the spare time to write the column. The responsibility of writing it has been given to me by Sgt. Dawson. He has returned from leave a little lazy and has asked me to take it over.

Force Changes

Quite a few changes happened in this office since our last column. We have a new personnel officer. He is 2d Lt. Winfred M. Kirkmar of Greensboro, N. C. and is taking the place of CWO Hubert L. Stone who has left for overseas. He was stationed at Aberdeen before being assigned here. He has slipped into the routine of the office and has become a familiar figure sitting in his office munching on a cigar while reading and signing papers.

Sgt. Perry has left for OCS and we will wish him success. Pfc. Jones of 3523 ASU has taken over the Officer Section and is doing a tremendous job.

Two new men have joined the section recently. One is Cpl. Arley L. Morgan from Milwaukee, who came here from Letterkenny Ordnance Depot. He was working in Personnel at Letterkenny, so has had no trouble adjusting himself to the work here. He is working with Cpl. Davis and has helped ease the workload.

Cpl. Davis now has a reinforcement in his arguments that California is the most beautiful state, because the second man to join our section is Cpl. David E. Lee, another Californian.

Life here is hardly tolerable with Cpl. Davis and Sgt. Dawson telling us of their beautiful state, now they have Cpl. Lee to help them. Cpl. Lee is a Korean returnee. He was there for 11-months.

Plans are on the way to have a Section Swim Party and Picnic. It will be held at the old Bell Factory near Flint River. Everyone is planning to attend. This will be the first such picnic taken by this office. We all expect to have a good time.

K - Vet Bill

Continued From Page One

agreed that he would receive the money himself from which he would pay all expenses including tuition.

Subsistence Proviso

The final version of the bill gives him \$110 a month if single, \$135 if he has one dependent and \$160 if he has more than one dependent. This of course would be for full-time schooling.

For three-quarters time schooling he would receive \$80 single, \$100 a month with one dependent and \$120 a month with more than one dependent. Provisions are also made for half-time students and students who attend less than half-time.

No limitations have been set on the amount of money a student-veteran can earn privately. Schooling time will be computed on the basis of one-and-a-half days for each day of active service not to exceed 36 months.

Muster-Out Pay

Mustering-out pay remains on the same \$100, \$200 and \$300 ratio which appeared in the Senate Bill. Men with less than 60 days' service would receive \$100. Men with more than 60 days' service who spent their active duty in the U. S. would receive \$200 and men who served overseas would receive \$300. Officers above captain or lieutenant in the Navy would be ineligible for mustering-out pay.

Other Factors

Those released prior to the passage of the bill would still be eligible for mustering out pay on a retroactive basis.

The bill also gives a flat \$26 for 26 weeks to unemployed veterans. But the machinery would be carried out by the state and conform to its own labor rules and standards. As for home loans, farm loans and business loans, they would be the same as those granted WWII veterans.

PHILADELPHIA — Heat caused a blaze here in 19 refrigerator cars.

New Jet Engine Has Longer Life

WASHINGTON (APPS) — A new pulse-jet engine with an operating life of 200 hours has been developed by the Navy.

The engine has a six-inch diameter and runs at approximately 150 mph. It is expected to find military use primarily in expendable applications, such as the guided missile field.

Because the long operating life compares favorably with the normal flight time before overhaul of conventional reciprocating aircraft engines and because the engine is light, simple, and easy to construct, it is expected to advance the application of pulse-jet engines to helicopter rotors.

Watch Careless Cigaretts!

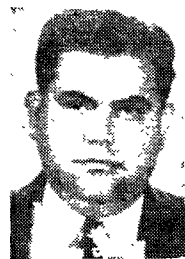

Rain or no rain, drouth or no drouth, it is always a good habit to use your automobile ash trays to flick out cigarettes and cigars. However, when the weather has been as dry as it has lately, the idea is even better. A careless cigarette can do things like above. The arsenal fire force has been fighting an average of three grass fires a day, all due to cigarettes flipped out of passing cars. Sixty-five per cent of all carelessly flipped cigarettes will smoulder dry grass into flames. Eighty-five per cent of all grass and forest fires are due to carelessness. The sign was erected by Post Engineer to remind us not to be careless. (U. S. Army Photograph by O. B. Schlotterbeck.)

Civilian Personnel - - - Veterans Civil Service Status Explained On Critical Points

By H. B. CARPENTER

Over the period of the past few years, many problems and questions pertaining to the veteran's status in Civil Service have arisen. Many of the problems were due to misunderstandings on the part of veterans, as to what constitutes veteran preference.

Veteran's preference in Civil Service is set up by law, in which former members of the Armed Forces, who served during time of war of campaigns, given preference over non-veterans in the selection for jobs.

That preference is accorded by adding ten points to the examination grade of a disabled veteran and five points to that of a veteran without disability.

Other Preference

Thereafter, the preference is given by placing the veteran in sub-group one within his competitive level (a competitive level includes all positions at this arsenal in the same job grade, line of work, trade, or profession, whether or not they have different pay rates, which are enough alike so that interchange of personnel is feasible.) Non-veterans are placed in sub-group two, and in a reduction in force, sub-group two is affected before sub-group one.

Any employee in a reduction in force is in competition only with other employees his competitive level. However, every effort is made to reassign veterans to other jobs which may be available and for which he may be qualified.

Retention Explained

An employee's position on the retention register within his sub-group is determined only by length of service and efficiency rating.

The five and ten points given by law to veterans to be added to their examination grade does not enter the computation of retention points, and a disabled veteran does not

have preference over any other veteran in a reduction in force.

Promotions Misunderstood

Another misunderstanding, which is common among all employees, is in regard to promotions. The selection of an employee for promotion is based on training and experience, attendance, attitude, aptitude, efficiency, appearance, leadership, cooperativeness, and character.

Under the Veterans Preference laws the veteran has greater job protection rights, but the law does not place him ahead of other employees in all instances.

In those cases where veterans feel that their rights have been violated they have every right to file a grievance under the local grievance procedure and to appeal to higher headquarters.

Grievance Procedures

Many veterans do not understand that ample procedure exists at this installation to bring to the attention of all interested officials any violation of individual rights. Much time is lost in writing to Congress men and other outside contacts prior to bringing grievances to the attention of management at this installation.

Every effort, on the part of employees, should be expended to follow the established procedure here prior to contacting higher echelons

SPECIAL RODEO RATES

Arsenal military personnel have been favored by sponsors and staggers of the Aug. 5-9 Tennessee Valley Rodeo, Capt. John Horan, Special Services officer announces, by being admitted at half-price. Capt. Horan says he has about 1,200 tickets for the event which are available to Redstone personnel.

Budget & Fiscal

By ELSIE HUGEL

The one thing we are all sure of this week is that Redstone is in the sunny South! It is three months now without rain (?) Rain that is

the water that used to fall from above, causing many persons to moan and groan and give out with something like "Why does it have to rain today?" Remember? Well now we are sure everyone will agree that it would sound like this "We don't care if it rains all day."

Special Dinner

Despite the heat, Budget and Fiscal was proud to play host this past week to personnel from eight other ordnance installations, who attended a three day school here studying our new mechanized book-keeping system. Wednesday evening a dinner was given in their honor in the Blue Room at the Russell Erskine. Approximately 30 persons attended.

Fare Thee Wells

We said goodbye this past week to Mrs. Nora Zeban and Mrs. Mary Schrimsher, who have resigned to await a visit from Mr. Stork, and to Mrs. Helen Mendel, who resigned to accompany her husband who was transferred to White Sands. Our best wishes to all.

The smile you see on Lacy Strong's face these days is due to the fact that Lacy's team beat Rod

Chamberlain's Star market team last week. Rah for Strong!

Speedsters and Relatives

We understand that Tom (Rube) Willis, Payroll, is now part owner of a hot rod. Plans are being made for its debut at the Huntsville Speedway on Athens Pike in the near future. Everyone is tired.

Have you noticed how tired Mrs. Evelyn Wall is looking these days? Seems her husband, Jimmy D., is the owner of Evelyn Car Number 77. That make Evelyn an enthusiastic fan, which is alright except Evelyn can't seem to get enough sleep.

Jottings

Marvin Moring, Chief of Cost Unit, spent the past week at home resting we understand. It must be nice. Marvin.

We welcome back to our branch Mrs. Ernestine McMillian. We might add it is a girl and she is doing fine.

We are glad to hear that the daughter of Mr. Reynolds Evans, has been moved to her home in Lee High Drive. Before transferring to NPD, Mr. Evans was Chief of Commercial Accounts.

We wish a speedy recovery to Miss Bonnie Rigsby's mother, who is ill at her home in Arab.

We welcome Ancil Farrab as chief of Commercial Accounts. Mr. Farr-

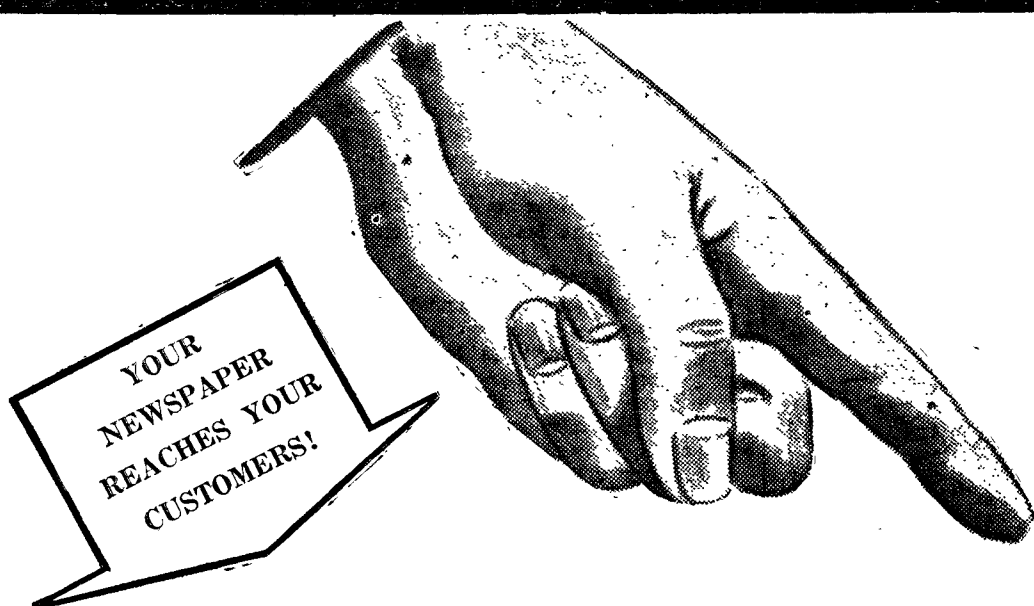

Whaddya mean red tape bothers me! I understand it perfectly now! (AFPS Photo.)

ris transferred to us from Navy Audit Branch, Cleveland. He is a native of Alabama.

Helen Williams, Payroll, visited her parents in Aiken, S. C. over the week-end.

Pauline Taylor is enjoying as her guest her mother, brother and family from Chicago.

The Redstone Rocket

The Redstone Rocket is a civilian enterprise newspaper published every Tuesday in the interests of Redstone Arsenal personnel. It is published by special agreement between Jay Thornton, Haleyville, Ala. printer, and the Central Post Fund and Civilian Welfare Council, Redstone Arsenal, Huntsville, Ala.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and under no circumstances are they to be construed as those of the Department of the Army.

All editorial material for publication must be submitted to the Public Information Section, Bldg. A-101, Tel. 3-2123 and 3-2201.

All advertising and ad payments are handled by Fred Montgomery, P. O. Box 65, Huntsville, telephone 2810, as representative for Jay Thornton. Appearance of advertisements of products in The Rocket does not constitute an endorsement by the Department of the Army.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Selling rates for The Rocket are \$3 a year, or \$1.75 for six months. Mailing arrangements must be made with Fred M. Montgomery.

Armed Forces Press Service material is used in compliance with AFPS policies. Civilian newspapers are not authorized to reprint AFPS material.

PRO School

For Lt Plat by LORIS TROUP

"There's nothing to it, really," said departing Lt. Plat encouragingly. "Just write a column every second Tuesday."

"Oh, monthly" This writer's relief was audible.

"No, every second Tuesday," insisted the lieutenant.

"I'm confused already," I confessed. "Every second Tuesday means to me the second Tuesday of each month."

"Now, I see what you mean. Perhaps I should've said every other Tuesday." With that Lt. Plat rushed out the door, headed in the direction of the Jet Propulsion Laboratory, Pasadena, for a stay of three months.

New Paint Job

Activities at PROS this past week caused all passers-by to stop and stare. The concrete esplanades surrounding Bldg. 668-4 were filled with desks and hard-at-work personnel. To the casual observer it may have looked like a picnic. It wasn't. The interior walls were being painted. Paint fumes from the powerful spray guns and 106-degree sunshine surrounded us. But all the discomfort and inconvenience were worth the resulting "decor." Now the building boasts cool, pale green walls, as will the other school buildings soon.

Birds, Bunnies Confused

Not only did motorists crane to see what was going on at the school, but the wildlife was filled with consternation. Heretofore, the rabbits, quail, and killdeer (all right, killdeer, if you prefer) have had the run of the school grounds and roads. But the hustle and bustle of personnel around the buildings pushed the animals and birds back into the high grass. That is, all except one magician-size rabbit that hadn't checked with the grapevine recently.

Be-Fuddled Bunny

He came rushing a mile-a-minute, applying his brakes at the last second, and skidding to a jarring stop a few feet from a desk. His eyes were out on stems, and the bright sunshine shone cheerfully through his tall pink ears.

After staring the Director or Service and Supply straight in the eye, seeming to declare, "Look Old Man, you've moved into my territory," he quickly ducked into a convenient culvert. Possession is nine-tenths of the law.

Welcome to PROS's first civilian students—Cornelius M. Ryan and Julian B. Angel from the Pueblo Ordnance Depot, Pueblo, Col.; Robert C. Heberling, Letterkenny Ordnance Depot, Chambersburg, Pa.; and Paul A. Perry, Erie Ordnance Depot, Lacarne, O.

Maj. Amedeo A. Nicolosi, assistant commandant, inspected the troops last Saturday and commended them on their appearance.

Pvt. Donald Zoeller made the Honor Student List last week—Congratulations!

New Activities

Lt R. F. Biggam, recreational officer, reports that plans for improving recreational facilities for military personnel are under way. Tentative plans call for softball and football fields, badminton and volleyball courts, horseshoe pits, etc.

Mrs. Loren O'Dell entertained the students wives at an informal get-acquainted party Thursday night at her home on Park Lane Dr. Mrs. O'Dell is wife of Captain O'Dell, president of Class No. 4.

Jo Gaskin's combination of blond hair and Florida tan is becoming—The latter was achieved through a week's vacation.

Jottings

Lts. Robert Yeager and Earnest Deadwyler are attending a school at White Sands Proving Ground, N.W.

Lts. Lewis Garber and Larry Pitman are among those at SPL.

A shopping spree was enjoyed (?) by Lt. and Mrs. Louis L. Holder and Lt and Mrs. James W. Apple in Birmingham this weekend.

Jewell Lemley was surprised with a delightful family supper in hon-

or of her birthday Saturday. Dorothy Ringelstein, too, is young enough to celebrate birthdays—a happy 20th one—as she did last Thursday.

Roger Archambault, contract instructor with Northrop, enjoyed a visit from his parents, who live at Lynn, Mass.

Rosemary Wetherington and June Fitch reported "A wonderful time was had by all" at the Rathskeller dance.

Capt Woodrow Crum has reported to the JPL. Lt. Vincent Culbert is now chief of the Supply Branch.

Boat Trouble

"Havoc," the Crum-Numbers 18-foot runabout (boat, landlubbers), proved to be an apt name. Beautiful as the boat is, troublesome leaks and a "busted" cylinder have put the boat in drydock at Capt Number's house. A little more work would get the boat into the water, but Capt. Number's Arkansas vacation will delay that.

Leisure Trip?

And about that vacation, Capt Numbers reports he will start out in his blue Buick, switch to an ox cart when he nears the Ozark foothills, climb on a mule as the terrain get rougher, then sit on a patient burro for a spell, and the last lap will be made on foot, roped to a local mountaineer guide. If rews of Capt Numbers's quips precedes him, Arkansas may have a rail waiting to assist him on the return trip.

New "Rank" Stripe

For a final word about our friendly animal neighbors:

A small black animal, decorated with a chic white streak down its back, became confused and almost reported to the Director of Training in 668-3, but Lt. Henry Parker, Chief of the Training Aids Branch, directed it toward 668-4. He had recognized in "Petunia" a possible training aid — they're scarce, you know.

Petunia is currently the unofficial mascot of the school, but she is not making fast progress in getting oriented—Lt Parker is having difficulty in delegating this training responsibility.

Post Ordinance

By WANDA L. PALMER

Among those going around the world in the past couple of weeks were Martina Giles, Lavene Jean, Alvia Nell and Waudene Mobley. These four girls took a trip to the Great Smokies.

Among the things that they enjoyed besides the scenery was the play, "Unto These Hills"

That pretty wrapped package you saw on Mrs. Jimmie Griffin's desk in Receiving Section was a political debt of 200 pennies in a jar for Curtis Williams, education director. By the way, she is from Tennessee.

Addie Carter returned from a four-day vacation of visiting with relatives. She has been working in Post Ordinance for quite a while and her transfer came through making it permanent. She is to be a posting clerk for Standard Stock. Glad to have you, Addie.

Tripping Around

Myra Brownholtz took a trip to Philadelphia not too long ago. She and her husband and daughter vacationed with relatives. One of the highlights of their trip was a day's cruise on the Delaware. Myra says she also enjoyed a day spent in Atlantic City. Sounds quite interesting.

Jane Graham recently returned from a two-week's vacation looking very rested. She spent the first week in the Smokies and the last week just resting at home. A very good idea, we think.

Big Party

Post Ordinance was entertained with a watermelon cutting and party at the Big Spring Park. Everyone brought friends and families and enjoyed the affair. Prizes were given to the winners.

Grade raises were celebrated this

week by Ann Adcock, Eddie Fylant, and Florence Palmerlee. Congratulations, girls.

The Leave Takers

We were sorry to lose Eva Jane Stewart, who is going to Manufacturing transferred to director of logistics office.

Betty Whitaker Burroughs is re-

signing to join her husband who has just finished Officers Training School. That accounts for that big smile Betty has been wearing all week. They plan to make their Betty Whisenant from Planning Section. We will all miss these girls.

B.F. Goodrich Tubeless Tire

Protects Against All 3 Tire Hazards

- ★ Blowouts
- ★ Skids

Second Softball Loop Mushrooms To 12 Teams

Power - Packed Manufacturing Cleans Play - Offs For Title

A power-loaded Manufacturing division softball team made it four straight last week to win finals in the Shaughnessy play-off and clinch the title of the best softball team in the league.

Last Frame Win
The final win in the play-offs didn't come, however, until the last of the eighth in the second game with finalist 9330-1, when a line drive by center fielder Jack Troup brought in James Talley for the 2 victory win run.

Lost Game
The division team at the start of the bottom of the seventh was about to admit defeat to 9330-1's near invincible pitcher, Jim Verble, according to Charlie Sneed, the champ's manager. The soldiers had the division team, 2-0.

Pitcher Tough
"We had only gotten one scratch hit off of Verble in our six times up. In the seventh we had one man out, when 'Slick' McGinnis, short stop, singled, Loran Tuck, walked. "We sent in Tom Nunley, left field, as a pinch batter for George Foster, and he doubled, bringing in one run. Fred Wells, first base, ruled out to left, but Tuck came in to score after the catch, tying up the game."

Winning Run
In the bottom of the eighth, the manufacturing team's first two batters went out, then Talley and Troup joined efforts to win the game.

Sneed paid high tribute to Verble's pitching ability and his sportsmanship. "We wanted to win, of

course, but after the terrific game he's pitched, I hated to see him lose," Sneed said.

96 Percent Perfect
The division manager had high praise for his own club which won 20 games in regular season play, as well as four in the tournament. The only loss came in the first game with 9330-1, when Verble, again, shutout the division players 5-0.

Pitcher Sam Brown, winner of the final game, compiled a season record of 13 wins and no losses. Fred Wells, won eight and lost one. And William Battles marked the remaining three wins.

The heavy bat belonged to Jack Troup, who accustomed to long distances from his center field post, tallied ten home runs, three of which were grand slams cleaning the bases.

Ball Polers
Sneed said power at home plate was one of the strongest points of the club. In the play-offs alone, the team pulled in 57 runs while allowing only 18 by the opposition.

The Winners
Members of the squad included: Brown; Milford Samples, 3b; Roy Talley, 2b; James Talley, catcher and first base; Troup; McGinnis; Tuck; George Foster, 1f; Fred Wells, 1b, and pitcher; William Battles, pitcher; G. W. Finley, c; Fred Mance, 1b, and Tom Nunley.

The final game was played July 30. In the first game, July 23, Manufacturing poled through a decisive 11-2 win.

New Schedule Ends Sept. 8

Some Nicknames Used To Aid Identification; Only 1 Round Planned

Like little Topsy the Second Softball league just "grewed and grewed."

Cpl. "Dutch" Bollenbacher, says that since the last announcement of the second loop, four more teams have been added, and a considerably revised schedule outlined.

Games Began Monday
The league will play its first games in the first and only round, Aug. 4. In addition a new field has been added to the list, while Field Three, near the Rohm and Haas area, has been dropped for scheduled play. The new diamond is Field 1-A, or the old miniature golf links.

Competitors
Now lined up in the loop are three teams from the second enlisted detachment of the Provisional Redstone Ordnance School, one from the first detachment; one from Staff and Faculty.

Also back in the play will be a Thiokol team. Others are as previously announced, 9330, Provisional Ordnance School, teams one and two, Post Ordnance, 3523, and Redstone Depot.

Names Used
Under the new set up, the 3523 team will use the name Bulldogs, the first team from the second enlisted detachment, Missiles, second team, Rams, and third team, Rockets.

The Umps
Umpires for the games will be Bruce Wilson, Omar Norris, Richard Biggot, Eric Gotthilf, Dave Doynow, and George Fitzpatrick

Electronics Instrument Shop, 16-10. Mech and Electronics pounced on Chemistry later for a 34-13 win.

In a previous appearance Chemistry dropped Maintenance 18-5. And Maintenance, faced with being forced out of the fight, turned the tide with a one run margin in a "death" struggle with Administration, 18-17.

Due for play tonight will be Ballistics putting its perfect record on the line against Chemistry. Last night, Rocket and Maintenance were slated for a go. Mechanical drew a bye.

Following tonight's game, league officials will meet to chart further course of the elimination.

Haugh Wins Golf Meet On July 26

Eighteen Rohm and Haas golfers competed July 26 at the Huntsville Country Club in the first Rohm and Haas Golf Championship tourney. Eugene Haugh, Ballistics, emerged as the 1952 champ with a low gross of 87. Bob Moorman, was second with 88. Moorman is in Stores and Property.

The low net was shared by Dr. Clayton Huggett, Research and Jim Dodrill, Engineering, each with a 71.

Basketball Season Call Made By Special Service

Plans are already underway for formation of the 1952-53 basketball league, Capt. John J. Horan, Special Services officer says.

"We expect about ten or 12 teams this year," he said. "Anyone who is interested should contact Special Services now, at Ext. 5615, so we can accurately determine the interest, and plan for an organization meeting."

New Game Dates, Locations Given

Here is the complete schedule for the Second Redstone Softball League. The numbers at left (1, 1-A, 2,) refer to playing fields, One, near 9330 TSU area, One-A, the old miniature golf links, and Two, near Provost Marshal headquarters.

9330-9330 TSU; Bulldogs—3523 AS U; GM-1—Provisional Redstone Ordnance School team one. GM-2—the second RPOS team; Depot—Redstone Depot from the Field Service Division;

S. & F.—Staff and Faculty team from RPOS; Ordnance—Post Ordnance team; 1st EM—team from the first enlisted detachment, RPOS; Missiles—team one from second enlisted detachment; Rams—team two from second enlisted detachment, and Rockets—third team Thiokol—Thiokol Corp. entry.

Persons desiring items to appear on the society pages of The Redstone Rocket should contact Mrs. Helen Hansmeier in the Public Information Section, Mrs. Hansmeier Bldg. A-101, Ext. 3-2201, by noon Wednesday.

WED IN HUNTSVILLE—Shown here are Cpl. and Mrs. Frank Joseph Ferrigno following their wedding July 26 at the Church of the Visitation in Huntsville. The bride is the former Miss Barbara Burtram, employee in the Rocket Development Group, and daughter of Mr. and Mrs. Kenny W. Burtram, Springville, Ala. Cpl. Ferrigno, 9330 TSU, is the son of Mr. and Mrs. Joseph Ferrigno of New London, Conn. They will reside at 500 Fraser Blvd. in Huntsville. (Photo by Jimmy Gill Studios.)

Have you heard about the nervous snake who was very easily rattled?

Barbara Burtram Weds Cpl. Ferrigno July 26

Miss Barbara Burtram, employee in the Rocket Development Group, and Cpl. Frank Joseph Ferrigno, 9330 TSU, were married July 26 at the Church of the Visitation in Huntsville, the Rev. T. L. Flynn reading the vows.

The bride is the daughter of Mr. and Mrs. Kenny W. Burtram of Springville, Ala., and Cpl. Ferrigno is the son of Mr. and Mrs. Joseph Ferrigno, New London, Conn.

Given in marriage by her father, the bride wore a ballerina length gown of net over nylon tulle with a jacket of Chantilly lace. She carried a bouquet of carnations and tube roses.

Mrs. Richard C. Gamble, employee in the office of the Army Inspector of Ordnance, was the matron of honor. She wore a dress of yellow organdy over taffeta with a yellow stole. Her bouquet was of bronze and yellow asters tied with yellow ribbons.

Sgt. Fred W. Bristol, Jr., 9330 TSU, of Warwick, R. I. served as best man, and Sgt. Robert E. Doheny 9330 TSU, of Milford, Mass.

Summer Dance Is Held By NCA Mess Members

An original poem and a song composed by members of the NCO Open Mess, and contests were the main features of the entertainment during the Summer dance held July 26 at the Mess. More than 100 members and guests of the Mess orchestra furnishing the music for dancing.

Pfc. Al Holtzman, master of ceremonies, recited his original poem "Gunga Baron." A guided missile song written by Pfc. John Monteferrante was sung by the NCO quartet which includes Sgts. "Mac" McCarter and Paul Cain, and Pfc. Holtzman and Monteferrante.

THE "Loud Shirt" contest was won by M-Sgt. Earl E. Parker, and Miss Ruth Gilbreath and Pvt. Walt Elliot won the "Orange Dance."

The decorations were in keeping with the theme of Summer, with the orchestra platform arranged to appear as a outdoor band stand. Cpl. Shirley Hale and Pfc. Don Kittrell were in charge of the decorations.

was the usher.

Mrs. Burtram, mother of the bride, wore a green chambray dress with white accessories and a corsage of gardenias.

Mr. and Mrs. Francis Grace entertained with a breakfast at the Huntsville Country Club following the ceremony. The bride's table was decorated with a two tiered wedding cake with arrangements of various colored asters on either side.

After the breakfast, the couple left for a trip to the Great Smoky mountains. Mrs. Ferrigno chose for traveling a green cotton dress with white accessories and a corsage of carnations.

Mrs. Ferrigno is a graduate of Jacksonville State College, and Cpl. Ferrigno is a graduate of Massachusetts Institute of Technology. They will reside at 500 Fraser Blvd. Huntsville.

Lt.-Col. and Mrs. Daniel Thomas entertained 12 guests with a buffet supper and "shutter-bug party" August 2 at their home on the post. The buffet table was covered with a white linen drawn work cloth centered with an arrangement of white gladioli and greenery. Following the supper guest viewed selections of slides from their collections.

Personals

Col. James P. Snooks, Jr., was elected president of the Board of Governors for the Officers Open Mess during a meeting of Mess members July 25. A total of seven men were elected to the Board with four to serve for one year and three for six months terms. The one year term Board members are Col. Snooks, Maj. Enoch P. Sparks, Capt. Thomas C. McOsker and Lt. Guilo C. Panelli, and the six month term members are Maj. Henry Kincaid, Capt. Donald Brown and Capt. Wayne H. Numbers.

More than 200 Rohm and Haas employees and their families enjoyed an outing and picnic supper August 2 in Monte Sano State Park. The afternoon's activities consisted of volleyball, softball, tug-of-war, races, and badminton. Part of the expenses were borne by the Welfare Association and the food was provided by those attending.

Bridge - Canasta Party Fetes Mrs. M. Barrett

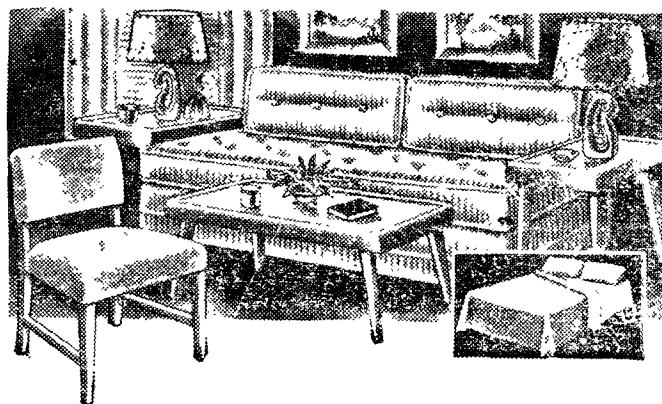

Mrs. Charles Barrett honored her mother-in-law, Mrs. Mary Barrett of Compton, Calif., with a bridge and canasta party July 31 at her home on the arsenal. Two tables of bridge and two tables of canasta were in play.

Mrs. Charles M. Jacob, Jr. won the high score at bridge, and the prize for low score went to Mrs. William J. Durrenberger. The guest of honor had the high score at canasta.

The hostess served fruit punch to the guests as they arrived, and a ice cream was served at the conclusion of play.

NEW YORK — The Department of Agriculture says cabbage is the second most consumed food in America. The first are potatoes.

MARRIES RECENTLY — Mrs. Buell J. Laurence, is the June 10 bride of Pfc. Laurence, 3523 ASU, who is assigned in the Military Personnel Section. Mrs. Laurence is the former Miss Mertie Ann Hauptfear, daughter of Mr. and Mrs. J. O. Hauptfear, Clinton, S. C., and Pfc. Laurence is the son of Mr. and Mrs. Henry A. Laurence, 903 Fifth Ave., S. E., Decatur, Ala. Mrs. Gene Hauptfear of Clinton, S. C. and Cpl. Wilbur Bates, Ft. Jackson, S. C. attended the couple during the ceremony in Laurens, S. C. The Laurences reside in Decatur.

Civilian Personnel

By ROY W. MUMMERT

The Salary and Wage Section had an enjoyable picnic on July 19 at Seneca Springs near Decatur.

Stuart Jones spent July 28 on "TDY" in Atlanta. Civilian Personnel was well represented in the Maid of Cotton Contest. Entrants in the Madison County Contest were Martha Carter and Nancy Wells. LaMerle Clem of the Salary and Wage Section is a contestant in the Limestone County Contest.

Colorado Cool?

After weeks of hot weather we were all envious of Christine Richard's report of all the cool weather encountered on her recent vacation in Colorado.

Mr. and Mrs. Luther Adams spent the weekend on July 26 visiting at

From The Chaplain

By CH. JOHN SIMPSON

The real criterion for our religious faith lies in our belief that it is true. A common tendency is to value religion chiefly from an utilitarian standpoint. Our Christian faith must be an end in itself, not a means to something else.

We are not to worship God in order to be popular or successful or decent or to obtain morale to save democracy. We worship God because we believe that He exists, that we are His creatures and that to serve Him by living our faith is the greatest matter of life. We worship God to obtain man-made goals but because He is God.

In recent years a rash of literature has appeared. Many secrets are supposed to be hidden in the methods which will bring success, happiness, peace within, and abundant life. The idea seems to be, all we have to do is read these articles and the tricks will make us over.

We, Christians are often fooled by these shortcut methods. Our faith calls for genuine searching of the soul, repentance, and suffering, as well as transformation. "Those who would make Christ merely a cosmetician of the personality do not fully understand Him."

Our decisions are made in light of this dedication. We ask not: "What will religion do for me?" but: "Lord, what wilt thou have me to do?" Only then do we express the deep conviction that our religion is true.

LIBRARIAN TO WED — Miss Doris Vann, assistant chief of the Technical Library in Post Headquarters, is engaged to marry Niles White, chemical engineer in the Rocket Development Laboratory. The announcement was made by Miss Vann's parents, Mr. and Mrs. R. O. Vann, 1101 Beirne Ave., Huntsville. The wedding will take place at 5:30 p. m. August 29 at the Central Church of Christ in Huntsville. (Photograph by Jimmy Gill Studio.)

Montevallo.

Sea Too Deep

James Blackburn enjoyed a three-day holiday "deep-sea fishing" off Panama City, Fla. recently. Jim has been mighty quiet about the results of this trip, but time should make what ever stories stem from it quite interesting.

Personals

Officers Mess members have received invitations to a South Seas informal dance to be held at 9 p. m. August 8 at the arsenal airport hanger off Rideout Rd. Admissions is free and Hilding Holmberg's orchestra will furnish the music for dancing. Reservations may be made by calling Ex. 5683.

ANNOUNCES ENGAGEMENT — Miss Jacqueline Browning, daughter of Mr. and Mrs. Harry Lee Browning of Middlesboro, Ky., is engaged to marry William A. Huff, son of Mr. and Mrs. J. A. Huff of Middlesboro. Mr. Huff, a graduate of Tennessee Polytechnic Institute, Cookeville, Tenn., is an employee in the Field Service Division. Miss Browning is a recent graduate of Carson-Newman College, Jefferson City, Tenn. The wedding will be on Sept. 14 at the First Baptist Church in Middlesboro.

Automotive Experts Save Army Millions On Tactical Vehicles

WASHINGTON (APPS) — Tests conducted on Army tactical vehicles have led to modifications that will save \$32 million on vehicles to be bought under existing contracts.

Representatives from the Department of the Army, the Chief of Ordnance and the automotive industry examined trucks ranging in size from a quarter-ton to five tons and came up with several economies. None of the changes will delay production or make present designs obsolete.

Shallow fording capabilities will replace the deep water fording feature on tactical vehicles. Other instances of economy include the following:

Some water-proofing is eliminated and a cheaper, more efficient generator is substituted for the

Building 713

By B. P. CARTWRIGHT

Arnold C. McDouglas has returned from a week's vacation.

Mr. and Mrs. Glenn W. Test have returned from a very exciting vacation in New York City.

Doris White and husband have returned from a weeks' vacation in Daytona Beach.

Mr. and Mrs. Howard Blair and family have returned from a vacation in Mississippi.

Miss Betty Dunn spent the week end in Birmingham attending a wedding.

Friends will be glad to know that Bobby Bradford has returned to work after a week's illness of the flu.

Friends will be glad to know that Mr. A. A. Brackeen wife of the chief inspector is recuperating from an operation in St. Vincent Hospital, Birmingham.

Mr. and Mrs. Loyd Elledge spent Sunday in Nashville visiting her father who is in the hospital.

Friends will regret that Mr. M. E. Popejoy Sr. was hit by a truck Mrs. Popejoy received some bruises, but is hoped that her injuries will not be too serious.

Mr. and Mrs. Clinton Toney and boys have returned from a vacation in Illinois.

sealed type. Nine generator assemblies and several hundred spare parts have been eliminated.

Kits will be provided and some vehicles for making field changes for operation in rough terrains or extremes of climate.

WEDS ARSENAL SOLDIER — Mrs. Edward Jones, the former Miss Jo Ann Liles, daughter of Mr. and Mrs. W. S. Liles, Aiken, S. C., and Pfc. Jones, 3523 ASU son of Mr. and Mrs. W. L. Jones, Dalton, Ga. were married July 5 in Dalton. Miss Peggy Thompson and Clifford Fowler of Dalton were their attendants. Pfc. Jones is assigned to Military Personnel Section. They are residing at 325 Walker St., Huntsville.

A water glass is called a tumbler because it resembles the 17th century silver cups which were weighed at the bottom to prevent spillage.

Post Headquarters

By MONA KING

Art and Rhoda Stambaugh went to St. Petersburg, Fla. for the week of July 20. Art was resident of that city for 22 years and was with the St. Petersburg Times for 13 years.

Even in view of those facts, Rhoda was still unprepared for the welcome they received.

From everywhere people came to shake hands with their former pal and to meet his wife, says Rhoda. "All we did was shake hands, swim, shake hands, shop, shake hands."

However, at elaborated on many phases of the trip. He particularly enjoyed visiting the sponge fisheries and the shipyard at Tarpon Springs, Fla., which is inhabited by 30,000 Greeks.

Before leaving Florida they went to Los Novidades Restaurant in the Ybor City near Tampa to eat chicken and yellow rice, a Cuban specialty. Says Rhoda "I was so interested in that exciting Cuban music until I forgot to eat".

More Floridites

Kay Hopkins, Mr. Veatch's secretary went to De Funiak Springs recently for a week's vacation. She did the usual swimming and bathing that tourists do as well as sight seeing. There are many cafes there that specialize in sea food. Kay's most expressive comment on the delicious fried shrimp at the was "yum-yum".

She commuted to Ft. Walton Beach which is near De Funiak. There Kay and husband Buddy spent many hours speedboating and

swimming, as well as acquiring a good burn. However, Kay says that she did not get the nerve to water ski and left that popular Florida sport to the natives.

De Funiak is centered around a beautiful bottomless lake, but if one prefers to swim in a lake with a lesser depth there are several outlying private lakes. Kay says "the lake was well lighted at night and there were paths that led all around it and it was just as beautiful as the travel folders say".

Pleasurable Business

Combining business with pleasure is the aim of Bob and Jim Hoskins. They have a lease on Madison County Boat Harbor and every spare moment is spent working enthusiastically to enlarge their boat facilities as well as plan boating excursions for groups.

Future plans include an enlargement of the harbor to enable larger boats (yachts to you) to tie up. Plans also include a cafe specializing in river fish, a playground for kiddies and flotillas to Gunter'sville Dam, Wheeler, etc.

The flotillas will help acquaint people with the facilities and work performed by TVA. In addition to the aforementioned plans, Bob and Jim would like to promote some water skiing by both professional and amateur skiers. This would be wonderful recreation for both the athlete and the spectator, so here's wishing them luck.

Quite A Crowd

The arsenal is not the only place that is involved in bodies and spaces, as Ann Troha can affirm. During the week of July 20, she played hostess to her sister, brother-in-law and their three children in her three room apartment. In order to bed them down, it was necessary to utilize the sofa and make pallets on the floor. Logically enough, they spent most of their time out of doors.

Some Men Never Win

Rufus Simmons was transferred to Military Personnel, under which Tables of Distribution have been placed. He used to quote his blond, seven-year old daughter Sara Lee after each trip home to Tennessee.

Recently, she came forth with this remark after hearing all the talk about elections. "Daddy, I think Kefauver is the prettiest man in the whole world, but, bad as I hate to say this, 'I'm a Republican'".

"Capitalistic" Costs Are Pinching RLA

(This is the third in a series of articles condensed from the Army Information Digest and originally produced in the book, "Red China's Fighting Hordes," by Lt. Col. Robert B. Rigg.)

(By Armed Forces Press Service)

The Chinese Red Army is having trouble. Not only are they encountering numerous setbacks with heavy casualties on the battlefronts, but financially they cannot afford to support their troops. Even before the Red Army aggressively moved into Korea, the financial burden of her large organization was being felt.

RIFLED Relief

Not long ago, in an effort to cut and "strengthen" her ranks, an order was dispatched to get rid of men who were not good soldier material. Today men are being purged daily—sometimes shot for laziness or inefficiency.

Fewer Privileges

Other moves taken by the commissars in their "conservation" program included: limitation of soldier marriages, furloughs cut to a minimum and reduction of meals.

Morale Down

To the Red soldiers, who anticipated some reward for their service in

the Civil War, this has brought decreased morale. Now they are dying in a new war and they don't like it.

As a result of the commissars' "division slice" program, thousands of soldiers are unhappy because they cannot get married. Millions are watching the contents of their rice bowls dwindle. Discord and smoldering thoughts among the ranks are common and continually

increasing.

Guns Expensive

Not all the problems lie with personnel. There's the dollar cost of such items as jet aircraft, tanks and big shells. The arsenals are modern, intricate and expensive—but they lie in the USSR, and with each delivery of big war machines comes a bill from the Soviet Union.

Bitter Tea

Cash may not be called for; a

barter of goods is the most common transaction. This has put an extra drain on the people at home as well as the troops. The gouging continues each day. The Peking warlords are seeking ways to sugar a very bitter tea for the people.

ATLANTA—A physician here says there is no connection between hot weather and tempers. He calls hot weather just an alibi for violence.

The Redstone Rocket

VOL. 1 NO. 28

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

AUG. 12, 1952

Here's How Arsenal Can Help Set Blood Record

Redstone Arsenal personnel are within sneezing distance of pushing the Blood for Defense contributions well over the 1,000-pint mark when the Bloodmobile makes its next expected call in September, the anniversary month of the current series of visits.

To help increase the number of donors needed to add to the 910 pint total, The Rocket is printing facts from a guide to prospective donors.

Age Limits

Anyone between 21 and 59 is acceptable. Persons between 18 and 21 must have their parents or legal guardian's written permission.

There should be at least eight weeks between donations, and not more than five contributions are advised.

Health Factors

Anyone in good health, who does not have a cold at the time of donation, or who has not had a recent illness or operation, can donate. Persons who have had malaria, or within the past two years, jaundice, are not accepted as donors.

At the time of blood collections, donors are examined on weight, temperature, pulse, blood pressure, hemoglobin, and medical history.

Watch Diet

Bloodmobile officials say that donors should not eat any fatty, or fried foods within four hours of the donations. Fatty foods include fatty meats, butter, mayonnaise, pie or cakes containing fats, milk, shortening, or cream.

This request for fat-free diets four hours before the donations is to prevent the spoiling of the processing of whole blood into the battlefield-used blood plasma.

Fruits, fruit juices, boiled or poached eggs, dry toast with jam or jelly only, coffee or tea without cream, lean meats, which have been boiled or broiled, butterless bread and crackers, are some of the "safe" fatless dishes that can be eaten in the four hour period.

PROS Students Finish Courses

Another class was scheduled for graduation from the Provisional Redstone Ordnance School yesterday afternoon at 1 p. m. in the Post Chapel. Maj. Charles E. Barrett, director of logistics, was the guest speaker.

Eighteen privates, second class were scheduled to receive their proficiency certificates for completion of courses at the school. They were:

Raymond S. Basta, Jr., John M. Bohrstedt, Angelo A. Defalco, John H. Elgin, Henry F. Ernest, Glenn T. Garoutte, Gene C. Hughes, Arne W. Luoma, Kenneth L. Marlatt, Robert W. Marshall;

William H. Maus, Emil J. Navrkal, Dominic B. Piccolomini, Gerald P. Prokuda, Donald A. Schofield, Frederick G. Stanford, Jr., John D. Work and Merlin A. Ball.

Column Capsules

The Army Audit Agency at the arsenal was visited Aug. 4 by authorities from Washington, D.C. and Atlanta for an annual inspection of audit activities. The men who composed the inspection team were Capt. James S. Abney and Robert H. Riner of the Audit Division, Comptroller of the Army, Washington, and Carl M. Rose and CWO J. DE-Bruin, Survey Branch, Atlanta Regional Office, Army Audit Agency.

Underwood Hired By Credit Union

Oscar F. Underwood, III, Huntsville, has been employed by the Redstone Federal Credit Union as bookkeeper and fulltime assistant in the operation of the mushrooming organization.

Underwood, who is a graduate of the University of Tennessee in business administration, is the first employe of the young organizations.

Thurman Smith, treasurer, said the group now has deposits of about \$45,000 from about 800 members. The union has also negotiated a total of \$15,000 in loans to aid in meeting loan applications filed with the group.

Persons are encouraged to take advantage of this saving organization and see the credit union representative in their area about opening accounts.

Muster - Out Pay Provisions Made

WASHINGTON (AFPS) — Personnel on active duty can expect their mustering-out pay in \$100 installments, the Defense Department has announced.

Regulations and procedures for administering mustering-out pay authorized by the recently signed K-Vet Bill were also outlined in the announcement. Only veterans already honorably discharged or

Persons who are eligible to make applications for mustering-out pay under the bill law may apply through at least two channels here. Applications are available in orderly rooms at Redstone, and forms submitted by the American Legion are acceptable by the Veterans Administration.

released will receive the payment in a lump sum. They must, however, request payment through application.

Amounts Paid

The new law stipulates that mustering-out pay will be paid to enlisted personnel and officers below the grade of major and lieutenant commander. The exact sum of the payments are given as \$100 for less than 60 days service, \$200 for more than 60 days service without foreign duty, and \$300 for more than 60 days service including foreign duty.

Eligible Receivers

Personnel honorably discharged or released after June 26, 1950 are eligible for the pay except:

1. Personnel transferred or returned to the retired list who receive retirement or retainer pay. Those retired or separated because of physical reasons are excepted.
2. Personnel who are discharged or released on their own request to accept employment and have not served outside the continental limits of the U. S.
3. Personnel whose total period of service has been as a student in a civilian institution.
4. Personnel discharged to enter the U. S. Military Academy, Naval Academy or Coast Guard Academy.
5. Personnel whose only service has been as a cadet or midshipman in the three Service academies or in a prep school for candidates to one of the Service schools.
6. Personnel ordered to active duty merely for training or physical examination for a period of

(Continued On Page 5)

Mercury Down Humidity Is Up

"It ain't the heat, its the humidity," could well have been the excuse of Redstone folks last week as they commented on the weather.

The heat—per the Water Treatment Plant thermometer—dropped off after August. 3, the last day of a 16-day stretch of 100 plus temperatures. The mercury actually ranged down to a high of 80 on Aug. 7, the last day of this report.

The low readings, if anything moved up the Fahrenheit scale over the 100 plus days' lows, ranging in the high 60s and low 70s. The lowest high for the period was a 64 on Aug. 2, and the highest lows were 70 on each Aug. 5 & 6.

But, in spite of these seemingly milder readings, the weather still seemed uncomfortable. The reason the relative humidity, which twice reached the 100 per cent saturation point, and which at least half of the time was in the 90 per cent or better bracket.

That scarce commodity, rain also pelted down somewhat more than usual this year, with 1.66 inches being reported last week. This brings the total since July 1 to 3.67 inches.

The readings for the past week:

	hi.	hum.	low	hum.	rain
Aug. 1	100	50	68	90	.00
Aug. 2	100	41	64	100	.00
Aug. 3	100	61	68	90	.04
Aug. 4	96	100	68	56	.44
Aug. 5	83	91	70	80	.83
Aug. 6	89	92	70	73	.33
Aug. 7	80	92	68	80	.02

Pvt. Lee Heads 17 In 2nd PM Class

Pvt. Donald L. Lee, has been named as the honor student in the second graduation class of the Police and Security School conducted by the Provost Marshal's office at Redstone.

The class of 17 received their certificates of completion Friday afternoon at 2 p. m. in a ceremony at the Provost Marshal's office. Members of the class consisted of military and civilian police. They were:

Members

L. B. McClendon, Pvt. Gilliam Mitchell, Archie H. Holman, Sgt. Frank Sittig, Frank G. Hornbuckle, Pfc. Allen C. Von Brock, Lewis A. Hayes, Pfc. Richard H. Cwierzniak;

Edward Head, Cpl. Ernest W. Tullis, Daniel Childress, Pfc. John E. Bryant, Jack Drinkard, Pfc. William H. McNeely, Charles B. Woody, and Pvt. Lee.

The group attended an 80-hour course in military police subjects.

Artists' Group Invites Interested To Meetings

Arsenalites who are interested in any art form at all, from ceramics to sketching, canvas work, and all other creative expressions, are invited to attend the Huntsville Art Group meetings each Thursday at 730 p. m.

The group, organized about a month and a half ago is planning an outdoor exhibit late this month or early next month.

Meetings are held at the William C. Aycock home on U. S. 241 South. Persons interested are requested to call Mrs. Aycock at Huntsville 1535-W.

Changes Meeting

American Legion Post 37 will meet on the first and third Wednesdays of every month, according to an action taken at a recent meeting. The group will have its next meeting Aug. 20 at 8 p. m. The meeting place is 304 Meridian St., Huntsville.

RSA Service Club Will Open With Big Ceremonies, Aug. 21

Three Specialists Assigned AAA

Three enlisted men have reported for duty with the Redstone residency of the Army Audit Agency under the Armywide policy of assigning enlisted personnel in jobs best suited to their education and experience. A group of 85 men were selected for assignments at the 19 Army Audit Agency residencies under the Atlanta Regional Office.

The men assigned here are M. Sgt. Claude H. Willis, Pfc. Robert A. Epstein, and Pvt. Harry Mullitin. They will work with the civilian auditors of the local Agency on post plus fixed fee contracts and Army installation accounts.

Sgt. Willis is a graduate of Springhill College with a bachelor of science degree in commerce. He is the son of Mr. and Mrs. Claude H. Willis, Sr. of 1016 Cherokee St. Mobile, and is married to the former Miss Jeanne Leard, daughter of Mr. and Mrs. Chas. C. Trippe, St. Elmo, Ala. They have two children, Claude III, three and one half years, and Joseph, four months.

Pfc. Epstein, originally of Hartford, Conn., is a graduate of the University of Connecticut with a bachelor of science degree in accounting. The son of Mr. and Mrs. Simon Epstein, 17 Thomaston St., Hartford, he entered the Army in December, 1951, and received basic training at Ft. Dix, N.J.

The third soldier in Army Audit, Pvt. Mullitin, attended the University of Florida and is a graduate of Florida State College with a bachelor of science degree in commerce. He is the son of Mr. and Mrs. Harry A. Mullitin, 648 Beard St., Tallahassee, and is married to the former Miss Mary Lillian Baggett. After entering service in February, 1952, he received basic training at Ft. Jackson, S.C.

Capt. Vest Killed In Air Accident

A telegram was received early last week that Capt. Clyfton F. Vest former executive assistant in the Technical and Engineering Division, was killed in a B-25 crash while enroute to his home at Santa Cruz, Calif.

Capt. Vest, who had been at Redstone since December, 1950, had been attending a two-month course in procurement at Ft. Lee, Va. He had completed the course and was going home for a short visit before returning to the East Coast and a European assignment.

The crash occurred on July 25. The funeral was held at Santa Cruz.

He is survived by his wife, the former Miss Caroline Schneider of St. Louis, and Troy, Mo., and three children. He is also survived by his parents Mr. and Mrs. William F. Vest of Pacific Junction, Iowa. Capt. Vest left Redstone in May.

"Ham" Radio Enthusiasts Meet Every Friday Nite

Radio amateurs, or those who would like to get into "ham" radio can do so by attending the Huntsville Amateur Radio Club meetings each Friday at 730 p. m. at the WFUN studios.

The group is dedicated to assisting non-amateurs to become amateurs. A proposed project for the group is the establishment of a Civil Defense net in this area.

Dues are 25 cents a month for licensed amateur operators, and 15 cents for associates, or non-licensed members.

Aug. 21 will be Special Services week at Redstone as the group opens the newly renovated and remodeled Service Club in Bldg. T-151, and inaugurates the first of three radio broadcasts to be aired from the stop.

First Show

The initial show, according to Miss Emily Evans, Service Club Director, will go on the air at 8 p. m., Aug. 21 from the Service Club as part of the opening night festivities.

A second show will make its debut Aug. 24 at 2 p. m., and the third, Aug. 26 at 8 p. m.

Remodeling and refurbishing costs of the new Service Club total about \$20,000. Included in the club are a craft shop, photo lab, exercise room, game room, lounge, music room, and an outdoor recreational area.

Interior Decoration

The lounge is fitted in blonde furniture with red, gray, gold, and green furnishing. The interior decoration follows these colors, with items such as lamps, ash trays, etc. being either teal blue glass or copper.

Members of the 9330 TSU pitched in and have installed high fidelity equipment, turntables, and controls in the music room.

Outdoor Games

Games such as deck shuffleboard, and badminton and horseshoes croquet, will be available in the outdoor area. The outdoor recreational area is furnished with wooden deck furniture, and also steel and canvas outdoor furniture.

Special Ceremonies

The opening night will feature ribbon cutting ceremonies opening the club, a dance with Doug Farney and his four-piece band providing the music, and the first radio show.

The first show, a regular hour-long Thursday night feature over WFUN, will be the transplanted version of Nita Flowers "Meet Your Neighbor" show. Nita a mistress of ceremonies, and Sgt. Harry Martin as announcer will interview various military and civilian personalities, and present unusual talent.

Music Program

Sunday at 2 p. m., from the Service Club music room, Cpl. Theodore Foote, 9330 TSU, will air a 20-minute classical music program, using records from the club's record library. Also planned is the eventual presentation of local solo artists.

Puzzler Show

Aug. 26, a 20 questions type quiz show under the guidance of Sgt. Martin will make its initial 30-minute a week appearance. The questions, which are now being solicited for the first shows, will go to military personnel from Redstone for answering on the air.

Army Ups Small Group To Major, Lt. Colonel

WASHINGTON (AFPS) — The Army has promoted another small increment of officers. Ranks affected are captain to major and major to lieutenant colonel.

One hundred captains were temporarily promoted to major. Their cut-off date remains the same as in promotions authorized early in July—May 23, 1946.

Of the group, 99 were holders of ORC commissions and one was a national guardsman.

Forty-three majors were promoted to lieutenant colonel with a n Aug. 31, 1945 cut-off date. Of this group six were regular Army, 36 ORC and one a national guardsman.

Navy's New 15-man Lifeboat

New Life Raft Is Climate-Proof

NAS, FLOYD BENNETT FIELD, N. Y. (AFPS) — The Navy's new rubber lifeboat, that inflates in 30 seconds and provides 70-degree protection for 15 survivors in either sub-zero or blistering tropical weather, was demonstrated by the Navy and Coast Guard here recently.

Dead-Air Insulation

Comfortable temperature inside the boat is maintained by dead-air space installation in the canopy and floor liner which holds radiant heat from the bodies of the survivors.

In the demonstration, a Coast Guard helicopter lowered the lifeboat to personnel who had been "cast adrift" off-shore in a simulated disaster.

In half a minute after hitting the water, the new boat automatically shed its carrying case, ballooned into shape, and raised its own protective canopy. The sailors were able to clamber aboard in time to avoid danger from serious exposure.

Hot Or Cold

Previous Navy tests in Arctic waters showed that heat from the bodies of 15 men would hold the temperature at 70 degrees in cold weather. Tests in tropical waters demonstrated that the insulated canopy helps to keep the heat out as well as offering protection from the sun and wind.

Removable Floor

The boat's three-inch-thick floor liner, inflated by hand pump like a rubber cushion, can be removed in hot-climate areas to take ad-

vantage of the cooling effect of the water against the bottom of the boat. This "floor" can be towed as an additional life raft, if necessary.

"Swinging" Doors

Entrance to the boat is through an after port in the boat's canopy. In cold regions, survivors close this opening with a dual wall seal that also contains insulation dead-air space. In tropic areas, a forward port can be opened to provide forced draft ventilation.

Survival Equipment

Survival equipment packed in the boat's carrying case includes 50 pounds of canned drinking water, de-salting kits for making sea water drinkable, 30 pounds of rations, first aid kit, four paddles, signal kit, lifeboat repair kit, two air pumps, dye marker, sponges, flashlight, nylon sea anchor, whistle and jack knife.

Inflated, the boat measures 15 feet, 8 inches in length; 7 feet, 4 inches in width and allows three and one-half feet of head room.

Identical Fingerprints Found In Texas Twins

LUBBOCK, TEX. (ANF) — The odds are 1,750,000 to one it won't happen. Yet two Army Signal Corps ROTC cadets have identical fingerprints. The Federal Bureau of Investigation found their fingerprints nearer alike than any on record, even in identical twins.

This unprecedented fact was discovered when David and Walter Massengale, 21, of Lamesa, Texas, reported to the Lubbock Police Department for the customary pre-enlistment fingerprinting.

The officer in charge found their fingerprints identical, and several of their fingers shaped almost exactly alike.

"Although there are records of this happening in a few other instances, the Massengale fingerprints come nearer being alike than any ever seen," the officer said. "These boys have the same primary and secondary finger-print patterns."

The similarity, however, doesn't stop there. The twins are of the same height, weight and body dimensions and have the same color eyes. Both are majoring in electrical engineering at Texas Tech and, according to an Army spokesman, both are doing an excellent job as Army Signal Corps ROTC cadets.

MEMPHIS — The Memphis Storytellers League sponsors a summer series of story sessions for children at the municipal parks.

Thiokol Corp.

By PAT CRICK

Thiokol welcomes the appearance of several new faces—Betty Gurey from Lacey Springs has taken Sue Hunter's place in Supply Office. (Sue decided to stay home and do a bit of housekeeping these days). Sara Margaret Hill is new in Maintenance.

Sara lives in woodville, Ala. Billy Joe Walker, messenger clerk and future nephew of "Uncle Sam's Air Force," is being replaced by Morgan Hayes. Jones F. Harbarger hails from Gadsden and is at work in the Safety Dept. Mrs. Ivy Shaw Black, from Huntsville, may be found in the accounting dept.

Patricia Ruth Barnes hails from Doniphan, Mo. and travels the map with her husband who is now stationed at Redstone Arsenal. "Pat" is new in the Personnel Department.

Shuffle, Shuffle

Confusion, resulting from the Administration building's major moving day, has gradually subsided and most persons have now reconditioned their reflexes to walk in the proper door, open the file cabinet on the left instead of the right, and aim at the wastebasket over the right shoulder instead of the left.

Several (we use that word loosely!) offices were involved in the switch. Property Section moved out completely and has taken up headquarters in the Supply Dept. Guess the moving proved to be too much for their records.

Hot Wire House

On Friday we considered ourselves graduated from confusion and settled in our new locations. But the powers that be whipped down an electrical line running to the building and the live wires burned and smoked on the ground just a bit too close for relaxed comfort.

(One salesman, waiting his turn to talk to the purchasing agent, remarked that purchasing agents were quite often hard to see but this was the first time he'd ever encountered one that surrounded himself with 4400 volts of live wire!)

No injuries to report and everyone back at work.

Betty Gooch in Chemical Engineering has been astronomically included these days. Betty is floating on a pink cloud and accompanied by a diamond ring—left finger. Jack Bailey, employee at Redstone Property section is the lucky fellow.

Travelling Folk

Back from vacationing is Lois Meyers, Chemical Engineerings and Marietta Huggins, Statistical Engineering and Reports. Lois visited relatives in St. Louis, Mo., and Marietta toured a bit of Florida. Mildred Buchanan leaves for vacation in Virginia while husband, Jack, packs up for reserve training at Camp Rucker, Ala.

All personnel of Control Lab and their families report to Gunterville Lake Saturday afternoon for picnic. The main attraction of the day will be Leroy Hart performing on water skis.

Something new has been added! Tom Sanford, Al Berisford and Jack Buchanan flew to nearby Atlanta to the "Flying S Ranch" for the weekend. Seems the ranch provides an airfield for the air-minded. —Just how modern can a dude get?

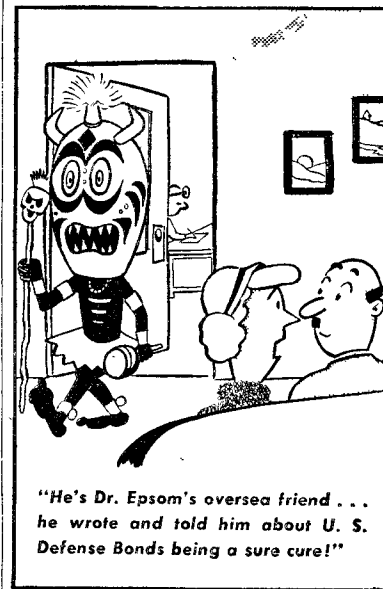

(Ed. Note to a columnist: Some days you can't make a dime; others you gotta incorporate!)

HARTFORD, Conn. — A driver stopped to see if a dog that ran into his car was hurt. The animal bit him. He called the police and wound up being arrested for driving without a license.

CANAAN, Conn. — A teen-ager told officers who caught him stealing wood, that he did it to attract attention so he could confess to crimes committed a year and a half previously.

WOOF! WAF! — Air support isn't needed in the tactics of lovely WAF Betha Lee Devers. An A-3c stationed with the 1703rd Air Transport Group, Brookley AFB, Ala., the Asheville, N. C., tarheel is a former model.

"He's Dr. Epsom's oversea friend... he wrote and told him about U. S. Defense Bonds being a sure cure!"

Promotion Picture For All Grades Is Said Brighter

WASHINGTON (AFPS) — Recent announcements by Department of the Army personnel indicate a general loosening of the promotion picture for both officers and enlisted men.

Officer promotions, according to one announcement, will begin this month with promotions to captain, major and lieutenant colonel. The promotions will be carried out in small monthly increments and continue throughout the fiscal year.

This will mean that officers who have been carried on recommended lists for many months finally should get their promotions.

As for enlisted men, Army G-1 has released the following statement: "Reductions in the number of enlisted promotions have brought

Post Ordinance

By WANDA PALMER

Edwina Moreton enjoyed a week off from work with her mother, who is visiting from Texas.

We want Myra Brownholtz to know that we were thinking of her while she was in the hospital, and during her illness at home. Margin Pruitt has a lot to look forward to now. Seems that her trip to Washington D.C. and her dog collar dress added up to a lasting friendship.

We want to welcome Susan Dayenian. She comes to us from Waukegan, Ill. and is to work in Standard Stock. Also new is Sally Carlson, who is from Wisconsin. She is working in Mission Stock.

Mr. Simmons is back on the job after taking his first sick leave. He has been working at Redstone for ten years and this is the first time that he has been off, because of illness. This is a record to be proud of.

Evelyn Johnston moved up to Station Stock to add another grade to her title.

The new blue Chrysler in front of Bldg. A-171 belongs to Judy Huber. She and Velma Johnson are very proud of their new cars.

Sara Walker spent four days with friends in Nashville to attend the wedding of her best friend. Now she can sing, "Those Wedding Bells are breaking up that Old Gang of Mine."

Hazel Robertson has been attending the University Center, so long that she has been overcome by the exuberance of her verbosity. This is because her favorite subject is English.

Ruby Fanning wants to know the art of desiccating her adiposity. Anyone that knows the answer please contact her.

(Ed. Muscular control at meal times—masticating muscles.)

enlisted grades almost within personnel ceilings. As soon as these ceilings have been reached, enlisted promotions will be resumed. "Promotions then will be made within personnel limits."

Field Service Division

By SUDIE AMSLER

Did you ever wake up early in the morning to find the walls swaying, the windows rattling and the floor buckling under foot? It happened to James E. Thomas and Joe Olszewski when they were on TDY not long ago.

Joe said to Jim. "Jim, do those walls seem to you to be going back and forth?"

And Jim said to Joe: "Well, Joe, yes they do. Let's get out of here." Jumping to the floor, they found it waving up and down. It took very little of this action to cause an equal and positive reaction on the part of these tow characters.

They dashed out of the room (Joe wouldn't even give Jim time to decide which suit to wear) and scrambled down six flights of stairs in search of safety.

Shaking Chandeliers
In a breathless and speechless state, they reached the lobby of the hotel. Here they found the same scene being enacted to the accompaniment of the tinkling of chandeliers.

Odd Weather?
Finally, after being quited by a native of Santa Monica, who, in a calm drawl remarked that the weather was a bit unusual in California that day. They returned to their room, deciding that they might be just as safe there elsewhere.

Pouff!
But for days after their return to NMP, they were making with the hands, describing the earthquake.

The chief of the Technical Publications Section, Mark T. Smith, was also visiting California at the time of the quake. When Mark was asked for his reaction to the quake, he shrugged it off with a "Pouff!", having early in life acquired that ostrich-like attitude which always comes in handy in times of earthquakes and the like: "make-believe-

it-isn't-there-and-maybe-it-will go away." He's a Californian, remember?

See America First

Anybody been to Chincoteague lately? It's in Virginia. Ruth and Randy Mears said it was, and they just came back from there. They also visited Parksley, Va., and Pocomoke City, Md. They said all things considered, they had a gorgeous time.

In the lovely, lively city of Cumberland, Md., the availability of blue skies, green mountains and cool air vied with the access of television in "Wide Open" places to make an enjoyable trip for two of the dull blades of FSD. Sol Cohen and Dave Turvey of NGMECCP were two sated and jaded individuals after a stint spent there, and haven't been the same since. All in a day's work, I guess.

Moral Support

Harold M. Brown took his wife and his son, Phillip, with him on his recent trip to Rock Island. Brown attended the Management Engineering Training Program Procedures Analysis Course. Anyone who goes to a thing like that needs a wife and son along.

Bill and Bernice Estes went to New Orleans the week-end of August first where Bill attended a Navy reunion. Bill says "don't ask me what we did — just say we had a wonderful time." Well, after all New Orleans is New Orleans. And, of yes! Thanks for the pralines, Bill. Everyone enjoyed them.

Too Young To Die

The Robert Outlers entertained their 12-year old nephew, Jerry Johnson, of Springfield, Ill. for two weeks. Bob said that Jerry and a little nine-year old (girl) neighbor argued all during his visit as to which was the best state in the Union: Illinois or Wisconsin. Jerry took the Illinois side, but you know how it is when you try to argue with a woman.

Deep Purple

A group of the girls from RSD have started a new vogue in fingernail polish. Gene Smith, Aileen Martin, Sarah Spurlock, Dottie Evett and Emma Berkheimer are a few of the style setters. It doesn't matter if it does come from ditto fluid, it's very becoming to blondes, brunettes, and redheads.

Anthony J. Roman and his wife have a new hobby now: a new house on Brandon St. Tony says they are working their heads off, trying to get it just the way they want it. It surely does look nice.

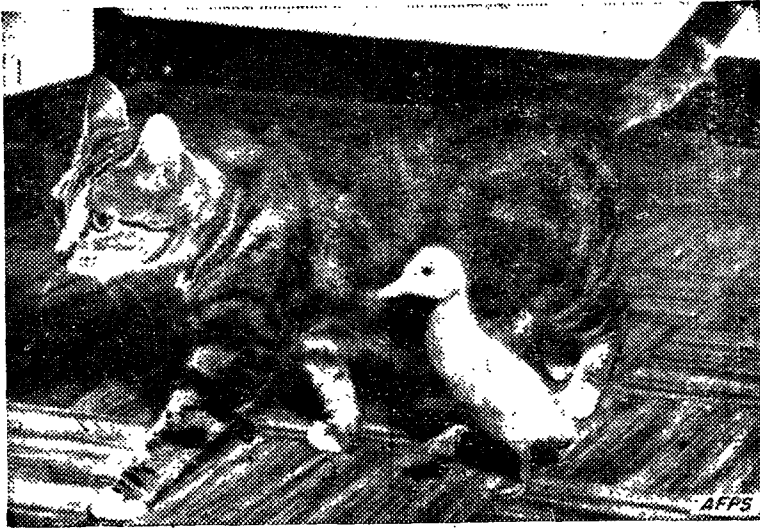

Martha McClure, being the good little mother that she is, resigned her post with the Depot to be with her six-year-old twins, John and Martha. And Bertha Scott transferred to Post Ordnance from Stock Control. We miss'em.

A Rose Is A Rose Is A

Emma Berkheimer is having to rise a little earlier these days in order to arrive at RSD on time. She even has to prepare her lunch. Not only that, she must also go home after work and cook dinner? Reason? Daughter Pat is visiting in Cleveland. Pat, who was here (presumably) on vacation, remarked that she had to take a vacation from a vacation. Talk about a daughter spoiling a mother—well!

Absent-teasers

It is expected that things around NMP will be reasonably quiet for about three months, since those two terrible teasers, Ray Yeagan and Ike Rigell set out upon a sa-

NEWLY ACQUIRED SON—Patsy, mother of four newborn kittens, marches her newly acquired son across the floor. Donald the duck was accepted by Patsy as one of her own when he was brought home by her master, 11-year-old Jerry Cantrell, who had won it at an Alameda County, Calif., fair. Patsy was startled when the duck jumped into the milk dish instead of lapping it cat fashion.

fari to the desert last week.

Several other fellows are away on extended leave, too. Take for sample James K. Davidson, George Keener and Bernard Troup who are in the City of Brotherly Love (Davidson calls it "Filthy-delphia"). And there is Kyle Chalke out in Pueblo, Colo. absorbing the cool clean air of the West.

Getting Warmer?

While some go away and some return, others come in brand new. Dorrance L. Anderson, wife and baby, returned recently from Pasadena and White Sands. Andy had been on TDY for three and a half months. He remarked that they have not had to sleep under blankets a single night since their return.

We're Sorry

The name of one of the "brand new" employees, Hubert Nagle, was inadvertently omitted from column

in its last appearance. Nagle is married, has two sons, eight and nine, and is from Red Bay, Ala. He is in the Engineering Section and everyone is delighted to welcome him into the fold.

New Man

Jack McDonald, a native of Pittsburgh, Pa., came from Ill. to assume

a position in the Component Section of the Technical Branch of NGMECCP. He is living on Randolph Street. Being young and unattached, no one expects him to be a "Lonesome Stranger" for long. Not around these parts.

John Howard Hann, who worked at Raritan for six years, transferred to Redstone and is now in the Cataloging Section of the Publications Branch of NMP. Hann's family, the wife and two daughters, will join him later.

Hann, who has a reserve commission as captain, was in the service for four years, serving with the Ordnance Corps in Italy. Mighty glad to have you with us, Cap'n Hann.

The newest newcomer to come to NMP is a fellow named Pickett (Andrew J.), who is from Marvel, Ala. Pickett will be in the Mechanical Engineering Section of the Engineering Branch. Pick you way right in, Mr. Pickett.

In closing, a great big hand to the new scribblers, Loris Troup and Bob Hooker. Weren't they good last week!

LOUISVILLE, Ky.—Gilbert Brubaker turned to athletic pursuits after an argument with his wife. He began painting. His wife didn't appreciate it. She said he painted all of her clothes whites.

The Redstone Rocket

The Redstone Rocket is a civilian enterprise newspaper published every Tuesday in the interests of Redstone Arsenal personnel. It is published by special agreement between Jay Thornton, Haleyville, Ala. printer, and the Central Post Fund and Civilian Welfare Council, Redstone Arsenal, Huntsville, Ala.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and under no circumstances are they to be construed as those of the Department of the Army.

All editorial material for publication must be submitted to the Public Information Section, Bldg. A-101, Tel. 3-2123 and 3-2201.

All advertising and ad payments are handled by Fred Montgomery, P. O. Box 806, Huntsville, telephone 2810, as representative for Jay Thornton. Appearance of advertisements of products in The Rocket does not constitute an endorsement by the Department of the Army.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for The Rocket are \$3 a year, or \$1.75 for six months. Mailing arrangements must be made with Fred M. Montgomery.

Armed Forces Press Service material is used in compliance with AFPS policies. Civilian newspapers are not authorized to reprint AFPS material.

Gen. Omar Bradley

(By Armed Forces Press Service)
(This is the fourth in a series of articles dealing with the nation's top defense leaders.)

One of the country's outstanding military men, General of the Army Omar Nelson Bradley, was sworn in as the first Chairman of the Joint Chiefs of Staff Aug. 16, 1949 and reappointed for a two-year term in 1951.

A soldier with 41 years of experience, Gen. Bradley won his wartime advancement on the battlefield, highlighting his brilliant career in WWII when he successively commanded a division, a corps, an army, and finally the 12th U.S. Army Group.

Born in Clark, Mo., in 1893, he was appointed to the U.S. Military Academy in 1911 and was graduated in 1915. During WWI he served with the 14th Infantry Reg. rising to the temporary rank of major.

C.O. At Benning

After varied assignments in the U.S. and Hawaii, Gen. Bradley became Commandant of the Infantry School, Ft. Benning, Ga., in 1941. He established the OCS program there which eventually turned out more than 45,000 combat leaders in WWII.

He was promoted to major general in 1942 and given command of the 82nd Infantry Division. In 1943 Gen. Eisenhower selected him to lead the Second Corps in Africa and later in Sicily. Gen. Bradley also headed the First Army in Normandy.

Headed 1,300,000

At the end of the war he was commander of an Army group of 1,300,000—the largest body of American soldiers ever to serve under one field commander.

Three weeks after V-E Day, he was drafted to become head of the Veterans Administration during the critical postwar demobilization of

Education Center

By CURTIS B. WILLIAMS

Things have been popping at the Education Center during the past week.

To start the week off Mr. Parks, Third Army educational advisor, and Ist Lt. Hermanson Third Army education officer, made an administrative inspection of Troop Information and Education functions

at Redstone. Then Sgt. Victor H. Napier left for Armed Forces Information School, Fort Slocum, N. Y. and Sgt. Jerry R. Hook, who recently returned from Germany.

U. S. Armed Forces. In February 1948 he became Chief of Staff, U.S. Army, and was appointed General of the Army in September 1950.

First Chairman NATO

At the first meeting of the Atlantic Pact nations in 1949, Gen. Bradley was appointed the first Chairman of the Military Committee of the North Atlantic Treaty Organization. At present he is the UN representative to the Standing Group of the Military Committee (NATO).

transferred to Fort Benning, Ga.

Business As Usual

A veritable wave of carpenters have been repairing the Education Center Bldg. during the week; but despite these happenings, services were as usual.

During the month of July applications were taken for a total of 23 GED tests on the high school and college level, and several USAFI correspondence courses were applied for.

U. of Ala. Chances

Enlisted military personnel interested in attending the University of Alabama Center during the fall quarter may be interested to know that classes begin on Sept. 22. Those wishing to attend under partial TI&E funding should make application at the Education Center (Bldg 651).

Up To Snuff?

Department of the Army and lower echelons continue to stress educational goals as follows: All officers—minimum of two year college equivalency; All non-coms - high school graduate equivalency; all others - eighth grade equivalency.

From The Chaplain

By Ch. John Simpson

Among the many Christian documents the Lord's Prayer ranks as the most important. It was carefully constructed by Jesus. Of all his teachings none is better known and none is quoted more often. It is the one common ground of all Christian thinking. It is no doubt used more than all other prayers combined.

To follow along the Jesus' way, the follower should make a point to pray the prayer every day and to use it intelligently every day. To do this we should study the prayer and watch carefully the entire structure. Some people rattle it off as though it were a commercial. Little is gained by this use.

The great prayer is a formula for soul development. Development comes by change; to change the soul is the design of the prayer. The prayer meets our needs on our own level.

The prayer falls into seven clauses, seven symbolizes completeness. During the next seven weeks I shall try to help you study these seven clauses. Let's begin by praying the prayer.

"Our Father, Who art in Heaven; hallowed be Thy name, Thy kingdom come, Thy will be done, on earth as it is in Heaven.

Give us this day our daily bread. And forgive us our Tres-

passes, as we forgive those who trespass against us.

And Lead us not into temptation, but deliver us from evil.

For Thine is the kingdom, and the power, and the glory, for every." Amen.

JONESBORO, Ark. — A farmer told his wife to use the family shotgun in the future if she heard any strange noises after an attempted break-in. She did, and now the farmer is recovering from a shotgun wound in his leg.

The Armed Forces reserve ribbon is now available to all eligible servicemen. All regular outlets for obtaining ribbons have sufficient stocks.

Rain, Cancelled Games Slow 2nd League's Start

Y Volleyball Tournament Is Double Elim; Begins Aug. 28

The final game of the YMCA Summer Volleyball league will be played Aug. 26, according to Y officials announcements.

After the regular season closes, the four-team loop will wind up a spring and summer of hot (literally) competition with a double elimination tournament. The tourney will begin Aug. 28.

3523 Win—Again

Last week in three of the scheduled four games, the pull-a-way leaders, 3523 were the only ones to make any real gains. The soldiers added another to their string with a 15-7, 13-15, 15-2 win over the Cumberland Presbyterian Church team.

Splits Series

The other arsenal representatives, the Missilemen, downed the Ramblers 15-9, 15-10, in a series that counted as two games because of previous cancellations, but then lost a 15-9, 2-15, 15-12 series to Cumberland in another double counting play.

Friday the 3523 and the Ramblers were set for a go, and yesterday, Cumberland and the Ramblers were scheduled.

3523 Leads

So far 3523 has a 27-6 lead in the loop with the Missilemen trailing in second with 21-13. Cumberland

is third at 11-23, and the Ramblers remain with 8-26.

Upcoming

Games for this week include a 3523-Missilemen match tonight, and Cumberland vs. 3523 Thursday, and Missilemen vs. Ramblers on Friday.

Muster - Out Pay

(Continued From Page 1)

less than 60 days.

Re-Ups? Option

Personnel who are honorably discharged in order to reenlist will also receive mustering-out pay in monthly \$100 installments. They will have the option of collecting the money either at the time of discharge or at the end of their reenlistment period.

Personnel who have been discharged to reenlist before the passage of the K-Vet bill and who are eligible for the mustering-out pay should first contact their personnel officers for verification of their separation and then their Finance officers to begin processing their claim for payment.

Deadline Given

Veterans discharged or released before the passage of the bill have until July 16, 1954 to submit an informal application for the lump sum payment. Included with the application must be the original copy of Report of Separation from the Armed Forces of the United States (DD214).

The application should be on 8 x 10 1/2 inch paper and contain the following:

Application Instructions

- a. Veteran's name and address, printed or typed.
- b. Service number, serial number or file number.
- c. Statement that he was not discharged or released from active duty to accept employment without serving outside the U. S.
- d. Statement that he is not now serving on active duty.
- e. Statement that he has not received any mustering-out payment or that he has not or will not make any other application for the mustering-out payment for service

Thiokol, Depot Play Thriller

Depot, Rockets, Rams, Thiokol, GM-1, 1st EM Set To Play Today

Opening play in the Second Redstone Softball league moved off sluggishly as two games were cancelled on the opening day, and rain washed out second day play. However, the last half of the first week's schedule moved smoothly

Hot Game

Probably the most thrilling of the seven games played was the Thiokol-Redstone Depot opener, which in 45 minutes completed the seven-inning game. The final score, a close one, Thiokol 3, Depot 1.

Other results saw Post Ordnance rack up its first win on Aug. 4 when it beat the Missiles, the number one (numerically) team from the second enlisted detachment, 7-5. Later in the week, 9330 turned the tables on the Ordnance team, beating them 12-6.

Second Loss

The Missiles, might be called the slow starting team of the week, as it also dropped its second game when Staff and Faculty wound up on top of a 13-11 scoring match.

Other results saw PROS team (GM-2) stop the Bulldogs (3523 ASU nine) 16-10; GM-1 topple the Rams (team two from second enlisted detachment), 9-7, and the Rockets (the third EM-2 team) squeeze by the First EM group, 6-7.

Games postponed the first day included the 9330 v. GM-2, and Bulldogs vs. Staff and Faculty hassles.

Today's Games

Upcoming games have Depot v. Rockets at One; Rams v. Thiokol at 1-A; and GM-1 v. 1st Em at Two, today.

Other games

Aug. 13

1. 9330 v. Bulldogs
- 1-A. GM-2 v. Missiles
2. Ord. v. S. & F.

Aug. 14

1. Rams v. Missiles
- 1-A. GM-1 v. Thiokol
2. Depot v. 1st EM.

Aug. 18

1. GM-2 v. Ord.
- 1-A. Missiles v. Bulldogs.
2. 9330 v. S. & F.

Aug. 19

1. GM-1 v. Rockets
- 1-A. Depot v. Rams
2. 1st EM v. Thiokol

VOLLEYBALLERS TAKE NOTE!

Plans for the volleyball league are still picking up steam, according to Pfc. John Elliott, Special Services, and any group that is interested in getting in the act is requested to contact Elliott at Ext. 5615.

The Special Services promoter, says the hope is to have a large league giving everybody a chance to play and have a lot of fun. Remember, volleyball players, call Ext. 5615, and join the fun.

COLOGNE, Germany — A carpenter who fascinated and horrified thousands of people with stunts aloft the 512-foot cathedral spire to "demonstrate his courage," landed in the pokey as a public nuisance.

after June 26, 1950.

f. Statement as to whether or not he has had any foreign service and the date of his return to the U. S.

Indefinite Enlistees

Indefinite enlistees unless discharged or separated will be unable to collect mustering-out pay, the Army Finance Corps announces. They cannot be eligible when they retire, as the law stipulates that personnel receiving retirement or severance pay upon separation are ineligible for other smueienrt-g cut payment. If, however, they are separated for physical reason, they may then collect the payment.

Johnny Hopp, Detroit Tigers leftfielder, is safe as he slides home after Johnny Groth, Tigers centerfielder, hit an infield fly. Throw to Yankee catcher Yogi Berra was too late and Umpire Scotty Robb called Hopp safe.

Time Lag Seen In Combat Bonus

WASHINGTON (AFPS) — It will be at least several weeks before the Services can begin to pay claims authorized under the Combat Pay Act of 1952.

In a special announcement, the Department of the Army explained that although rapid progress is being made in developing procedures for payment, extensive administrative information still must be compiled.

The process must first await a report from the Far East Command listing Army units whose combat service in Korea qualified their personnel for the \$45-a-month payments. The list of eligible units must be determined before the claims of individuals can be acted upon.

The FECOM report, which required an examination of records covering more than two years' action, is expected to be received by the Department of the Army by Sept. 15, 1952.

In making the announcement the Army urged that all inquiries be withheld until further announcements. All Services are expected to begin payments at the same time.

BONN, Germany — A circus entertainer's plans for a 2,000-mile stunt tour of Germany on a single wheel bicycle ended abruptly here. He was arrested for having no steering gear and no brakes.

Society

Persons desiring items to appear on the society pages of The Redstone Rocket should contact Mrs. Helen Hansmeier in the Public Information Section, Bldg. A-101, Ext. 3-2201, by noon Wednesday.

Betty Gooch Engagement Is Announced This Week

Mr. and Mrs. E. L. Gooch, 603 Eight Ave., Huntsville, announce the engagement of their daughter Betty, and Jack Bailey, son of Mr. and Mrs. John Bailey, 203 N. Rose Dr., Huntsville.

Miss Gooch is employed as a clerk typist in the chemical engineering section of the Thiokol Corp. Mr. Bailey is an employee in the Property Disposal Office at the arsenal.

The wedding date will be announced.

Personals

Brig. Gen. and Mrs. Thomas K. Vincent and Col. and Mrs. Holger N. Tofoy entertained guests at dinner Aug. 8 at the Officers Open Mess following cocktail parties at the quarters of the hosts and hostesses. The dinner table was decorated with fruits and greenery with candles to blend with the color scheme.

Mrs. Robert Aguais and Lt. Edward Sparkman won the high score prizes at Couples Bridge Aug. 4 at the Officers Open Mess. Mrs. Daniel R. Thoma held the low score. Four tables were in progress with Dr. and Mrs. Clayton Huggett serving as host and hostess. The next meeting will be at 7 p.m. Aug. 18 at the Mess when Lt-Col. and Mrs. Thoma will have charge of the arrangements. Those planning to attend should call the Thomas at Ext. 3-2224 by noon of Aug. 18 so that even tables may be arranged.

More than 40 members, and their families, of the adult Sunday School Class of the Post Chapel enjoyed a watermelon cut Aug. 3 at the quarters of Col. and Mrs. James P. Snooks on the post. Capt. Wiley Honea, activity chairman, was in charge of the arrangements.

Capt. and Mrs. Robert Merchant spent several days last week in Dayton, O.

Personals

Mrs. Thomas C. McOsker and children, Brian and Sandra are visiting in Providence, R.I.

Lt.-Col. and Mrs. Tom G. Thrasher, Mr. and Mrs. George Potts and Lt.-Col. Frank J. Austin spent Aug. 9 weekend near Brevard, N.C. visiting Mrs. Austin and children.

Mrs. Donald Brown honored Mrs. Mary Barrett of Compton, Calif. with a morning coffee Aug. 6 at her quarters on the arsenal. More than 15 guests were invited to attend. The hostess served coffee, cakes, fruit cups and coffee.

Mrs. James Long and son, Douglas have gone to Millbrook, N.Y. where she was called due to the serious illness of her mother.

Employees of Purchasing and Contracting Branch and their guests held a buffet supper and dance Aug. 3 at the Huntsville Country Club. More than 90 persons attended. Luke box music was utilized for dancing. The buffet table, covered with a white linen cloth, was centered with an arrangement of mixed flowers. T. G. Bedell was chairman of the party committee, and was assisted by R. J. Broun, Mrs. Millie Wilkins, Mrs. C. A. Waggoner, Mrs. Doris Polk, Miss Nancy Barrett, E. W. Ertl, Jeff Darwin, and Ben Giles. Maj. and Mrs. Charles Barrett were special guests.

Personnel from the Fuels and Combustion Lab of the Guided Missile Development Group honored Miss Margaret Dishman with a farewell party Aug. 7 on Monte Sano Mountain. A gift was presented to the honoree and a hot dog supper served to Mr. and Mrs. Zack Adamson and son, Dr. and Mrs. J. G. Tschinkel and children, Mr. and Mrs. Allen Mendenhall, Mr. and Mrs. W. D. Brown, Noah Blackwell, Sam Ward, Bill McWilliams, Robert Brownfield, George Pettigo, and the guest of honor. Miss Dishman is transferring to Ft. McClellan.

The women employees of Post Transportation entertained with a dinner Aug. 5 at Cambron's Aero Club Huntsville, honoring Miss Sara Shockley, employee in that office, who left Aug. 8 to enter the Women's Air Force. Miss Shockley was presented a farewell gift, and the prizes given for games during the evening. Seventeen attended the party.

WILL WED SATURDAY—Miss Mary Ruth Vaccaro, daughter of Mr. and Mrs. M. V. Vaccaro, Tampa, will be married Aug. 16 to Lt. Victor J. Caruso, son of Mr. and Mrs. Joe L. Caruso, Tampa. The wedding will take place in the Sacred Heart Church, Tampa. Lt. Caruso is assigned to the Provisional Redstone Ordnance School. . . .

Vaccaro - Caruso Wedding Is Set

Miss Mary Ruth Vaccaro, daughter of Mr. and Mrs. M. V. Vaccaro, Tampa, Fla. has announced completed plans for her marriage to Lt. Victor J. Caruso, son of Mr. and Mrs. Joe L. Caruso, Tampa. The wedding will take place at 6 p.m. Aug. 16 at the Sacred Heart Church in Tampa with the Rev. Kness officiating.

Lt. Caruso is assigned to the Provisional Redstone Ordnance School as an instructor.

The bride-to-be has chosen Miss Dorothy Mattisini as maid of honor, and Miss Lucille Frances Caruso as bridesmaid. Joe Greco will serve Lt. Caruso as best man and Fred Papias will be the usher.

Miss Vaccaro will be given in marriage by her father. Schubert's "Ave Maria" will be sung during the wedding ceremony.

Both the bride-elect and Lt. Caruso are graduates of Hillsborough High School, Tampa, where they were members of the Student Council. Miss Vaccaro is an Aug. 8 graduate of the University of Tampa, and is a member of Alpha Gamma sorority.

Lt. Caruso is a June, 1951 graduate of the Georgia Institute of Technology with a bachelor of science degree in mechanical engineering, and is a member of Phi Iota Alpha social fraternity and Pi Tau Sigma, honorary mechanical engineering fraternity.

The couple will reside at 76 10th St., Lane Park, Huntsville following a wedding trip to Miami Beach and Havana.

Red China GHQ Good But Limited

By AFPS

(This is the fourth in a series of articles condensed from the Army Information Digest and originally produced in the book, "Red China's Fighting Hordes," by Lt. Col. Robert B. Rigg.)

What type of men command the Red Army of China?

With the exception of Mao Tse-tung, the Red Communist generals cannot be called strategists.

The People's Liberation Army (PLA) does not know military strategy. For all these years they have been concerned with tactics and operations on a level below what we term strategy.

No Strategy

Before 1949 no Red general in China ever had more than 60 tanks at one time.

For all their excellence at fighting, the field army commanders never defeated a formidable foe of armed and armored modernity.

Human Waves

They have infantry and it is in men to waste in human waves; but the PLA is still unbalanced.

The Russians apparently sense that the Chinese officers, while superb guerilla commanders and victorious infantry leaders in China's peculiar civil war, need to study the larger wars of other countries.

Thus the Soviets are giving the Chinese a fine military foundation, adding a few up-to-date frills like armor and airborne, but in the main are treating them for what they are—amateurs in modern war and modern logistics.

PLA's high command should not be underrated in the application of its own well-developed principles of combat, but it should not be vaulted into the professional realm occupied by the skilled high army officers of the U.S., Great Britain, France and the USSR.

These men are devout in their fervor, narrow in attitude, hardened and uncompromising. They are the world's most authentic Communists. The Soviets may bend them partially to Russian will and design—but in the end these Chinese militarists will prove to be Communists first, Chinese second, and Soviet puppets last.

Personals

Mrs. John E. Simpson, wife of Chaplain Simpson, was ill at their quarters last week.

Capt. and Mrs. Paul M. Linton and children have moved into Quarters 191-B on the arsenal.

Lt.-Col. and Mrs. William J. Durrenberger and children will leave this week for a vacation in Des Moines, La. and St. Paul, Minn.

Sgt. James L. Harshman 9330 TSU is spending leave in Panama City, Fla.

Cpl. Charles H. Hildebrand 9330 TSU is on leave to Sharon, Pa.

Pfc. Samuel Ringel 9330 TSU is spending emergency leave in Springfield, Mass. Mrs. Ringel has gone to Massachusetts for medical treatment.

Pvt. Frank Steiner, Jr. Provisional Redstone Ordnance School, is visiting in Brentwood, Md.

Sgt. Carl A. Seidel 3523 ASU is spending leave in Pipestone, Minn.

OUR NEW LOCATION IS AIR CONDITIONED

Yarbrough Hotel Building

Rohm & Haas

By CECIL JACKSON

Glad to have Jim Thomas of Accounting back with us after his recent illness.

Allen Deschere was host to members of the Rocket Development Group with a steak supper at Monte Sano State Park. Everyone had such a wonderful time that they are wondering why everybody can't work in a section like Rocket Development.

In case you are wondering why Jackie Culclasure had that sleepy appearance this past week, here is the answer. She went to Senoia, Ga., to serve as an attendant in the wedding of her college roommate. Evidently, a good time was had by all, without the benefit of sleep.

New Faces

Welcome to James Hancock a newcomer to the Applied Interior Ballistics Group. James is an engineering physicist from the University of Tennessee. A note to the entire ladies — he is still single.

Also, the welcome mat is extended to Ruth Jones from Decatur, who recently joined our Propellant Development Group.

The Can Openers Broke

Ed Atkinson of Administration and Noble Jahnke of Purchasing are on vacation in Philadelphia and Boston respectively. Incidentally, the primary purpose for the trip was to bring the wives back home to do their cooking — for a change. Newcomers to our group include the following: Bernice Killian of Scores and Property, Betty Rutland and Donald Ramey of Chemistry, and Betty Tribble who has joined our Library staff.

Jim McKenzie of Ballistics spent a week's vacation in Florida. The following people decided to stay at home and enjoy a real vacation: Norma Skelton, Solon Morring,

Evelyn Hipps, Joe Foster, and Ralph Morris.

Track Star...

It is our understanding that Hank Wilkes spent his recent vacation working on a newly acquired "hot rod." Hank expects to be rolling any day now and everyone is invited to take a look at his pride and joy at the amateur races at the Huntsville track on Saturday nights.

Gene Haugh is our golf champion after having fired an 87 at the Huntsville Country Club. Bob Moorman was second with an 88. The low net prize was shared by Dr. Clayton Huggett and Jim Dordil, both with 71's.

Sorry to learn that Ed Palasthy is leaving to return to school and work on his Masters at Columbia University. We'll sure miss you, Ed, and best of luck to both you and Claire.

Congratulations to Sherman Ecolis on the new member of his household, Sharon Lois, who put in her appearance on July 11th. Incidentally, Sherman spent his recent vacation getting acquainted with his new daughter.

Mountain Time

Propellant Development Group recently treated themselves and their families to a barbecue on Monte Sano. It seems that hardly anybody brought a lunch to work that day, saving room for all the good food they planned to have that night. They really had the food and everybody ate, rested, ate, rested, and then ate some more. After they could hold no more, they went to Tom Anderson's and played games.

Our best wishes for a speedy recovery to little Lynn Prevost, daughter of Chuck Prevost of Propellant Development, who has polio. Lynn is presently in the hospital in Birmingham.

Happy to have Lila Garnett back after her recent bout with neuritis.

Allen Deschere and family have moved into their new home on West Rhett. We hope Al will keep it looking new while Jane is away.

Three Left

The Intramural Softball Tournament continues on its merry way. Only three teams are left; namely Ballistics, Maintenance Shop, and the Mechanical and Electronics Instrument Shop.

Stage Glamour Beats Hollywood Cheesecake Says Dorothy Lynn

Veteran screen and stage actress Dorothy Lynn has chosen the Broadway brand of glamour over the Hollywood product.

"Hollywood-style sex appeal is all a fake. It has no mystery. It's too obvious.

You know what the stars have for breakfast, who they're holding hands with, and what type of clothes they wear.

There are no fan magazines in the theatre. You have what it takes or head for the exit.

Sex appeal doesn't lie in the body but in the heart. Only a few movie queens like Greta Garbo and Gloria Swanson have that mysterious, compelling quality called personality.

Some of today's young stars better stop depending upon 'cheesecake' and start developing their personalities... or else!"

AFPS

When six hospital men at Camp Lejeune, N. C., saw the mysterious smile of the fetching young lady above in a newspaper advertisement, they sent requests for autographed pictures and an invitation to come to the camp as a guest of the Marines. Linda Lombard, a 22-year-old model, obliged. Most of her visit at the base was spent posing for photographs as hundreds of Marines suddenly became inspired camera fans.

Upper Atmosphere Problems Discussed In New Space Book

Thirty-five of the world's most renowned scientists, medical doctors, military and research specialists have contributed their studies to the new book "Physics and Medicine of the Upper Atmosphere."

Published by the University of New Mexico Press, the book covers material which, until recently, was considered top secret by the armed forces at White Sands, N. M. and other government installations.

Dr. Hubertus Strughold, head of the department of space medicine of the Air Force, tells us what man's reactions will be in space.

Changes begin to take place at 13,000 feet and at 23,000 feet a man will get the "bends" if not in a pressurized cabin. Once a man reaches 52,000 feet he is in the equivalent of empty space. And here his dangers are multifold.

"A man suddenly exposed to the physical environment of the upper atmosphere is in danger of suffocation by drowning in his own water vapor," Dr. Strughold says.

Suppose you are in a plane 52,000 feet above the earth, where some of our planes have been. Suddenly one of the seams springs a leak or you collide with a small meteorite. What will happen?

You will have 15 seconds of useful consciousness until your blood actually begins to boil. And then you might explode as a deep sea fish actually brought to the surface from the lowest depths.

But 50,000 feet is nothing to the

500,000 feet discussed and the problems involved up there. For example, a chute problem.

Nylon is commonly used for parachutes but it melts at a surface heat of 480 degrees Fahrenheit. A chute dropping 500,000 feet at 100 feet a second would have 540 degrees surface temperature.

New heat resistant materials are needed and now are being developed.

The answer to how we know all of this is investigations employing rockets.

The Viking '7' rocket rose to a height of 138 miles. In this rocket was a telemetering device which recorded actual conditions at the level of the rocket. These were transmitted to a station on the ground providing a permanent record of actual conditions at extreme altitudes.

Viking "8" is now being built and will have a 45-inch diameter 58 cubic feet of space, and with a 500 pound pay-load will reach an altitude of 200 miles.

With a new motor the process of development even greater heights will be attained.

Rockets have already been launched from one already aloft and have reached 240 miles altitude, twice the combined range of both

rockets launched from the ground.

It is entirely possible, and might now be a fact, that altitudes of more than 500 miles have been reached.

This is only some of the material released by the government. It is probably little compared to what is still secret. But the dangers are known and are being combated.

The next step probably will be sending men up in the rockets." Dr. Lincoln LaPaz, associate editor of the book, said.

Most of the advances in space work have been made in the past decade.

One of the writers who contributed to the publication said:

"The conquest of the atmosphere is a revolutionary event comparable to the transition of aquatic animals to land animals in geological time. That took 100 million years."

We have indeed outstripped nature in our short time.

All ads submitted must be typewritten and signed. They should be in the Public Information Section, Bldg. A-101 no later than noon each Tuesday. All ads will be first come first served. No ads will be held for automatic repeat use. Notices will not be accepted by telephone. Material accepted will be of a for rises, lost or found, or personal property to sell or buy nature. No ads to promote private businesses will be accepted. The Rocket reserves the right to re-write material submitted, or to reject material for reasons other than given above.

WANTED a ride from 1609 Whitesburg Dr. to Time and Payroll, Bldg. 617, Plants Area 3. Kathleen Johnson.

President Signs New Reserve Bill

WASHINGTON (AFPS) — Congress has passed the long-awaited Reserve bill. Most provisions will take effect six months after the President signs the Bill.

Ready Reserve

The bill would limit the strength of the ready reserve to one-and-one-half million men. However, all reserve obligations would remain the same as set by previous bills.

The ready reserve may be called to active duty during an emergency declared by the President but it would be up to Congress to determine the number of men to be called.

Congress Approves

The bill also prohibits the President from extending enlistments in an emergency without special legislation. The standby reserve could be called only in time of war or national emergency declared by Congress.

Sense of Congress

Also stipulated in the bill is the "sense of Congress" to recall those men who suffered the least hardship during their previous service. This particularly refers to Korean combat veterans who would only be available when others who had sacrificed less were already called.

The bill also makes officers' commissions valid indefinitely and retains the active duty contract clause for reservists.

Those officers who currently hold reserve commissions could allow them to expire or declare in writing that they wish them to be indefinite.

FLATS READY

HAMPTON ROADS POE, VA (AFPS) — The first of the Army Transportation Corps' new heavy-duty flat cars has rolled into the yards here. The cars were specially constructed to carry the new M-47 heavy tank and other heavy military equipment.

Ordnance Corps and ATC engineers designed the 50-foot car after 18 months study of the problem of moving heavy equipment. Two of the 93,000-pound tanks will be loaded on each car. Formerly only one was carried.

The Armed Forces will need 1,200,000 to maintain a 3,700,000 armed force.

Job Selection Given By Army To Retain Men

WASHINGTON (AFPS) — The Army has launched a concerted drive to retain on active duty as many qualified and experienced personnel as possible.

Outlining its campaign in DA Circular 57, the Army explains the various choices and assignments that are open to personnel who elect to stay on active duty.

Enlistments are for periods of three, four, five and six years but those who have permanent grades of E-5, E-6 and E-7 may reenlist for an unspecified period.

Various options, too, are open to men who decide in favor of staying on. For example, a man serving in the ZI who reenlists may have a choice of assignments to fill any vacancy currently existing in any installation in the continental U. S.

He may also have a choice of assignment, if qualified, to the Army Language School, Counter Intelligence Corps or Army Security Agency.

The circular lists seven options and gives detailed information on how enlistment in the Regular Army from any one of the Reserve components or reenlistment will affect grades, temporary promotions, bonuses and extensions.

French Have Word For Better Marksmanship; Hand Held Targets!

FRENCH HEADQUARTERS, KOREA — American sharpshooters are looking askingly at their laurels after watching members of the French battalion in Korea get in a little range practice.

The French soldiers, according to their commander, Lt. Col. Francois Bourreill, develop self-control and confidence by shooting targets from their buddies hands at 100 yards!

A master of understatement, the French colonel says,

"It may seem dangerous, but it has proven effective, and we've had no accidents."

Actually, the training practices bear out the colonel's amazing words on an unusual range practice. The soldiers progress from normal fixed targets to the buddy-hdl targets only after mastering with perfect scores the less startling range targets.

The Frenchmen work in pairs, first one shooting at a human held target, then the other. The rifles are the American made Garands.

"Satchmo" Paige, Top Game Saver

CLEVELAND (AFPS) — Seven losses and only four wins meant the end of his Cleveland Indians contract for Leroy (Satchell) Paige in 1947, but owner Bill Veeck didn't forget.

When Veeck bought the Browns last summer he added the ageless Satch to his pitching staff. The move paid off, for Paige saved many games in relief.

Trend Continues

This reason the trend has continued. In 27 games he won six and lost five saved more than a dozen, and permitted the Brownies to experiment with more starters on the mound staff. His recent 10 inning stint against Philadelphia in which he allowed only five hits without a run added more flavor to the Paige story.

Officially 44

Officially listed as 44 years old, Satch's first birthday party is supposed to have been celebrated in 1902.

For years the greatest attraction in Negro baseball, Paige oftentimes pitched three innings daily over a stretch of weeks. Many times he struck out all nine opposing batters. It was a breeze for old Satchell.

Pennant Saver

In 1948 the Indians were pennant bound. But they needed a strong arm in the clinch. Veeck waved

Paige into the league and Satch responded with a 6-1 mark, an earned run average of 2.47 and countless games saved.

Among Best

The men who remember them say he ranks with Christy Mathewson, Grover Alexander and Walter Johnson as an all-time great. But the color line kept him out of the majors for years.

Hall of Fame?

There's no color line on the All-Star team, here's none in the Hall of Fame. Perhaps it is not too late for the sturdy game-saver to make the Cooperstown shrine.

At 44 (officially) the guy has been performing like a youngster of 20. If the majors had seen him

at that age, he'd have crashed the Fame gates with ease.

Maybe baseball writers will recognize what Bill Veeck didn't fail to see—Paige's greatness in youth and age.

UNITED NATIONS, N. Y.—The U. N. postal administration which issues its own international stamps, now sells a two-cents post card carrying a blue stamp showing the UN globe and palm branch emblem and new headquarters building. The cards can be mailed only in the UN postoffice station.

Many a man has found that the moulting season for angels is shortly after the wedding.

Your Dollars
S-T-R-E-T-C-H

-when you buy
Frigidaire

• Everybody has the problem today of making dollars go just as far as possible; of getting every last bit of value for money spent.

That's why so many want Frigidaire home appliances.

For more than 25 years Frigidaire has been building a reputation for value — always improving, always offering more for your money.

And it's more in evidence today than ever before.

That's why we sell Frigidaire. We know your dollars will go further when you buy any Frigidaire appliance. We know, too, that once you see and realize the good values offered in Frigidaire appliances, you'll be satisfied only with Frigidaire.

Come in, won't you? We'd like to prove this to you. It will cost you nothing and it may save you much.

Frigidaire products for your home are:

Refrigerators • Electric Ranges • Water Heaters • Home Freezers • Automatic Washers • Automatic Electric Dryers • Electric Ironers • Kitchen Cabinets and Sinks.

The Redstone Rocket

VOL. 1: NO. 29

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

AUG. 19, 1952

C. C. Group Is Organized Here Supervisors' Training To Begin Sept. 15

600 Expected To Participate

Continuing Program
Will Cover Wide Range
Of Management Topics

Efficiency and performance begin at the management level in an organization and that is where Redstone Arsenal is beginning in a continuing effort to increase efficiency in its overall performance.

Meetings Begin

Beginning Sept. 15, the arsenal's approximately 600 supervisors will have a chance to participate in a Supervisor Development Program aimed at improved efficiency and economy through objective supervision.

The conference-type meetings, endorsed by Brig. Gen. Thomas K. Vincent as an excellent means of increasing harmony and efficiency will be conducted by the Civilian Personnel Training Section, headed by Leon Reynolds, Huntsville.

Confer Semi-Monthly

Forty, one and one-half-hour meetings over a two-week period will be needed to reach all of the supervisors.

Each supervisor will have a chance to attend at least one of these meetings every two weeks. The conference-meeting size is being held to 15 supervisors to facilitate discussion and flexibility.

Notices of the Supervisor Development Program, and applications for attendance are going to the 600 supervisors this week. Attendance is placed on a voluntary basis. However, participation will be noted in the supervisors' personnel files.

Wide Range

Topics discussed in these meetings will range all from overall Ordnance Corps policy and arsenal policies and missions to individual on-the-job problems. The subjects, generally, include Job Management, Work Performance, Training Employees, Personnel Relations, Safety and Security.

At all times the program will be keyed by Ordnance Corps commander, Gen. E. L. Ford's comment, "mutual understanding is the key to good management."

Gen. Vincent will address the first meeting Sept. 15. His remarks will be recorded and played at the (Continued On Page 2)

IRE SPEAKER—W. D. Alston, above, will address the local group of the Institute of Radio Engineers at its meeting Aug. 21, 7:30 p. m. Bldg. A-120. He will describe the Bell System—used microwave relay, and demonstrate some of the equipment.

Telephone Official To Be IRE Guest

Will Describe, Show
Microwave Relay Used
In The Bell System

The Bell System microwave relay system will be described and demonstrated by W. D. Alston, division information manager of Southern Bell, at the Aug. 21 meeting of the Huntsville Sub-section of the Institute of Radio Engineers.

Mr. Alston, will address the group at the Technical and Engineering Division Auditorium, Bldg. A-120 at 7:30 p. m. The meeting will be open to the public. Transportation will be furnished for non-Redstone personnel from Gate One at 7 p. m.

The microwave relay system has been recently employed by the Bell System for long distance transmission of television, voice and telegraphy.

Since his graduation from Auburn in 1928 with an electrical engineering degree, Mr. Alston has received a varied experience with the telephone company.

He began as an engineer, then moved into sales work, then into management as a group manager in nearby Decatur. Just before the war he was engaged in rural de- (Continued On Page 2)

Service Club Opens Aug. 21

Gen. And Mrs. Vincent
Will Assist In Opening,
3d. Army Visitors Here

Third Army officials will join with Redstone Arsenal personnel Thursday night in the formal opening of the arsenal's first service club.

The club will officially be opened at 7 p. m. when Brig. Gen. Thomas K. Vincent, arsenal commander, cuts the ribbon to the club. Mrs. Vincent will cut the first piece of cake from a four-tiered, 100-inch circumference celebration cake.

First Air Show

Later, the first of three radio programs to originate from the service club will be aired, Miss Emily Evans, Service Club director, said.

Capt. John J. Horan, Special Services officer for the arsenal says that Col. Cabot, Third Army Special Services officer; Maj. Butters, recreation chief for Third Army, and Miss Kay Moran, Third Army Service Club command hostess, will be among the honor guests for the opening.

The club will be the first for the arsenal in its decade of existence.

Cost - \$22,000

The new facilities which are housed in Bldg. T-151, cost about \$22,000 including renovation of the building, and furnishings and equipment.

Plans are presently being made by Miss Evans for regular Thursday night dances for arsenal enlisted military personnel at the club. (Continued On Page 2)

T. & E. Segments Occupy Offices In New Addition

About 75 people of the Technical and Engineering Division's Rocket Development Group and Technical Library, this week are settling into their new quarters in the nearly completed office wing addition to the Rocket Laboratory building.

The wing is one of three additions to the building, and is the second to be put into use by arsenal personnel. The additions are part of a \$1,883,476 rocket facilities expansion program now in progress.

The new space was o.k.ed for beneficial occupancy. It is complete except for correction of construction deficiencies which must be made before it is formally accepted by arsenal authorities.

A third addition to the building will consist of a 37-foot by 95-foot laboratory wing which is expected to be complete by Nov. 1. The office wing has approximately 8,400 square feet of floor space.

Earlier a 53-foot by 139-foot modern, auditorium was opened for use.

The overall additions will blend with the modern, masonry and tile construction of the rocket laboratory.

The \$1,883,000 program is being done by J. H. Pearce and Co. of Columbus, Ga. It was started last Fall. The laboratory additions were designed by J. Serrine Co., Greenville, S.C.

NEW THIRD ARMY CG—Lt. Gen. Alexander R. Bolling (above) is expected to assume command of the Third Army area, which includes Redstone Arsenal and other installations in Alabama and other Southern states, the latter part of this month. Gen. Bolling has served with distinction in combat in World War I and II. (U. S. Army Photograph.)

Gen. Bolling To Be New 3d. Army CG.

Two-Time Combat Vet
Is Expected To Begin
Duties Late In August

Lt.-Gen. Alexander R. Bolling, who is expected to take command of the Third Army area the latter part of this month, will be returning to familiar territory when he reports to Third Army headquarters, Ft. McPherson, Atlanta, Ga.

The Third Army area includes Redstone Arsenal, as well as other installations in Alabama and other Southern states.

Gen. Bolling, was stationed at Ft. McPherson for about six years, beginning in 1922, and for a year and one-half was commander of the post.

During World War II he also commanded the 84th Division which was stationed at Camp Claiborne, La., and for a time was assistant commander of the 8th Division stationed at Camp Forrest, Tenn. The new Third Army commander (Continued On Page 2)

Waste Must Go Says General

Committee To Boost
Cost Consciousness
Throughout Arsenal

"We must constantly be aware that things cost money and must be conserved. Brig. Gen. Thomas K. Vincent, arsenal commander, told the recently formed arsenal-wide Cost Consciousness Committee in its initial meeting.

To Expand Effort

The committee was formed to integrate, coordinate, and extend Redstone's efforts in making every taxpayer's dollar spent at the arsenal buy a dollar's worth of results.

Sell The Top

The general said, "The only way to make cost consciousness work is to sell the top." He implied this is the task of the central committee.

He said that Secretary of the Army, Frank Pace, Jr., is sold and has demonstrated his interest by personally injecting himself into the program. He has done this both in publicity and educational efforts to put the program over, and in calling attention to wasteful measures in his visits to various operations under his administration.

Beat Hidden Loss

The general emphasized that it is not only the obvious needless expenditure of money that needs correcting, but the hidden wastes.

The arsenal commander reiterated a view of Secretary Pace's that America could easily so waste its substance away that it could go down to defeat in a comparatively limited military operation such as Korea.

John M. Shank, Management Improvement, chairman of the committee, told the group that this is the major committee in the effort to increase the efficient use of the appropriation dollars used here.

Watch Savings Cost

During the meeting it was brought out that a careful tabulation of the efforts to be cost conscious should be made to be sure that the expense of saving didn't cost more than the saving.

Other views showed that already there is a considerable cost consciousness effort on the arsenal by the working units. And, that there are many cost saving measures hat travel under different names.

Meet Aug. 26

The committee will hold its next meeting Aug. 26 at the Bldg. A-101 (Continued On Page 2)

Arsenal Photographer's Hobby Takes Turn - Into 'Underworld'

Stamp collecting, gardening, or handicraft palling on you as hobbies? No thrill in boating, or hiking, or knitting any more? Maybe you'd like a hobby such as that of one arsenalite—cave exploring.

Yessir, Jake Gurley, Redstone photographer, and Don Fulton, Huntsville Times photographer, between pictures, decided life was too dull about four months ago and looked about for something different to do.

They found it.

Head Underground

The pair began nosing through various caves through-out North Alabama just to see what they could see, and to check on legends that always grow up around these phenomena.

They would hear that certain caves had unexplored rooms, unusual lakes or streams, and so on, and would take off in their spare time to check on them.

Buy Land

They became so interested in their hobby, that recently they bought an 80-acre tract in Marshall County just for the cave that lies under it. The idea is they'll build a hunting-camp on the mountainous land, and between shots indulge in their underground searching.

Jake says they bought the cave because it is the only one we've run across (or through) that appeals to us.

He described the entrance as big (Continued On Page 2)

Histrionic - Minded Arsenalites To Aid In Mellerdrammer

Don't be surprised if in certain quarters of Redstone Arsenal, damsels are discussed as "me proud beauties," ire is voiced with "curse and zounds!" and surprise comes out dramatic "Aha!"

For the folks who may (and mind you we say only—may) be using these gaslit expressions will be the Redstone folks who are taking part in the Huntsville Little Theatre Group's first 1952 production of:

Grave Subtitle

"Gold In These Hills," or (as it is weepfully known,) "The Dead Secret's Sister."

The play is a whiskered old melodrama replete with unpaid mortgages, chaste beauty, a scurrilous, be-cloaked, be-sneered villain, and the muscle-bulging "our hero."

The Race Begins

Little Nell is scheduled to be skidded across the boards, out of her house into the "cruel, cruel world," Sept. 24 and 25. The villain, unpaid mortgage and "our hero," Jack will be in hot pursuit.

Artistes

Redstonites in the cast will include Stanley Logan, "Snapper" Turner, Emmy Lou Runyan, and Mona King. Cpl. Bill Schwarz is stage manager, and Bill Chandler, costume designer.

Professor, Please

In addition to the tearful plot, the audience will hear these uplifting ditties, "Sweet Marie," "Curse of An Aching Heart," "The Bowery," and the piece-de-resist- (Continued On Page 2)

PRO School

BY LORIS TROUP

Heads are being held a little higher, shoulders a little more erect by some 97 men of the Staff and Faculty Detachment of PROS. Congratulations to all you fine fellows who made private first class this month.

Jean Clark's husband, Arnold, has returned home after serving two years with the Navy. Welcome home, Golden Glove Champion!

Sgt. Sarge Leaving

PROS is facing a possible serious loss in M-Sgt Alton E. Sarge who is due for discharge after ten years in the Army. He was one of the first men in the field of guided missile training, having been a part of that activity since its inception in October, 1950 at Aberdeen Proving Ground.

M-Sgt Sarge is an electrical engineer and received much of his training at Convair, San Diego, Calif.

APG Visitors

Sandra Nicolosi and Kathy Welch, of the younger set, are enjoying a gala week at Aberdeen Proving Ground, where they are having joyful reunions with "old" friends at the Teen-Agers Club. These young ladies were escorted by Major Nicolosi to APG.

An infected foot has Pfc Robert Gelling in the post hospital—we miss you, Bob, and hope you'll be back checking up on us and our stock items again before long.

Sgts. Hinkle and Paulk "treated" with aromatic cigars and milk chocolate last week in honor of their promotions—to Sergeant First Class and Master Sergeant, respectively. Congratulations!

New 'Uns

New student officers who reported recently are: Lt. James H. Norbyke of APG; Lt. Laurence H. O'Brien of Ft. Monmouth's Signal School; Lt. Bob Burkhardt of APG; Lt. Robert Vujovich of APG; Lt. William T. Scofield, APG; and Lt. Henry S. C. Cummings, APG.

Lt. R. W. Scribner and Mr. W. B. Taylor of APG have been visiting the school this week.

Welcome to Mrs. Louise Ogle-tree, formerly a legal secretary (such a background always impresses us), who has reported as Training Aids Branch secretary. She's a Texan—but perfectly willing and delighted to give Alabama credit, especially for the beautiful mountains surrounding the arsenal.

More Folks

Personnel is fortunate to acquire Christine Smith, as is Mail and Records to have Stella Barksdale added to its staff—both are clerical typists who have already "graduated" from Mrs. Amos's Clerical Training Program.

The Officers' Branch offers a welcoming hand to Lt. Robert E. Smith, Lt. Richard P. Fallows, Pvt. Robert E. Wellenreiter, and Fred U. Everhart.

Instructors Here

The Mechanical Branch welcomes

Lt. Anthony S. Laura from Jet propulsion Laboratory California, who is now section chief of Propulsion, and also functioning as an instructor. Greetings, also, to these new instructors—Pvt. T. W. Anderson from JPL (formerly at APG), Pvt. Philip D. McCaffrey, Pvt. Charles B. Wilson and George Steins, Northrop Contract civilian.

Jo Gaskin has resigned to return to her home in Union City, Tenn. James D. Verner, school artist, is on TDY at Aberdeen Proving Ground for two weeks.

Physical examination notices are beginning to catch up with PROS personnel, including Argeon Taylor, efficient supervisor of M-R.

The GM Repair Course turned out its first graduates this week—Congratulations to you graduates

Quick Recovery

Jewell Thomas, attractive diminutive (size seven!) secretary to Director of Personnel and Administration, was missed during her two weeks' absence due to the serious illness of her husband. James made a quick rally and we're glad he's able to be back at work with Rohm and Haas.

Robert Archambault, contract civilian instructor from Northrop, has been called by the Naval Reserve for November. Bad news for PROS.

Sgt. Tony P. Hunt, hard-working ditto machine operator, has gone to Des Moines, Iowa, to visit his ill wife—Hope you find her greatly improved, Sgt. Hunt.

Career woman-homemaker Dale Leming of M-R said, "No, I don't know any news—I was too busy canning 23 quarts of peaches over the week end to circulate much." That much activity is news anytime, Dale.

2nd Lt. Melvin G. Wode has returned from six weeks TDY at Ft. McClellan where he has been attending the Radiological Warfare School.

Martha Magnusson spent last week end at Schooco Springs, Talladega, Ala., with the Baptist Young Women's Auxiliary.

Pfc. Wilmer E. Hall has taken his wife and baby to Pennsylvania to visit the proud grandparents. Pfc. Jerry J. Sneddeker is visiting his parents in Nebraska.

"Flippity-flop, flippity, flop, That, reported the girls in Officer Training Branch was Lt. Charles (Charlie Chaplin) Ellsworth walking around in size 12 shoes the other day—he usually wears 9½. It is hard to see when the alarm goes off so early these mornings. Wonder how the fellow who wears size 12 made out in size 9½.

The painters have descended upon Bldg 668-2. Bobbie Holder reports personnel there will soon be working in the parking lot "with the other insects." Why, Bobbie!

The cutest piece of streamlined costume jewelry we've seen lately was a perky grasshopper that got in front of the spray gun and emerged with a pale green coat. Incidentally, the pressurized paint can blow for blocks. PROS personnel, watch your automobiles!

Gen. Bolling

(Continued From Page 1)

will succeed Maj. - Gen. William A. Beiderlinden.

Gen. Bolling, 57, was initially commissioned in August, 1917. During World War I he served with the 4th Infantry during the Aisne-Marne defensive, Champagne-Marne defensive and offensive, the St. Mihiel and Argonne offensive. He received the Distinguished Service Cross for his World War I activities.

During the years between the two world wars, he served at a number of posts, and attended the Advanced Course at the Infantry School; the Command and General Staff School, and the Army War College.

For a time he commanded Civilian Conservation Corps activities at Green Cove Springs, Fla.

He became assistant chief of staff for personnel of the Army Ground Forces in March, 1942, after having served as assistant chief of staff for intelligence of the First Corps Area, Boston.

In July 1943, he became assistant commander of the 8th Infantry Division. He later moved to the 84th Division, first as assistant commander, then as commander. He took the division to Europe where it entered combat in November, 1944. The division was cited by the Army Ground Forces, the 9th Army, the Seventh and the Thirteenth Corps.

Following cessation of hostilities the general became Chief of Special Services for the U. S. Army in Europe.

He returned to the States in December, 1947 as deputy director of intelligence of the Army. In March, 1950 he was designated deputy assistant chief of staff for intelligence on the Army General Staff. In August, 1950 he was appointed assistant chief of staff for intelligence of the Army.

His decorations include the Distinguished Service Cross with one Oak Leaf Cluster; the Legion of Merit, Silver Star, Bronze Star Medal, and Purple Heart. He also holds a number of foreign decorations.

Histrionic

enough to shove on of the 400-series warehouses through "without scratching rock on any side" He says it measures 100 feet wide, 50 feet high, and is about 450 feet deep.

Transparent Fish

In another cave, Gurley said they found blind fish and crawfish, that had been underground so long they were transparent "You could look through them and see their vital organs," he said.

In following their hobby, the two photographers would use from two to 30 hours in exploring a cavern, depending on the interest it generated.

erated.

"We would take rope, first aid kits, a five-volt electric lantern, a gas lantern, flashlights, candles, and a lot of photographic equipment," he said.

Candlelit Guideposts

The lanterns were for illumination, and the candles were lighted and used as markers through the caves. Gurley said that unless there were two openings, the candles would burn without guttering.

Originally from Tennessee, but arriving at Redstone from California, Jake says this is the first time (and he spoke for Don) that he's ever gone in for cave explorations.

Oh, well, it's different, and should appeal to those who want to get away from it all.

600 Expected

(Continued From Page 1)

initial 39 other sessions.

The Redstone commander, as a colonel in the Spring, 1949 was chairman of a steering committee that developed one of the first supervisory development programs at Aberdeen Proving Ground, Md.

Times And Places

Four meetings a day will be held at strategic spots throughout the arsenal. Two will be held each day at 8 a. m., and two at 1 p. m.

The meetings, which will be announced for each area, will be held at: Bldg. A-101, the conference room; Civilian Personnel conference room, Bldg. W-441 (for the 400-series warehouse area;)

Bldg. 814, for the Field Service Division, Depot and Manufacturing area; Bldg. 618 for National Procurement Division, Engineering Group and other Plants Area 3 units; Bldg. 423 for Plant Area 1, and Bldg. 111 conference room for Bldg. 111 and 112.

The meeting will be under the general conduct of Henry Kennon and Jame Goodwin, training officers.

P. T. Barnum began the first circus train in 1872.

There are 1,500 railroad tunnels in the U. S.

15th PROS Class Graduated Monday

Maj. Stanley C. Skeiber, research and development project officer, Technical and Engineering Division, delivered the graduation address for the 15th class at the Provisional Redstone Ordnance School, Mo day.

The ceremonies for the Guided Missile Guidance Components Repair Course graduates were held at the Post Chapel at 1 p.m.

Those scheduled for proficiency certificates for the second phase of the course included the following privates:

Myrle F. Christ, Edwin M. Fellars, George C. Forda, Joseph L. Fleuchaus, Francis X. Flynn, Charles E. Glass, Lowell D. Hinshaw, Gerald W. Leckrone;

Kenneth Levy, Richard E. Maher, Vernon A. Neiss, Wilbert J. Vogel, Richard G. Woods, Earl L. Zopf, Jr., Leroy R. Flamm.

Col. James P. Snooks, Jr., assistant PROS commandant, invites wives, families and friends of the graduates and others who are interested to attend the exercises each Monday at 1 p.m. in the Post Chapel.

Service Club

(Continued From Page 1)

These will be in addition to the many other activities available at the club.

Many Activities

Activities will range from reading in the lounge to photography and handicraft, music appreciation, and outdoor deck games.

The initial radio program will be "Meet Your Neighbors," produced and m.c'd by Miss Nita Flowers. The hour-long show, beginning at 8 p. m. is a personalities and talent show aired by WFUN as a public service program.

A second program, will be heard Sunday afternoons from the club's music room. The program will be a classical music show under the direction of Capt. Theodore Foote at 2 p. m.

The third is an audience question-participation show on Tuesdays at 8 p. m.

ELIZABETHTOWN, Ill. — Harry Dorris quelled a fire among some paper and shingles in his truck by shaking a bottle of pop and directing the liquid with his thumb over the open bottle.

"BEST MEAT ON EARTH"

RECEIVE PROMOTIONS—Lts Thomas E. Hurst (left) and Norman R. Gilino are two of three Redstone officers who received promotions to first lieutenant by order of Brig. Gen. Thomas K. Vincent, arsenal commander. A third officer, Lt. Lewis F. Garber was also promoted but is now on temporary duty assignment in California. The three are assigned as students in the Provisional Redstone Ordnance School. These initial field promotions are possible at the discretion of a commanding general. (U. S. Army Photograph.)

Personality And Bicycle, Musts To Wear Bikini Says Corrine Calvet

HOLLYWOOD (AFPS) — With the male population standing smugly on the sidelines, U. S. women continue to voice their opinions on the merits (and demerits) of the Bikini bathing suit.

Corrine Calvet, the Frenchman's answer to Marilyn Monroe (The Rocket, July 22,) has leaped into the battle with the announcement:

"American women don't know how to wear a Bikini. They don't have the muscles for them."

She continued:

Bicycles De-Buige

"French girls ride bicycles from the time they are youngsters and this eliminates bulging things which is a common ailment among American women."

Mind Over Matter?

"It isn't anatomy alone that makes the French girl more at home in a Bikini, it's a state of mind. American girls are much too conscious of figure faults."

The svelte cinema star ends her atomic comment,

"Only a French woman has the personality to wear a Bikini properly!"

Hmmmmmm!

Building 713

By B. P. CARTWRIGHT

Doris Swanner surprised everyone by her elopment with Fred Henderson of Athens. It is regretted that after her marriage she resigned. She is now at home on Sanders St. in Athens.

Dennis Garrison has completed an inspection tour of the coal mines in the Birmingham area.

Frank Grace has returned from an inspection trip in Jackson, Miss. Gilbert Whitaker has returned from a week's fishing vacation.

Raymond Hardiman is enjoying a vacation—destination unknown.

J.-W. Moore has returned from a vacation in Ohio.

Howard W. Blair has returned from conferences at Pine Bluff,

New Medical Officer Assigned To Infirmary

1st Lt. James Rupp McCarthy, former Wilmington doctor, has been assigned to the U. S. A. Infirmary.

Lt. McCarthy comes to Redstone from Ft. Bragg, N. C., where he was assigned to the evacuation hospital.

The lieutenant entered service in March, 1951. Previously he practiced medicine in the Wilmington. The lieutenant attended Yale University, University of Delaware, and Hahnemann Medical College, Philadelphia.

He is the son of Mr. and Mrs. James R. McCarthy, 702 Woodside Ave., Phillip Heights, Wilmington. He is married to the former Miss Myrtle Susan Harting, daughter of Mr. and Mrs. E. L. Harting, 404 W. 34th St., Wilmington. The McCarthys have a son James R., Jr., 6 months, and a daughter, Susan Myrtle, 5 months.

Lt. Grimes Assigned As Billeting Officer

Lt. Willis M. Grimes has been assigned to Redstone as Billeting Officer, and has been appointed secretary-treasurer of the Officers Open Mess. He came here from Camp Rucker, where he was stationed with the 47th Infantry Division after four years duty in the Far East Command.

The son of Mrs. Gladys Grimes of Jasper, Ala., he is married to the former Miss Acie Lee Duke, of Meridian, Miss. They have two daughters, Jerry, 5, and Bobby Jean, 1½. They are residing in Quarters 159-B on the post.

Ark. and OAC, Headquarters, Joliet, Ill.

Mr. and Mrs. Lemuel Boggs are enjoying a week's vacation in Arkansas.

Mrs. Lizzie Blackburn is enjoying a week's vacation.

Arnold C. McDougal is on an inspection trip to Jackson, Miss.

It is regretted that inspection is losing Jasper K. Gibbs, Aug. 15. He is resigning to accept a teaching position.

Mr. and Mrs. Jack Oakes spent the week-end with relatives in Taft, Tenn.

NEW YORK—Highway accidents are claimed to kill 21 times as many people as wars.

Budget & Fiscal

By ELSIE HUGEL

A hearty welcome home is extended to Louise King's husband who has just returned from Korea. Louise went to Ft. Jackson to meet her husband and they are now honeymooning in Florida. I believe this vacation is commonly known as "second honeymoon."

August seems to be a good month for trips. Mildred Busin enjoyed a week's vacation at Opalocka, Fla. It seems she didn't have any trouble getting there but most of the return trip was made by bus, due to car trouble. However, it takes more than that to get you "down" after a week's leave.

Mrs. Laverne Sarver spent the week-end of Aug. 9 in Atlanta.

Mrs. Loretta Colburn and family are vacationing in Pensacola.

Mrs. Laverne Sarver and family are vacationing in Pensacola.

Mrs. Jean Green and family visited her parents in Alexander City recently.

Mrs. Vivian Raney visited in Birmingham over the week-end, however, it wasn't entirely restful. Seems she spent part of the time making grape jelly.

Mrs. Mildred Gunn, Commercial Accounts, has returned after spending ten days at Gulf Shores.

Miss Elise Fusch recently spent a few days in Atlanta. There is a little story behind the trip however if I publish it, I won't be able to get any correspondence out of Fiscal Unit. (Elise checks the branch's correspondence.)

Mrs. Lillian Archer's Navy husband has been home on leave. It's

Military Personnel

By CPL. EUGENE S. SZUBA

The section swim party and picnic were very successful. The picnic grounds were excellent. There were tables, electric lights, and swimming in the river.

Pfc. Jones and Sgt. Dawson displayed their diving skill while Sgt. Moore, Sgt. Davis and Cpl. Morgan and Sgt. Dickey of Finance just swam.

Pfc. Jones was a little reluctant to take a dip so after he removed his shirt getting ready to go in, he was dragged in by the other swimmers with his dress pants on. Undismayed the cool Pfc. continued swimming for awhile.

Just about the entire section was there including, Sgt. Moore and his wife Gwenn, and Sgt. Dawson and his wife Joyce. Joyce and Gwenn handled the food. We had barbecue sandwiches with cole slaw, pickles,

remarkable how he affects her disposition!

Mrs. Berdie Hovis has moved from Harvest to 514 Pike St. That is what we call "coming to town."

Helen Williams, Payroll, is on the sick list. We wish her a speedy recovery.

and all the trimmings.

Sgt. Davis, Cpl. Oswald and Pfc. Jones also brought their pretty wife. The wives watched somewhat apprehensively as their husbands swam after a lot of talk about the possibility of water moccasins in the area. Cpl. Morgan said he couldn't enjoy his swim, thinking about them.

Sgt. Kerr was along with his wife Erma. Sgt. Kerr if you know him is quite witty. He has a reputation in this office that compares with Milton Berle. He is never at a loss for a quip or gag. He told us some of his funny war stories. He kept Cpl. Oswald and his wife Jo Ann amused all evening.

After we all got out of the river we sat around listening to records that I had brought along. A few couples made an attempt to dance and did all right in spite of the uneven ground.

Darkness and mosquitoes drove the party to Sgt. Moore's home for leftovers and chit chat.

The Redstone Rocket

The Redstone Rocket is a civilian enterprise newspaper published every day in the interests of Redstone Arsenal personnel. It is published by special agreement between Jay Thornton, Haleyville, Ala. printer, and the Central Post Fund and Civilian Welfare Council, Redstone Arsenal, Huntsville, Ala.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and under no circumstances are they to be construed as those of the Department of the Army.

All editorial material for publication must be submitted to the Public Information Section, Bldg. A-101, Tel. 3-2123 and 3-2201.

All advertising and ad payments are handled by Fred Montgomery, P. O. Box 605, Haleyville, Alabama 2810, as representative for Jay Thornton. Appearance of advertisements of products in The Rocket does not constitute an endorsement by the Department of the Army.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for The Rocket are \$3 a year, or \$1.75 for six months. Mailing arrangements must be made with Fred M. Montgomery.

Armed Forces Press Service material is used in compliance with AFPS policies. Civilian newspapers are not authorized to reprint AFPS material.

Manufacturing Division

By ROBERT HOOKER

All hats are off at A-156 to Cpl. Rogers C. Hunt, Jr., who has recently been promoted. He tells us that his long face lately is due to his time with Uncle Sam drawing to a close. Business reasons, prevent him from staying for another "hitch".

Hunt keeps telling he is definitely not an enlisted man, but rather a "conscripted man." Through other sources we learned he was attracted to the call to duty by other means. It is understood (from a very reliable source, Louise Steakley) the recruiting sergeant so fascinated this Kentucky lad with the thought of having a pair of shoes that he wanted to sign up, not for just a couple of years, but for a complete enlistment of 20 years.

Forever Gone

He thinks the greatest asset at Redstone is the transportation. Hunt has had a private vehicle and chauffeur since he has been with Manufacturing. (There has been some difficulty, however, since he has been made corporal. You see, his driver was a corporal and Hunt thinks he should have a sergeant to drive him now.)

Real Convincing

Hunt has talked so much of the good things about being in service that Billy Payne has been to Montgomery three times to join the active reserve. Billy Barnard has tried to enlist twice and Jimmy Holoway said if he had known the Army was like Hunt claims, he never would have entered the Navy and feels that any day he may see the recruiting sergeant.

J. H. Hyer and Dewey H. Meeks were TDY to New York last week. When Meeks found they were to fly, he took along a bag of Cloud's Cove dirt so he could be close to the good old terra firma. Hyer said as soon as Meeks found out National Airport in Washington was weathered in, Meeks started rubbing the bag of dirt. Cold sweat really broke out when Newark was closed too.

After circling that vicinity for two and one half hours they landed at LaGuardia. Meeks later remarked that no Alabama mule could have given him a rougher ride and certainly not scared him as much. Someone remarked that it must have been a 4.2 landing.

Flying Coffee Cup

Martha Frierson, our girl at the drawing board, is feeling better now after all the trouble she has been having. Her most recent mishap was over a cup of coffee, or rather the cup of coffee over her. Martha spilled the coffee over most everything, including the cushion on her stool. Later she found out the green felt on the cushion was not fast color!

A Matter Of Strategies

During the hot days Billy Payne and George Potts tried beating the heat by wearing their trousers at half-mast. Payne's approach his knees from one direction and Potts' approached his knees from the other direction. It was remarked that both were trying to beat the draft, inasmuch as Payne was trying to appear young and Potts was trying to appear old.

Thirsty Pair

It is quite humorous to watch the steeplechase every morning when Judy Walker (4 feet, 8 inches) and Ethel Overton (5 feet, 6 inches) come running through the Production Engineering Office. We thought at first Ethel was chasing Judy, but they are running only to meet the coffee truck.

Billy Barnard volunteered to give a pint of blood to the Bloodmobile, but they took one look and gave him a transfusion. Now he owes the Red Cross for two quarts of blood.

Heads Up

James C. Prestage, Pete Boy, James Jones and Bill Hounge are trying some new concoction to restore color to their hair. We hope they don't have the same experience Berby Majors had with his tetryl. We understand this newest concoction is made of tetryl, TNT and bay rum.

We have noticed hair cuts are in order recently - Jo Mapes, Naomi Millsaps and Paul Kelly.

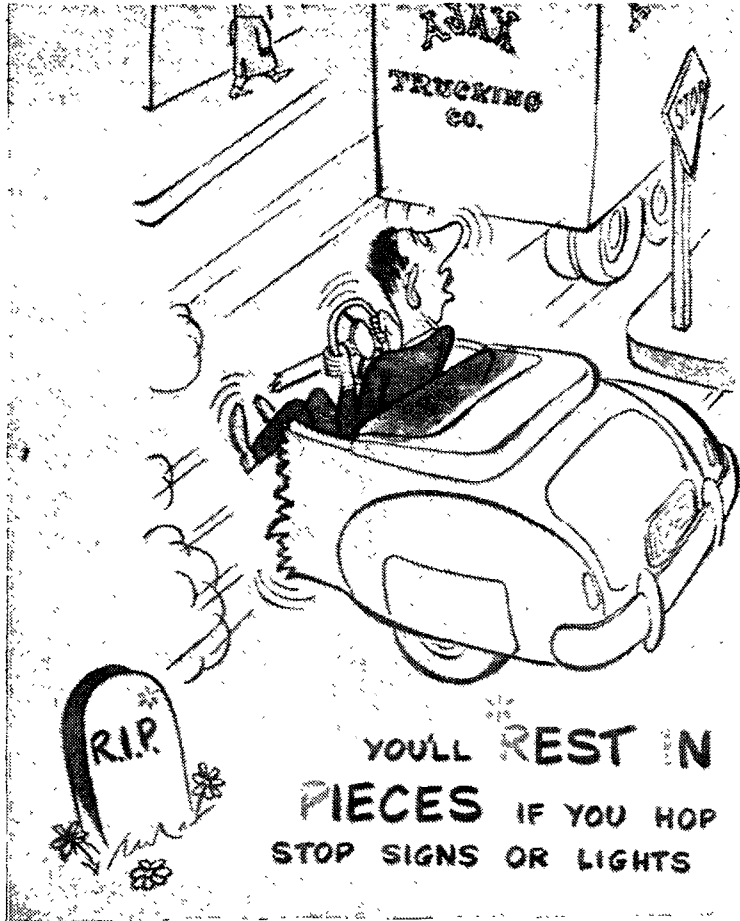

In overhearing a discussion on flying saucers, Wilbur Bailey made the remark, "What if we do catch a flying saucer?"

Earlon Self, demolition area employee, recently completed his house and moved in. He has become such a capitalist he now wears a tie with his coveralls.

Rose Fow is in Nashville for medical treatment. All her friends hope Rost will be back soon.

Doggone Business

James W. Jones and C. L. Snooks are in the dog business together. At first it was hounds, then bird dogs. They tried to buy two pups, but were told they'd have to wait for the stork. Thinking this was a won-

derful opportunity, the colonel and Jones immediately bought two unborn dogs. When the pups arrived instead of bird dogs, they turned out to be bull dogs.

Alma Boggs, Pfc. Jerome Kassel, Jack Bock, Jo Maples and William R. Pomeroy have returned from vacation. By the way, Bock purchased a Packard while on vacation.

The Division welcomes these clerk-typists as members of the gang: Winifrede Smith, Clara McCutcheon, Marion Bevels, Helen Suns and Dorothy Aguais. We hope Winifrede enjoyed the candy as much as the employees enjoyed giving it to her.

LINE 8

Tom Cornell, shift superintendent, says he was a track man at Ohio State and during his college days!

Helen Collier has just returned from vacation in Florida, with tan and all.

LINE 6

E. L. Baucom has been a busy man recently getting things into shape. Line 6 had to be reworked after the tornado last Spring. The new layout, buildings, etc. are about ready for production.

LINE 2

We are glad to have Marian Be-

vils and Clara McCutcheon as clerk typists. Both Marian and Clara are from Owens Cross Road.

DEMOLITION AREA

J. D. Maples and his boys can really put up a smoke screen. We don't know if they have something to hide or if they are carrying out their assigned duties.

LINE 7

Employees returning to work at Line 7, July 28 were really glad to be back on the job with their old friends after a 12-month vacation.

The second shift personnel are very glad to have as their new office girl, Louise Suns.

O. E. Cribbs and Loren Tuck, so called big shots of Line 7, are

men with many hobbies, with fishing the most important. The last time Cribbs went fishing, he hit the jackpot with a nine pound bass. What are you saying Tuck? Can you beat it?

All Alone

Leah White, inspector for second shift looks lonesome and lost, being the only inspector on this shift.

Line 7 employees are really enjoying the air conditioned building they now work in. This improvement was made during the remodeling of Line 7.

Robert McCord, shift superintendent and a man of many words, goes around hailing for Arab. He says he will be glad when his favorite sport season opens.

the "little short guy", has received a new name since his picture was taken with the Division softball team. He is now called, "the little short guy with the big head."

Busy Girl

Fred Medlin, foreman, called Irene Bruce, is considering joining the Redstone carpenter gang. Irene built an extra room, back porch, put in a septic tank and bathroom in her home during her vacation.

Their friends are glad to see Novella Gover and Mammie Stelle able to be back at work since both had serious operations during their vacation.

Gladys Vasser had as her guests last weekend, her mother and father-in-law from Rockford, Ill. her brother from Detroit and also her sister from St. Petersburg, Fla.

After a long time at the demolition area, Clifton Saxon has been transferred to Line 7.

Voice Propoundo

Our reporter has an aversion to writing about himself, so we are sneaking this in without his knowledge.

Anyone having trouble getting their baby to sleep at night should contact Bob Hooker; it is understood he has a voice that will put anyone to sleep.

REDSTONE Sports

330 Nine Grabs Early Lead In Second Week Of League

With two weeks' play under their belts, the best overall thing to be said about the teams in the Second Softball League, is "we've won some, and lost some."

And the statement holds true for everybody but the 9330 nine, which three starts has yet to lose a game.

The loop almost made its schedule last week after the slow first week send-off, and were well on the way until Thursday when the rains came and the sign went up, "rain, no games today."

Sgt. Dan Weatherly, newly arrived Special Services specialist, and new head of the league administration department gives out with these results:

Aug. 11, 9330 topped the Missiles 7-7; Guided Missile-2. Romped over Staff and Faculty 18-5. At the same time the 3523 Bulldogs and Post Ordinance battled to a 4-3 finish with the 'Dogs hugging the one run difference.

Aug. 12, First EM bested GM-1, 4-4, Depot took the Rockets 12-8, and the Rams sneaked by Thiokol, 4-4.

Aug. 13, 9330 picked up win number three at the expense of the Bulldogs, 7-3, the Missiles were the run better than GM-2 in a 10-9 morning match, and Post Ordinance out Staff and Faculty, 5-0. Due up this week are:

Aug. 19

1. GM-1 v. Rockets

1-A Depot v. Rams

2. 1st EM v. Thiokol

Aug. 20

1. Ord. v. Rams

1-A. 9330 v. GM-1

2. GM-2 v. Depot

Aug. 21

1. Bulldogs v. Thiokol

1-A S. & F. v. Rockets

2. Missiles v. 1st EM

Aug. 25

1. 9330 v. Depot

1-A. GM-2 v. Rams

2. Ord. v. 1st EM.

Yesterday GM-2 tangled with Post Ordinance, Missiles with the Bulldogs, and 9330 with Staff and Faculty.

Bucky's Ability Is With Youth

Stanley R. (Bucky) Harris managed Washington to two pennants in his first two tries in 1924 and 1925. He had to wait until 1947 for his third, with the Yankees.

Honors Candidate

With only those winners and many more second division teams (none of which finished last, however) he's still an annual candidate for manager-of-the-year honors... This year is no exception. He swapped standout batters for speedier outfielders to improve his club.

Chance Taker

He took chances on untried rookies and aging veterans and welded a team that jumped to second place, and still is a hot contender for first division honors.

And the Senators were almost universally picked to finish eighth.

Strategist

Adept maneuvering of his Cuban players, who've been playing baseball since December, keeps the Senators in the running each year until mid-June. Then Harris substitutes his second-stringers, who allow the stars to rest through the summer's hottest days...

His achievements have not gone unnoticed. Every Club owner would like to have Harris with him. His ability with youngsters is unsurpassed...

Passed Yanks

He passed up an office job to manage the Yankees in 1947, but today, at 56, he may be ready for an executive's post. A likely spot for him awaits in Detroit.

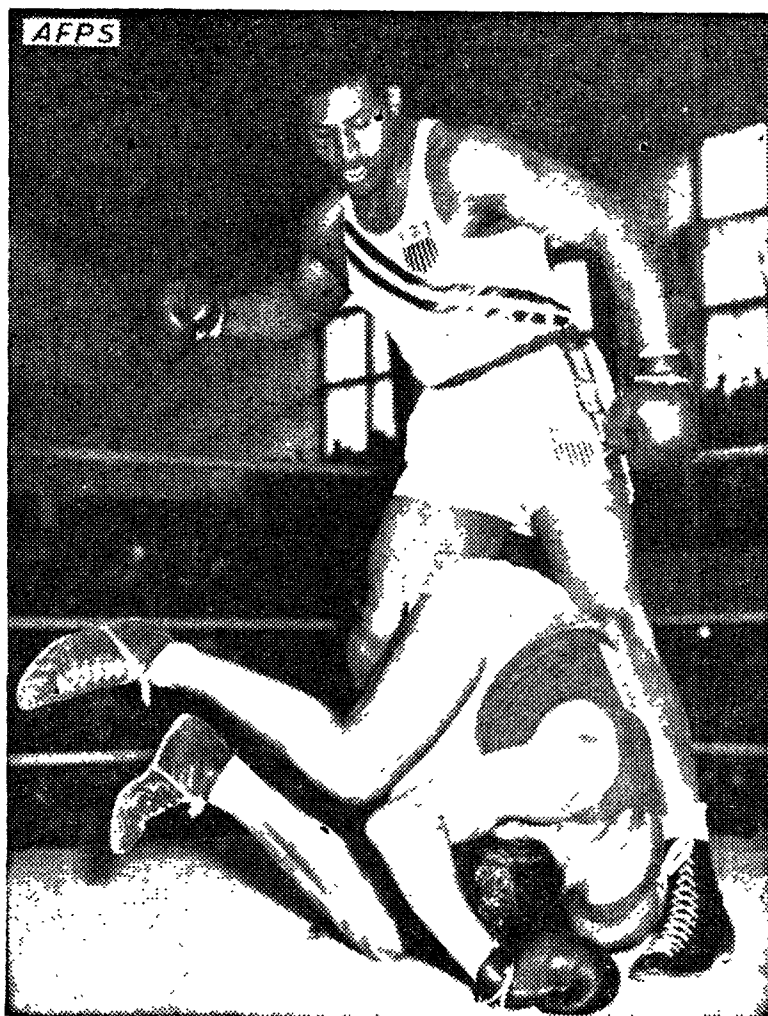

A major rebuilding job is what the Tigers need. An they need a builder.

Tiger Offer

Before his death last year Tiger owner Walker Briggs Sr. tried several times to get Bucky to work for him. But Bucky wasn't ready for office work. Detroit general manager Charley Gehringer was an unwilling successor to that job.

An early-season player revolt this year plus failure of the Bos-

Olympic Ring Victory

America's Ed Sanders stands victorious over the crumpled form of his opponent, Hans Jost, of Switzerland, after the Yank kayoed the Swiss heavyweight in the Olympic boxing event at Helsinki. (UP Photo.)

Touch Football Meet Scheduled On Aug. 27

With diamond dust still being kicked up in the air, the annual fall pigskin squeal is beginning to rumble closer at Redstone as plans are made for a touch football conference to open Sept. 18.

Sgt. Dan Weatherly says a meeting will be held Aug. 27 at 8 a.m. at Bldg. T-151, to discuss plans for the touch football season. Organizations interested in participating are requested to be represented at this meeting.

Weatherly says teams will be six-man teams with the squad probably limited to 12 or 14 men.

Volleyball Planners To Gather Aug. 22

Plans for a September outdoor volleyball league will be made Aug. 22 at 8 a.m. when managers of arsenal volleyball teams are asked to meet at Bldg. T-151.

All persons interested in the volleyball circuit are requested to be at the meeting.

RIFLES AVAILABLE

WASHINGTON (AFPS) — Rifles and blank ammunition for funerals and other ceremonies are available to recognized veterans organizations for the first time since hostilities began in Korea, the Department of the Army announces. No local organization is permitted more than a total of 10 rifles. Requests should be addressed to the Office, Chief of Ordnance, Department of the Army, Washington 25, D.C. A charge of one dollar per rifle will be made to cover packing and handling.

FISHY STORY

FRANKFURT, Germany — A Swiss patent has been issued for "angle worms" that come in a tube - like toothpaste - and are squeezed as needed—like toothpaste. The inventor says the artificial worms are more attractive to fish than the real things.

ton trade to boost the team sped the end for the manager Red Rolfe. The real trouble shows up in the roster.

Aging Players

Checking the birthdates of New-houser, Hutchinson and Trucks, Pesky, Kolloway, Fridy and utility fielder Hopp tells the story.

A youth movement is our prescription for Detroit's Aliments, Bucky Harris, baseball's medicine man, may have just the tonic for the Tigers.

Redstone Arsenal Society News

AUG. 19, 1952

PAGE 6

Persons desiring items to appear on the society pages of The Redstone Rocket should contact Mrs. Helen Hansmeier in the Public Information Section Bldg. A-101, Ext. 3-2201, by noon Wednesday.

Mrs. Helen Hansmeier, editor

Mrs. Toftoy Is Elected Head Of Post Officers Wives Club

Mrs. Holger N. Toftoy was elected president of the Redstone Arsenal Officers Wives Club during a business meeting of club members Aug. 12 at the Officers Open Mess.

Other Officers

Other officers elected at this meeting are Mrs. Thomas C. McCosker, vice-president; Mrs. Henry Parker, corresponding secretary; Mrs. Robert Merchant, recording secretary; and Mrs. John Simpson, treasurer. All officers will serve for six-month terms and will be installed in September. It was decided that no member would be elected more than once to the same office.

Frhit punch was served before the meeting was called to order. Mrs. Stanley Smolensky, hospitality chairman, had charge of these

Committee Named

Following the election of officers, there was a discussion on giving gifts to departing members, and to the Officers Open Mess. Mrs. Stanley Skeiber, Mrs. Joseph Rush, Mrs. Loren O'Dell, and Mrs. Seward Mott were named to the committee to select the Officers Mess gift.

Retiring Officers

The retiring officers are Mrs. Daniel R. Thoma, president; Mrs.

Benjamin Beach, vice-president; Mrs. Woodrow Crum, recording secretary; Mrs. David Lane, corresponding secretary; and Mrs. Charles M. Jaco, treasurer.

Next Meet

The next meeting will be a tea at 1:45 p. m. Sept. 9 honoring Mrs. Thomas K. Vincent, and marking the second anniversary of the founding of the club. Gen. Vincent will address the group during the program hour.

All persons eligible for club membership are invited to attend the tea.

The Meyers Are Wed During N. Y. Ceremony

Miss Jean Ruth Hubley of Newton Center, Mass. became the bride of Lt. Richard C. Meyer, Jr., son of Mr. and Mrs. Richard C. Meyer, Sr., Roslyn Heights, L. I., N. Y., during a ceremony Aug. 9 in the Chapel on Lake George in Cleverdale, N. Y. The Rev. A. Parker read the vows.

The nuptial music furnished by the chapel organist included "The Wedding March" from Lohengrin and "Smiling Through."

Miss Joan Hubley, sister of the bride was maid of honor, and the bridesmaids were Miss Jean Merrill and Miss Marie Keoane. Wesley Livingston served Lt. Meyer as best man, and Richard Reynaud and Arthur Wilson were the ushers.

Following the wedding ceremony a reception was given at "The Knoll," the home of Dr. and Mrs. Richard C. Tefft, Jr., in Cleverdale.

The Meyers are residing at 218 Park Lane Ave., Hillandale, Huntsville.

Mrs. Meyer is a graduate of Colby Junior College, New London, N. H. and of Forsyth Dental Hygienist School. Lt. Meyer holds a bachelor of science degree in chemical engineering from Columbia University School of Engineering. He received his commission on graduation from Officers Candidate School at Ft. Riley, Kan. He is assigned to the Provisional Redstone Ordnance School.

Mr. and Mrs. Tom Willis, 1013 Vanderbilt Dr., Huntsville announce the birth of a son Aug. 11. The father is an employee of the Payroll Section of Budget and Fiscal

ANNOUNCE ENGAGEMENT — Miss Betty Gooch, Thiokol employee, is engaged to marry Jack Bailey, an employee in the Property Disposal Office. The announcement was made by Mr. and Mrs. E. L. Gooch, 603 Eighth Ave., Huntsville, parents of Miss Gooch. No wedding date has been set. (Photo by Bryson Studio.)

Meyers Are Honored At Reception Aug. 17

Lt. and Mrs. Thomas Hurst, Lt. and Mrs. James Apple, and Lt. and Mrs. Hugh F. Eakin entertained with a reception Aug. 17 at the Eakin home, 206 Longwood Ct. Huntsville, honoring Lt. and Mrs. Richard Meyer who were married recently in Cleverdale, N. Y.

The punch table was covered with a damask cloth. Silver candelabra decorated with pink illusion held lighted pink tapers. Other appointments were in silver, and the color scheme was pink and white for the refreshments, and for the flowers used throughout the house. Pink carnations were frozen in the ice cooling the punch.

Board Selects New Committees

Lt.-Col. William J. Durrenberger was named chairman of the entertainment committee for the Officers Open Mess at a recent meeting of the Board of Governors, according to Col. James P. Snooks, president of the board.

The other committee members are Maj. Joseph Rush, Maj. Amedeo Nicolosi, Capt. Loren O'Dell, CWO Benjamin Reese, and Dr. Henry Shuey. They are appointed for six-month terms to plan dances and similar social activities.

Another committee will plan game night functions. They are Maj. Stanley Skeiber, Capt. James Fail, Capt. Robert Merchant, Lt. Keith Glasgow, Lt. James Apple, and Casper Koepfer.

The retiring committee members are Lt.-Col. Stanley Smolensky, Capt. Thomas C. McCosker, Capt. Leonard Schreiber, Lt. Walter Berke and Lt. Robert Bailey, who have planned social affairs during the last six months.

Maj. Enoch Sparks, Capt. Charles Monyak, Lt. Louis Holder, Lt. Ralph Bolvin, and Lt. Francis Nevels were originally named on the retiring games committee.

Mr. and Mrs. Floyd Mayo, Arab, announce the marriage of their daughter Bobye Sue, and Roy L. Holaway, son of Mr. and Mrs. Dayton Holaway, Arab, on Aug. 3 at the home of the Rev. Propes in that city. Mr. Holaway is employed at the Baker Motor Pool, Post Transportation.

Personals

Among the enlisted men on leave are Cpl. Earl A. Lay 9330 TSU, who has gone to Loramie, O; Pfc. Richard L. Wisenmaler 9330 TSU who is visiting in Monroe, Mich.; Sgt. Jack Kerr 3523 who is on leave to Ned, Pa.; and Pfc. James E. White, Provisional Redstone Ordnance School, who left Aug. 13 to spend leave in Kewanee, Ill.

Lt. Willis Grimes, recently assigned Billeting officer, has been assigned quarters 159-B on the post.

Mrs. Amedeo Nicolosi entertained with a stork shower honoring Mrs. Edwin F. Trout Aug. 6 at the Nicolosi home, 102 Brook Manor Rd., Huntsville. Eighteen guests were present and games and contests were won by Mrs. Mary Gilbert, Mrs. Robert Howard, and Mrs. Stanke.

Mr. and Mrs. James Mac Martin, Baltimore, are house guests of Lt. and Mrs. Seward Mott, 420

McClung St., Huntsville.

Lt.-Col. and Mrs. Daniel R. Thoma spent Aug. 16 weekend in Atlanta.

Mrs. Lillian Gottlieb of Washington, D. C. was a house guest of Lt. and Mrs. Edwin F. Trout, Laurens Dr., Huntsville, last week.

Maj. and Mrs. Amedeo Nicolosi are visiting Maj. and Mrs. Erwin Graham in Aberdeen, Md.

Word was received here Aug. 14 that Mrs. A. Sepe, mother of Mrs. James Long died Aug. 13 in Millbrook, N. Y. The funeral was held at 10 a.m. Aug. 16 in Millbrook. Mrs. Long will remain there until Sept. 1.

WOJG Marcus D. Ellis is spending leave in Chattanooga, Tenn.

TO WED EMPLOYEE—Miss Mary Hallmark of Oneonta has announced her plans to marry Arlin Graves, employee in the Combustion and Fuels Section of the Guided Missile Group, at 7 p. m. Aug. 2 in the Lester Memorial Methodist Church, Oneonta. Her parents are Mr. and Mrs. James Melton Hallmark, and Mr. Graves is the son of Mr. and Mrs. Allie E. Graves, Blountsville.

Employee To Wed Mary E. Hallmark

Mr. and Mrs. James Melton Hallmark, Oneonta, Ala., announce the engagement and approaching marriage of their daughter, Mary Ether, and Arlin Graves son of Mr. and Mrs. Allie E. Graves of Blountsville. Mr. Graves is employed as a chemical engineer in the Combustion and Fuels Section of the Guided Missile Development Group. The wedding is scheduled for 7 p. m. Aug. 22 in the Lester Memorial Church, Oneonta, with the Rev. M. Barnes officiating. Mrs. Clinton Moore and the Rev. A. G. Hemmree, vocalists, and Mrs. Frances Gynnum, organist, will furnish the musical music. After the wedding ceremony, a reception will be held at the home of Mrs. J. E. Wilson, Oneonta. The bride-elect is a senior at the Jefferson-Hillman Hospital School of Nursing, Birmingham. After her graduation, plans will be made for studying in Huntsville. Mr. Graves is a University of Alabama graduate with a bachelor of science degree.

Stork Shower Honors Former Post Employee

Mrs. Eugene Cagle, employee in the office of Personnel and Administration, entertained with a stork shower Aug. 8 honoring Mrs. Jack James who was formerly employed in the same office. The party was given at the Cagle home, 908 McCullough Ave., Huntsville.

Cut flowers were used throughout the house. More than 20 guests attended, and prizes for contests were awarded to Mrs. H. R. Jordan, Mrs. W. D. Brown, Mrs. B. K. Chreitzberg, Miss Margaret Francis, Mrs. Earl Bayless and Mrs. Murphy Stolz.

The favors were tiny baby dolls wrapped in pink and blue. Mrs. James was presented a corsage of white asters. The gifts were presented in a bassinet decorated in blue and white.

Mrs. Chreitzberg assisted in serving punch and a refreshment of sandwiches and dainties.

From The Chaplain

By CH. JOHN SIMPSON

This is the second in a series of articles dealing with a study of the interdenominational accepted "Lord's Prayer".

"Our Father", constitutes a definite system of theology. It fixes the nature and character of God. It tells us all we need to know about God, about man, and about man's neighbor. Oliver Wendell Holmes said: "My religion is summed up in the first two words of the Lord's prayer." Surely many of us will want to agree with him.

Notice how simple, clear-cut, and intimate the statement is. In this clause Jesus lays down once and for all the relationship between God and man as that of the Father to the Son. Thus God is not a despot, not a tyrant, but the parent of the child.

Parents are at their best in dealing with their children. God is at His best when dealing with His children. Jesus expressed it when He said: "How much more will God, who is altogether good, do for you." How much easier is it to go to the "Perfect Father"!!!

Since God is our parent we must partake of His nature. Like always begets like. Not only made in the image of God but an offspring of God.

Look now what this means to us. We are no longer subject to the anger of God but children for His love and sincere understanding. Now the status of our being is given dignity. We are somebody. from God, bearing the very marks of our Maker. This helps us to lose all fears. No inferiority complexes can haunt us; we represent the best God can do, making us to conform to Himself.

Again let us say:

"Our Father, who art in heaven, hallowed by Thy name;

Thy kingdom come, thy will be done on earth as it is in heaven.

Give us this day our daily bread; forgive us of our trespasses as we forgive those who trespass against us.

Lead us not into temptation but deliver us from evil.

For Thine is the Kingdom, the Power and the Glory, forever. Amen.

TO SPEAK VOWS—Miss Ann Tolson Lyon daughter of Mr. and Mrs. A. Tolson Lyon, Harve de Grace, Md. will marry Lt. Rodney Douglas Stewart Aug. 20 at the home of her parents. Lt. Stewart is assigned to the Provisional Redstone Ordnance School. They will reside at Huntsville, Route Three.

Ann Lyon, Lt. Stewart Will Wed On Wednesday

Mr. and Mrs. A. Tolson Lyon, Harve de Grace, Md., announce the approaching marriage of their daughter, Ann Tolson, and Rodney Douglas Stewart, son of Mr. and Mrs. Jeffrey R. Stewart, Alexandria, Va. Lt. Stewart is assigned as an instructor in the Provisional Redstone Ordnance school.

The wedding will take place at 2 p. m. Aug. 20 in the home of the bride-elect's parents, with the Rev. J. Rudolph Field, rector of St. Andrews Episcopal Church of Princess Ann, Md. officiating.

Miss Lyon has chosen her sister, Mrs. William A. Divers, Jr., as matron of honor, and Lt. Stewart's brother, Jeffrey R. Stewart, Jr. will serve as best man.

The bride-elect attended the University of Maryland, Richmond Professional Institute, and Goldey College. Lt. Stewart is a graduate of Virginia Polytechnic Institute with a bachelor of science degree in civil engineering.

The couple will reside at Route Three, Huntsville on their return from a wedding trip.

Civilian Personnel

By ROY W. MUMMERT

Mrs. Ruby McBride from the Office, Chief of Ordnance and Peter Bann from Rock Island Arsenal reported on Aug. 11 for temporary duty with the Salary and Wage Section. We welcome them and trust their temporary assignment at Redstone is a pleasant one.

The end of August will see us saying "good-by" to Mrs. Lola Barlar of the Employment Utilization Section. Lola is moving to Kentucky, and needless to say she will be missed by all in Civilian Personnel.

Our sympathy is extended to Gilda Gardsbane whose father died recently in New Orleans.

Clara Duggan returned from a voting trip to Tennessee on August 11. Clara was all smiles on her return. Could it be that her man won?

Sgt. Anthony Sesnauskas, Provisional Redstone Ordnance School, is on emergency leave in Chattanooga to visit his wife who is ill.

Mrs. Albert Uherka, Milwaukee, Wis., is visiting her son Myron Uherka, at Redstone Trailer Park. Mr. Uherka is chief of the Management Improvement Section.

Mao Is A Studious, Deliberate General

(By Armed Forces Press Service) "Mr. Strategy" of Red China is Mao Tse-tung.

The man who guides and directs the military operations of the Chinese Communist is a cold, calculating, cruel and embittered soldier from years of struggle.

Some Pigs Lived

He has a contemptuous disrespect for atomic bombs. "Even at Bikini," he has said, "atomic bombs didn't kill all the pigs." Mao (pronounced Moy) doubts that A-bombs would be very effective against China.

Strategy Writer

He has studied and written at length on military subjects and has a very definite grasp of strategy and military operations. Like other dictators, he regards himself as "having a feeling" for the trends which escape other men.

One-Shot Attacks

Mao believes in one-fisted strikes, not in the two-fisted offensives that can result in double envelopment. "In between offensives," he argues, "yield like a boxer; but once it is decided to attack, do so with great weight of numbers and in a single direction."

No Recklessness

Mao has greatly influenced his generals to be deliberate. He does not want generals who act rashly or recklessly. Timing must be correct, preparations deliberate. These are Mao's studied concepts; they have been evident in Korea—the great drives, with long intervals between offensives.

Calculating Fighter

Part of Mao's over-all strategy within a given war is to measure the struggle in terms of "are we winning the hard way or the easy?"

He keeps his eye on the resources at hand, and if he sees that they are being expended too rapidly for the pace or length of the conflict, he slows up his commanders and patiently waits awhile, to conserve and gather more energy and more resources.

Psychological War?

Mao's strategy is to persuade the United Nations, and particularly the U. S., that war with China in any sphere is hopeless. He has already persuaded some people that no military force can defeat his army on the mainland of China. But Mao wants to make sure that no one will challenge any Red Chinese military move in other parts of Asia.

This Chinese dictator's ambitions are boundless.

Furlough railroad fares have been extended to Jan. 31, 1953.

Navy Uses Mechanical "Brain" For Missiles' Performance Checking

Washington (AFPS)—The Navy now has an electric brain that catches its own errors.

A new multi-million dollar electronic digital computing machine, developed over a period of six years, not only is capable of 3,000 to 5,000 mathematical operations per second, but stops its operation when an error creeps in.

"Raydac"

The mechanical brain is called the "Raydac," an abbreviation of Raytheon Digital Automatic Computer. It was developed by the Raytheon Manufacturing Company for the Navy Bureau of Aeronautics.

Ten Checks

Ten different types of accuracy checks are made by the "brain". All work is preserved up to the instant an error is flashed on the control board. After the correction is made the machine immediately continues its lightning calculations from the point where it stopped.

To California

Following acceptance tests, the machine will be shipped to the Bureau of Aeronautics Naval Air Missile Test Center at Point Mugu, Calif. There, by radar and other checking devices, the machine will receive information and act as an "intelligence center" to study the flight behavior of the missiles.

20 Men's Work

It has taken teams of workers from 20 to 30 days to perform mass calculations from a single missile's flight data. The new machine is expected to solve these problems in minutes.

The Cotton and Rose Bowls and 12 major collegiate games will be televised this year. There will be TV blackouts.

Chaplains Are Praised For High Army Morale

FT. SLOCUM, N. Y. (AFPS) -- Secretary of the Army Frank Pace Jr. has praised Service chaplains meeting here for raising the spiritual morale of the Armed Forces "to its highest level in our whole peacetime history."

Mr. Pace also said that servicemen and women today are more aware of the importance of spiritual values and their attendance at religious service is greater than at any other time.

New EM Promotion Scheme for Army

Washington (AFPS)—The Army has announced that it is beginning a new promotion system designed to ease the present tight situation regarding enlisted men promotions.

Openings

Because of the increase in number of men being separated from the service and other factors, some vacancies are beginning to crop up. To fill these vacancies, the Department of the Army will authorize specific promotion quotas for each command. The quota system will begin this month.

Korea First

Those men serving in forward positions in Korea will be subject to a more liberal promotion policy. But all promotions, worldwide, will still be under the firm control of the Department of the Army.

New Criteria

Because of strength limitations, the Army was forced to suspend many promotion authorizations in March and many men, while eligible and deserving of promotions were unable to obtain them. Therefore, the Department of the Army, in its new promotion system, will have to publish new time-in-grade and time-in-position criteria. These criteria will be announced shortly.

Navy May Use A-Power In Large Type Vessels

Washington (AFPS)—The Atomic Energy Commission has announced that development work on a nuclear power plant suitable for propulsion of large naval vessels, such as aircraft carriers, will be conducted by the Westinghouse Electric Corporation under an AEC contract.

The work will be centered at the Bettis Plant, near Pittsburgh, Pa., operated by the Westinghouse

Transportation

By ELIZABETH (Lib) LAXSON

Post Transportation is feeling mighty low these days. You see—it has lost its stenographer, Miss Sara Shockley, to the Women's Air Force. She is to be admired for taking this step and I'm sure she will do well. Sara is loved by all with whom she came in contact and will be greatly missed.

Henry L. Burcham, who is a Clerk of materials Handling Equipment Shop, is leaving August 22 to resume his teaching profession. He will teach commercial subjects at the Eva High School in Morgan County. Burcham has been an employee of Redstone Arsenal since June, 1951.

Jo Hannah, Inbound Freight, is back at "ye old typewriter" again. She returned Aug. 13, after a few days visit with relatives in Murray, Ky.

Sgt. Henry L. Jones, Motor Vehicle Operations, will bid farewell to Redstone Arsenal soon, when he and his wife and 10-year old daughter will leave for a vacation at Rocky Ford, Colo. and other points of interest. Sgt. Jones will go from there to FECOM. Good luck on your new assignment, Sergeant.

Charles A. Williams, mechanic in the Diesel Shop, was operated on at Whitaker's Clinic recently for appendicitis. We're glad to know that he has improved so rapidly.

E. H. Dunham, railroad engineer, is convalescing after an operation the latter part of July.

The father of J. R. Foote, foreman of the Diesel Shop, is in a critical condition in Birmingham. The wife of A. L. Kent, railroad yardmaster, underwent an operation at the Huntsville Hospital Aug. 12. She is reported doing nicely.

Mrs. Elizabeth (Lib for short) Laxson, clerk-typist in Post Transportation's passenger transportation unit, has taken over The Rocket column for Transportation.

She is an old-new Redstone employee having been here for the past year and one-half. When not working or housekeeping and cooking at 523 Bonita Circle, she says she likes to swim and to collect antique dishes.

Indefinite Commissions Or Release Is Offer Made Army Reserves

Washington (AFPS)—The Army and Air Force are completing plans to offer commissions of indefinite duration to reserve officers and to Departments of the Army and Air Force have announced.

The action is called for under the recently passed Armed Forces Reserve act. A similar plan is already in effect for Navy and Marine Corps reserves.

The new appointment plan is expected to eliminate the commission renewal as well as to treat reservists in the same manner as regulars by ending probationary scrutiny every five years.

The Army plans to give each officer to whom an indefinite appointment is offered sixty days in which to consider it.

Atomic Power Division. Other Westinghouse Divisions and widespread subcontractors will assist in the development.

The first hint of such a move came recently when Navy Secretary Dan Kimball spoke at the Keel laying of the USS Forrestal. At that time Mr. Kimball said that he hoped it would be possible for the third or fourth Forrestal-class carrier to be propelled by atomic power.

HOLDREGE, Neb. — A kindergarten youth refused to apologize to a young girl for throwing rocks at her. "Heck, I missed her every time," he said.

Gen. Lawton Collins

(By Armed Forces Press Service) (This is the fifth in a series of articles dealing with the nation's top Defense Leaders.)

Gen. J. Lawton Collins was appointed Chief of Staff of the U. S. Army in August 1949. The New Orleans, La., native launched a successful 39-year Army career when he entered the U. S. Military Academy in 1913.

Graduated 1917

Graduated in 1917, he served in the U. S. two years before assignment to the 18th Infantry in Germany.

Returning to the U. S., he spent the next few years at West Point, N. Y., Ft. Benning, Ga., and Ft. Leavenworth, Kans.

In 1933 he was transferred to the Philippines for duty with the 23rd Brigade at Ft. William McKinley.

WWII Duty

When WWII began Gen. Collins was sent to Hawaii to assist in the reorganization of the defenses of the Islands. Later he was named commanding general of the 25th Infantry Div., which participated in invasions of the Solomon Islands.

Normandy

In 1943 he was transferred to the European Theater to command the famous VII Corps. On D-Day, that hard-hitting unit landed at Normandy. Under Gen. Collins they continued their offensive into France, Belgium and Germany.

Relieved from command of the VII Corps in August, 1945, he was appointed deputy commanding general and Chief of Staff, Headquarters, Army Ground Forces, Washington, D. C.

Washington Jobs

After taking over the office of Director of Information in December, 1945, Gen. Collins was appointed deputy chief of Staff, U. S. Army and later named vice chief of Staff, U. S. Army.

Among the decorations awarded Gen. Collins are the Distinguished Service Medal with two Oak Leaf Clusters, Silver Star with one Oak Leaf Cluster and the Legion of Merit with one Oak Leaf Cluster.

The first American silver dollar was made in 1794.

Column Capsules

A teen-age center sponsored by the Huntsville Elks Lodge is open from 8 to 11 p.m. each Friday in the Elks Building. Arrangements have been made for an orchestra, The Melodeers, to play for dancing, and soft drinks are available. Teen-agers of all arsenal personnel are invited to attend. Lt. Alber Tovey is chairman of the Elks Teen-age activities committee. Lt. and Mrs. Rovey and Lt. and Mrs. Stanley Stockwell assist as dance chaperons. The sponsoring group is at present looking for a more suitable location so that a wider program may be advanced for the teen-agers.

A survey is underway to get the names and ages of all sons of military personnel assigned to Redstone, who are interested in forming a Boy Scout troop. Such names should be turned in to the Adjutant's office. Robert L. Haskins, area Scout executive in Huntsville, has asked for this information in order to form either Cub or Scout troops. The eligible ages are from 10 to 18.

Arsenal To Join In Safety Parade

12-Float Show Will Be Aug. 28

Safety Sign Unveiling Will Climax Jaycee Anti - Accident Drive

Redstone Arsenal personnel will join with others interested in traffic safety to create the Junior Chamber of Commerce safety parade, Aug. 28 at 4:30 p.m.

The arsenal, under the direction of James E. Hiers, Safety, will present a 40-foot float based on the general theme "a safe worker is safe all the time, on the highways as well as work."

Deep Interest

The arsenal's interest in the safety parade is solidly founded on that fact that all but a handful of the personnel are dependant on highway travel to get to and from work.

The parade will culminate in the unveiling of a Jaycee traffic safety scoreboard on the northeast corner of the Courthouse Square. The scoreboard will have a green and red light on it. The red light will burn for three consecutive days after a traffic fatality; the green light will burn only during those days when there has been no traffic deaths.

Assemble At 4 P.M.

The 12-float parade will assemble at the curb market at 4 p.m.

The Redstone float will show arsenal workers in fields where work safety is an obvious requirement. These workers will be observing safety rules in their work and dress. These tableaux will be coupled with a wrecked automobile, physically spelling out the big question, "what is the difference in safety at work and on the highways?"

The safety parade is the climax of a safety drive by the Jaycees. Money for the signboard was raised through the sale of safety seals.

Two arsenal employees, Wehrner von Braun and Donald Shenk, will be listed in the forthcoming issue of "Who's Who In America." Von Braun is assigned to the Guided Missile Development Group, and Shenk is a mechanical engineer on the technical staff of the Technical and Engineering Division.

Keeping Roads Trash Free Is "Merely" Common Sense

Had a flat tire recently? Bet it made you mad, and you cursed the lousy so and so who left the piece of trash on the road that punctured your tire.

Double Expense

It is aggravating, and costly. It is costly in two ways; one to you to have the tire repaired—or replaced, and secondly to the arsenal to retain a truck and two men to patrol arsenal roads on a trash detail.

You've seen these Post Engineer employees time and time again, working the roads picking up empty bottles, beer cans, nails, wire, paper, cartons, etc. that needlessly litter

Short speeches at the unveiling will be keynoted by Maj. M. W. Kimbrough Highway Patrol director of safety education.

OPENS SERVICE CLUB—Brig. Gen. Thomas K. Vincent, arsenal commander, cuts the ribbon and officially opens Redstone's new, and first service club. The ceremony was performed last Thursday night at a gala 'first night' for the club. Later Mrs. Vincent cut the first piece of cake from the two celebration cakes. Witnessing the ribbon ceremony (left to right) are: Pvt. Guy

Muio, Pfc. William Gunderman, Mrs. Vincent, Gen. Vincent, Capt. John J. Horan, Miss Emily Evans, and Ch. John Simpson. About 800 persons attended the opening festivities, which included a dance, music by Doug Farney, and the opening of the hour-long radio show "Meet Your Neighbors," by Nita Flowers, (U. S. Army photograph.)

Tree-Baked Apples Is Summer Claim From New Haven

No matter how hot or humid it may get, an item out of New Haven, Conn. should make us all feel very lucky at being in this equitable climate.

According to the story filed by AFPS, it was so hot in New Haven in July that baked apples were found on the trees in the orchards! (Not half-baked, mind you, but baked.)

In spite of this applesauce, there are those at Redstone who will say it has been hot and humid enough here, and the Water Treatment Plant records will bear them out.

Last week the mercury jumped back to the 100 mark on Aug. 17 and 18, and stayed close to it the rest of the week. In that time the nights were able to cool down only

(Continued On Page 2)

Largest Graduation Held By PROS

The Provisional Redstone Ordnance School held its largest single graduation exercise so far, Monday, when 22 students were scheduled to receive proficiency certificates in a combined exercise.

Pvt. Eugene E. Collins is the honor student of the Guided Missile Guidance Components Repair course, and Marvin L. Siegle, of the Guided Missile Repair course.

The students were from Class Two of the Guided Missile Repair course, and from Class 16 of the Guided Missile Guidance Components Repair course.

Col. Henry C. Thayer, chief of the National Procurement Division, was the guest speaker for the ceremonies which were held in the Post Chapel at 1 p.m.

Members of the Guided Missile Repair course included the following:

Pvts. Gilbert C. Baldwin, Robert J. Falenski, Eugene D. Houser, Kenneth H. Knaple, Howard W. McKee, James G. Paquin;

Paul D. Schmidt, Herbert L. Sell, Marvin P. Siegle, Richard B. Walker, and Martin J. Wojciechowsky.

Class men in components repair course were: Pvts. Kenneth W. Anderson, Robert T. Biewener, Ralph W. Bockin, Eugene E. Collins, Carroll G. Downey, Irvin F. Draeger;

Gilbert L. Ebel, Richard L. Lawrence, Stanley G. Read, Lyndon W. Roan, Richard L. Weber.

WASHINGTON — The Office of Business Economics of the Commerce Dept. estimates a total of \$9,150,000,000 was spent on wine, beer and liquor last year.

Technical On-Job Training Underway

The first of a series of formal courses, part of an on-the-job training, started Aug. 18 with a lecture course conducted by Prof. Boyd Harshbarger, chairman of the Statistics Department, Virginia Polytechnic Institute.

The courses are held from 8 to 10 a. m. in the Technical and Engineering Division auditorium, and will continue through Sept. 5.

Instruction in elementary engineering statistics are given in the first phase of the course. This will be followed by theory of variances and planning of experiments courses.

An average of 30 persons from Technical and Engineering and National Procurement Divisions, and Paul C. Cox, White Sands Proving Ground, N. M. attended the course during the first week.

New Holiday Pay Is Effective For First Time Labor Day --

By H. B. CARPENTER
Executive Order 10358 dates June 9, 1952, concerning observance of holidays by government agencies, became effective August 9, 1952. The changes made by the new executive

order will be in effect for the first time during the forthcoming Labor Day holiday.

Among the most important changes in the regulation is the identification of holidays in relation to scheduled tours of duty.

There are identified in such a way as to equalize holiday benefits between employees who work the usual Monday through Friday tours of duty and those who serve on other tours.

Regular Weeks

For example if an employee works the regular Monday through Friday tour and a holiday falls on Saturday, no other day is designated as holiday and no pay is received unless work is performed. But if the holiday falls on Sunday the following Monday is considered to be the holiday.

(Continued On Page 2)

has some age restrictions. Savings of persons up to 55 will be covered 100 per cent; 55 to 59 the coverage is 75 per cent; 60 to 64 years of age, 50 per cent; 65 to 69, 25 per cent. No coverage is provided over 70.

Under the above scale if a person 54 has \$500 in the credit union it will be covered 10 per cent. It will receive 100 per cent coverage from then on, but any additions will be affected by the older rates.

RFCU Seeks Life Savings And Debt Protection Insurances

The Redstone Federal Credit Union is moving to provide each of its members with a free life insurance policy, equal to the amount of the individual deposits up to \$1,000, and also with a "the debt dies with the debtor," benefit.

Adopts Resolution

Thurman Smith, treasurer of the RFCU, said the Board of directors adopted a resolution Aug. 21 to apply for CUNA life savings insurance, and CUNA loan protection insurance.

Limit Raised

The board at the same meeting also raised the maximum share limit to \$5,000 from \$2,000, and the maximum deposits for over-the-border members from \$50 a month to \$100.

The board accepted the resignation of Jesse Anderson, Thiokol, as vice-president of the credit union, and began considerations for a replacement.

Plans Effects

The new financial security plans

sought by the RFCU for its members will in effect give saving members insurance equal to their credit union investments up to \$1,000, and assure them that any debts to the credit union outstanding in event of death will not fall on their families.

Cuna-Operated

The two plans are offered by the CUNA Mutual Insurance Society, a service owned and operated by the Credit Union National Association, of which the RFCU is a mem-

ber.

The cost of both insurance plans is borne by the RFCU from its earnings. The cost is 65 cents for every \$1,000 of insurable shares for the life savings plan, and 60 cents per \$1,000 of outstanding loans for the loan protection service.

\$10,000 Insurance

The loan protection provides protection up to \$10,000 for an individual loan.

The savings life insurance plan

TECH LIBRARY IN NEW LOCATION—Here are a couple of scenes of the Technical Library in its new home in air conditioned quarters in the office-auditorium additions to Bldg. A-120. The location has the added comfort of being spacious, and there are small private rooms where technical personnel may do research without interruption or distraction. At top left is the uncrowded arrangement of the book and periodical section, Miss Dorothea Danner, section head (left), assists Fritz Kramer, Preliminary Design, T. E. D., find technical data. Seated are Joseph Sims Preliminary Design and

Jesse James Instrumentation Section, Rocket Development. At top right are the reference files where all material in the Technical Library is indexed. Shown using the files which are the heart of the library are (left to right) Mrs. Ann Legel Rohm and Haas librarian; J. F. Neely ordnance engineer in the Rocket Development Group; Mrs. Eloise Balch, Thiokol librarian; Mrs. Frances Dickey, head reference librarian in the Documents Section, and Donald Shenk, Technical Staff, T. E. D. (U. S. Army photographs by Jake Gurley.)

New Holiday

(Continued From Page 1)

Shift Workers

However, for those employees who have off days other than Saturday and Sunday, and the holiday falls on their first off day, the next scheduled work day will be the holiday. But if the holiday falls on the second off day no other day is to be excused, except when the holiday falls on a specific day of the calendar week as in the case of Labor Day and Thanksgiving.

Other Changes

Other changes include those concerning on-call employees, who receive pay if no work is performed only if the holiday falls within the basic 60-hour tour of duty;

WAE (when actually employed) employees do not receive pay for holidays unless work is performed; and part-time employees will receive base pay, when not required to perform work, for the number of hours normally scheduled on the day on which the holiday occurs.

No payment will be made to any employee if the holiday falls within a period of nonpay status.

Pay Entitlements

All employees are entitled to receive holiday premium rates of pay for work performed on legal holidays except:

- (1) Consultants or experts, (2)

WAE employees, and, (3) no employee may receive holiday premium pay which increases his gross salary beyond \$397.30 per pay period.

Premium rates will not be paid for more than eight hours work, except that 12 hours may be paid in the case of on-call employees.

For employees whose workdays cover portions of two calendar days, the entire tour which commences during the clock hours of the holiday will be considered as the legal holiday.

Tree Baked

(Continued From Page 1)

to a minimum of 71; the average minimum being between 73 and 74 degrees fahrenheit.

Moisture-wise, the readings show four days of 100 per cent relative humidity at the high temperature mark

The readings for the week:

	hi (hum.)	low (hum.)
Aug. 15	97	95
Aug. 16	97	92
Aug. 17	100	100
Aug. 18	100	100
Aug. 19	92	33
Aug. 20	99	100
Aug. 21	97	100

The only rain for the week was .10 inches on Aug. 19, bringing the monthly total to 4.18 inches.

Keepings

(Continued From Page 1)

be avoided if folks just used their common sense. It is a lot easier, and much more practical to keep your old containers and discards inside of the car until you got to a regular trash can.

If you don't, it may be your tire that is flattened next because some blankety-blank used the car window for a waste can. And it is your tax money that pays the salaries of folks who have to be hired to guard against people who are just plain careless and wasteful.

Technical

(Continued From Page 1)

Prof. Harshbarger is under contract as a consultant to authorities in the Technical and Engineering

Post Headquarters

By MONA KING

Last week was a strenuous one for those who moved their offices. The Technical Library girls thought perhaps they had entered a walkathon race by mistake. As each file cabinet was moved across the street into the new office, the girls would have to go along to make sure that nothing was misplaced.

For two days we watched the procession, until they settled in their new quarters at the Rocket Development Lab.

Cleo Cason says that the hard work had its compensation in that they now have room to work in relative comfort. Before, it was necessary to say, "Would you mind standing so that I can type?"

Audit Is Out

Every time the Army Audit Agency sees someone come in the door wearing overalls they start packing. For the third time in a year, they have moved. Says Mrs. Rose Burgess, "We'd feel at home anywhere in this building."

The Teletype Office moved into the space vacated by the Army Audit Agency across from MIB and it is carrying on business as usual.

Shuffle, Shuffle

The Records Administration Section has moved out of Management Improvement into an office across the hall from Mail and Records. Flossie Harless of Mail and Records has moved in with Ann Troha, Louise Kenney and Janie Fanning.

Gibraltar

About the only place some of us move to is to the cafeteria at breaktime or lunch. Of course as anyone will tell you, that is the most popular spot at Headquarters. There we get together and discuss everything from poodle cuts to politics. Across steaming cups of coffee, the worlds problems are solved with a minimum of effort, and are viewed more clearly through a haze of congenial atmosphere and cigarette smoke.

Mr. D. C. Foster, who is in charge of the cafeteria is a tall man who may be seen chatting with the customers sampling his own coffee. Mr. Foster has been in the cafeteria business with the gov-

Division for various guided missile and rocket projects.

Other course in the program will be announced later.

ernment since 1939 at Memphis, Atlanta and Camp Rucker, Ala.

Mermaids

The other day in the cafeteria, Reita Brown announced proudly "I can swim". She has been taking lessons at the Huntsville, YM-CA for about two or three months and is enjoying the whole process of learning. June Turner is also taking lessons. She very modestly admitted that she could stay afloat and swim some and hoped that by the time she goes on her vacation to Florida she will be able to really swim.

Gridiron Star

Bill Johnson, Mail and Records who had originally planned to enter the University of Florida this fall, has now changed his mind in favor of Mississippi State. For the benefit of the Florida Chamber of Commerce he explains,

"Well, I have nothing against Florida. It is a great state, but I have more connections at Mississippi; my father and grandfather went there. Besides that I think I'll get to play football and become an All American."

If Frank Neeley intends to fill the vacancy he will have to learn to croon.

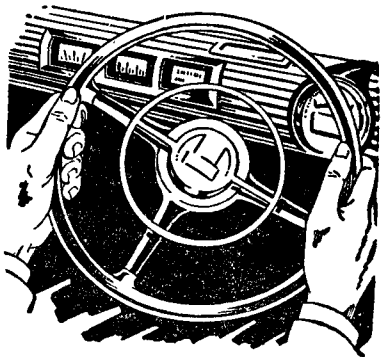

Welcome, All

Technical and Engineering has a couple of new faces amongst their group. They are Bonnie Young and Jean Kempski. Bonnie graduated from high school at Trion, Ga. this past spring and this is her first big job. Jean is from Chicago and says she is enjoying the friendliness and atmosphere of a small town. Her husband is a civilian instructor at the Provisional Redstone Ordnance School.

BANFF, Alta., Canada — One-third of all patients seeking medical aid are primarily psychiatric cases, a Halifax doctor told a recent Canadian Medical Association meeting.

FITCHBUR, Mass. — A four-year old lad, on the short end of a neighborhood fight, summoned help by pulling a fire alarm box lever. The strategy worked; the assailant fled when the fire department arrived.

YOU CAN LOSE everything on a turn of this wheel!

In ten seconds an automobile accident can jeopardize your home, your savings, your income. Play safe . . . don't rely on minimum coverage. Be sure you are fully covered. We will be glad to analyze your present automobile policies to make sure you are completely protected. Just phone . . .

National Procurement

By BETTY SMITH

Last week we were in such a state of confusion we missed our column, but here we are, still confused but willing to try again.

NPD has undergone a reorganization and if any one has ever moved from one house to another he should be able to sympathize with us. Moving household furniture is nothing compared to keeping up with desks, typewriters, wastebaskets, file cabinets and what have you. Those lucky individuals on vacation missed all the noise and disorderliness but they will have their turn getting acclimated when they return.

Allan Waldrop has finally come back to us. He spent two weeks playing soldier with the reserves at Fort Jackson, S. C. and upon termination he had to recuperate with a week's vacation.

Bon Voyage Etc

Guenther Haukohl and family have gone to Florida for a two weeks vacation. Emmett Mayes doesn't have to wait for trains and buses when he wants to go some where. He just hops in his private plane and takes off. He left Saturday for a two weeks vacation in Texas.

We bid goodbye to Fred Sittason who received a "greeting" from the President and has entered the armed forces.

Welcome to Frances Stricker and Harold Turney and Lt. So kolowski, who are our new employees.

A Man's World

Mr. A. Rudolph and family traveled by car to Wisconsin for their vacation. Mr. Rudolph says fishing is okay but he passed dozens of lakes where the fishermen reigned supreme and swimming was out. He traveled hundreds of miles before finally locating a good lake in which to swim.

We all thought Versa Kolasa was trying a new shade of face powder last week but discovered she had stayed too long under Ole Sol and emerged as pink as a New Hampshire lobster.

Sunflower Future

This edition will find Fred Bagwell making last preparations for his move to Wichita, Kan., where he has accepted a position with Boeing Airplane Co.

Col. H. C. Thayer and family spent a three weeks vacation in the "ole home town" of Putnam, Conn. While there they drove to Boston and visited Watertown Arsenal.

Mothers Doing Well

There are several young men in this outfit who go around jumping when a phone rings and have a noticeable tendency toward biting their nails. We call them the "Fathers-to-be-League".

To name some of them: Don Crawford, Milton Vaughn, Fred Chesebro, Jack Ivy, and Pat Keyes.

Have patience fellers it won't be long now and you'll be walking the floor and wishing Junior would go to sleep.

Sacrifice

Joe Williams has become a reformed man. No cokes, no cigars and he's even cut out chewing gum - Reason? Joe has a shiny Euick to sport around with. Says Joe, "I may be foolish but that car is worth it all, 'I'll even take in washing."

Our best wishes for a speedy recovery to Mrs. Doug Johnson who underwent an ear operation in Birmingham. Also on the sick list were the two daughters of Miriam Evans.

David Hobbs has returned from a two weeks vacation spent in New Orleans and on the Gulf Coast. Dave said the floor shows were really something and plans to go again to see what he missed this time.

Pfc. Wally Bergstrom has left for Baltimore where he is to be married August 28.

Thumbnail Sketches Of PLA's Brass

(This is the sixth in a series of articles condensed from the Army Information Digest and originally produced in the book, "Red China's Fighting Hordes," by Lt. Col Robert B. Rigg.)

(By Armed Forces Press Service) The following short characterizations are intended to give the reader some understanding of important military leaders in Red China today.

Chu Teh—Commander in chief of the People's Liberation Army is a pansy-faced opium smoker who reformed himself. He acts as Mao's stooge and commands generals who exceed him in brains and military talent. He demands obedience and

human sacrifice and tells subordinates it is their duty to offer up their lives freely.

He believes commanders should explain to troops reasons for coming campaigns and engagements and counts heavily on military intelligence.

Chu Teh likes to choose his own terrain for battle; the enemy's rear is always his target. He says,

"Harass the enemy, give him no peace or rest to consolidate his gains"

Chu has 40 years of practice at war and is aging fast.

Gen. Lin Piao—impressive with the essentials of real leadership. He can command a crowd or move a mob by his voice alone and drives himself to the limit of his endurance with the result he is chronically ill.

Regarded by American officers as the Chinese Communist's top

military theoretician Lin Piao is cautious man in battle Lin Piao is calculating, deliberate but once attack is launched is all "follow through" believes in numerical superiority of 400 to 600 percent. Lin Piao is considered a good choice for succeeding Chu Teh but the selection will rest in good part on campaign in Korea.

Liu Po-cheng—Has one eye. Nationalist generals on Formosa rate him Red China's Number One general. During the China Civil War was criticized for the loss of some towns he had taken. His rebuttal.

"I traded 17 empty cities for 60,000 of Chiang Kai-shek's soldiers."

In campaigns Po-cheng shows great originality and daring. He has been surrounded many more times than written history records, yet he has escaped—not as in individual but as an army commander—with his troops intact but dispersed. He is

one of the most militarily elusive and wily field commanders in China today.

Modesty Must Remain!

SUDBURY, Eng. — Believe it or not but the town fathers may have to close a summer festival for lack of a queen. A beauty contest to pick a queen failed when none of the local beauties wished to appear in bathing suits. The rules were changed to allow sweaters and tennis shorts. No results. They were changed again to summer dresses. No results. They were amended again to allow 17-year old to enter—no results.

The national debt as of June 30, 1951, was estimated at about \$260,000,000,000. The government owned and private gold stocks in the world was estimated at only \$52,000,000,000.

SUCCESSFUL COURSE AMONG
TODAY'S ECONOMIC SHOALS!

Today, more than ever, the right presentation of your advertising message . . . IN THE RIGHT MEDIUM . . . may be the essential factor in maintaining an adequate sales volume to offset ever-rising costs. As always, a consistent program of newspaper advertising offers you the most economical means of presenting your sales message to the widest possible audience.

Advertising in the REDSTONE ROCKET . . . the only paper that reaches ALL the Redstone Arsenal personnel . . . is your answer to the problem. The "ROCKET" reaches a selected audience whose income is several million dollars annually . . . The rates are very reasonable. An Ad the size of a postcard costs only \$9.00. Surely you would invest \$9.00 to reach over 6500 people whose weekly income is several hundred thousand dollars. Be practical—use the Redstone Rocket Often!

TEL.

The Redstone Rocket

P. O. BOX
805

The Redstone Rocket

The Redstone Rocket is a civilian enterprise newspaper published every Tuesday at the interests of Redstone Arsenal personnel. It is published by special agreement between Jay Thornton, Haleyville, Ala. printer, and the Central Post Fund and Civilian Welfare Council, Redstone Arsenal, Huntsville, Ala.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and under no circumstances are they to be construed as those of the Department of the Army.

All editorial material for publication must be submitted to the Public Information Section, Bldg. A-101, Tel. 3-2123 and 3-2201.

All advertising and ad payments are handled by Fred Montgomery, P. O. Box 805, Haleyville, telephone 2810 as representative for Jay Thornton. Appearance of advertisements of products in The Rocket does not constitute an endorsement by the Department of the Army.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for The Rocket are \$3 a year, or \$1.75 for six months. Mailing arrangements must be made with Fred M. Montgomery.

Armed Forces Press Service material is used in compliance with AFPS policies. Civilian newspapers are not authorized to reprint AFPS material.

From The Chaplain

By CH. JOHN SIMPSON

(This is the third in a series of studies based on the Lord's prayer.)

"Our Father, who art in heaven"

Having shown that God and man are parent and child, Christ goes on to point out the functions of each great scheme of things.

He declares that it is the nature of God to be in heaven and of man to be on the earth. God is cause and man is manifestation.

Cause is not expression and expression cannot be cause. Here we must be careful and never confuse the two. Heaven stands for God or cause.

Religious phraseology uses the word heaven as a term for the presence of God. Wherever God is, heaven is. Heaven is out of sight, a world of spirits, therefore our converse with God must be spiritual.

Our aim as Christians is to be with God in heaven. The more we are willing to submit to the cause, the more we can express of Him. The more we express of Him, the more heaven becomes a reality to us.

The main point to always remember is that God is in heaven and man on earth, each has his own role in the scheme of things. So we need God and God needs us.

Our father, who art in heaven, hallowed be thy Name.

Thy kingdom come, thy will be done on earth as in heaven.

Give us this day our daily bread, forgive us our trespasses, as we forgive those who trespass against us.

Lead us not into temptation but deliver us from evil.

For thine is the Kingdom, the Power, and the Glory,
Forever, Amen.

Consolidated Supply

By WANDA L. PALMER

Cpl. Charles Brizendine who worked in our Mail and Records section, got his overseas assignment

two weeks ago. He was a real asset to our office and we miss him traipsing up and down the aisle delivering mail. Last week we received a card from him telling us that he was the father of a six pound boy.

That will really be something to come home to.

Tappers

We have missed a few men in the Warehousing Section lately. May be it is because they are doing a little traveling around.

John Ed Paseur has gone to New Jersey to see his son-in-law off for an overseas assignment.

Lewis Warner has been vacationing with friends in Birmingham.

Robert Forrester has returned from a week at Daytona Beach, Fla.

More Traveling

Because he ran out of time and money Finis Gentry was forced to return to work after vacationing in the Great Smokies. He recommends the play "Unto These Hills" to everyone. That, to him, was the most impressive part of his vacation.

We want to welcome Nancy Owen, Phyllis Jensen and Pauline Michaels into our midst. Hope she like your new jobs girls.

Everyone in Consolidated Supply Branch wants to extend their sympathy to Edwina Moreton. She received word Aug. 14, that her mother and step-father had been killed in a car accident. They had vacationed with her the previous week. Edwina and Richard have our heart-felt sympathy.

ther and step-father had been killed in a car accident. They had vacationed with her the previous week. Edwina and Richard have our heart-felt sympathy.

Martina Giles vacationed with her family in Panama City. She returned with a peeling back and a lot of memories.

Rising Tide!

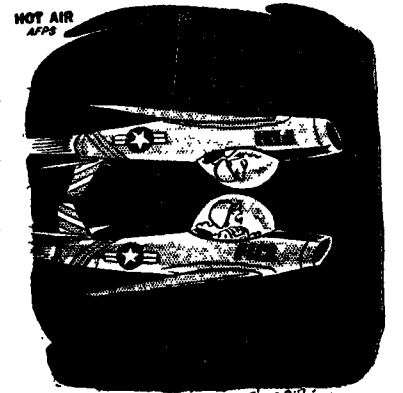

Some people enjoy being whistled at but we have a girl in our section who turns red from her head to her toes. Everytime she goes to the Planning Section Bob Ivey and Paul McCutchen whistle at her and one day she stumbled. Now her face turns red before she even gets that far. Doesn't it Eddie! of course everyone looks forward to her visit.

"Mother, may I go in swimming?"

"No, dear, it's far too deep."

"But Daddy is swimming."

"Yes, dear, but he's insured."

nal office. The announcement, may be found on the bulletin board in the lobby at ldg. W-441 or on the bulletin board at the Huntsville Post Office.

In filing for the examination, applicants should send:

(1) Card Form 5001-ABC; (2) Preference Form 15 (for ten-point preference only); (3) Application Form 57 to the Regional Director, Fifth U.S. Civil Service Region, Atlanta 3. A separate set of forms must be submitted for each position examination applied for.

The necessary forms to file for the examination may be obtained from the Civil Service Board, Civilian Personnel Bldg. W-441, or any first or second class post office.

Faulty Applications For MOP Claims Returned to 15,000

Washington (AFPS)—Nearly 15,000 of the 50,000 applications received for mustering-out pay have been returned to veterans for more information, the Department of the Army has announced.

Most of the rejections were caused by failure to submit the original copy of the veteran's report of separation, failure to fill out the application form completely, or failure to send in one or the other of these two documents.

Enlisted personnel and officers

Illinois Tech Offers K - Vet Scholarships

CHICAGO — Illinois Institute of Technology announces it will grant 100 scholarships, valued at one-half tuition, to veterans entering the Institute in 1952-53 under the new "Korean G.I. Bill."

The scholarships are valued at \$162.50 per semester or \$325 per year. They will be awarded to students entering the day division of the Institute in either September, 1952, or February 1953, according to Dr. John T. Rettaliata, Illinois Tech president.

The scholarships will be for one year, but may be renewed for additional years providing a student's academic performance is satisfactory. Total potential value of the 100 scholarships is \$130,000.

The new Korean G.I. Bill provides that veterans will pay tuition out of their government allowances. The Illinois Tech scholarships will reduce these payments by one-half.

The new scholarships will be awarded on the basis of previous academic records (high school or college) or on performance in Illinois Tech's entrance examination.

The Office of Admissions of the Institute will handle contacts with veterans applying for the scholarships, Dr. Rettaliata said.

GREENVILLE, N. C. — Farmers seeking relief from a drought offered prayers for rain. A blinding downpour struck the area, knocking out power lines and overturning trees.

below the grade of major and lieutenant commander who have served in the Armed Forces at any time since June 27, 1950, are eligible for the payments after separation from the service.

Exact sums are: \$100 for less than 60 days service; \$200 for more than 60 days service including foreign duty.

9330 Builds Strong Lead In Third Softball Week

Volleyball Tournament Will Begin Thursday

3523rd, Missilemen Lead Season's Play

The Y.M.C.A. volleyball league regular play ends this afternoon when the Missilemen and Ramblers meet in the season's last game.

Tourney Begins

However, action in the league will continue beginning Thursday when the four-team league opens up its double elimination tournament with first seeded 3523 meeting third-place Cumberland Presbyterian. Friday the fourth seeded Missilemen will tie into the Y.M.C.A. sponsored Ramblers for the second game of the bout.

Preview Games

This week's end-of-the-season play, ironically may preview the tournament's opening, as last night the 3523 played Cumberland, and tonight, of course, the Ramblers and Missilemen play.

Sept. 1 the losers of the two opening games are scheduled to play, and Tuesday the winners will play.

Regular Rules

The tourney will be played according to regular volleyball rules as used all season, and will be the usual two out of three games for a set victory.

Russel Barber, Y secretary said trophies will be presented to the winners and the runner-ups.

Excellent League

He commented that the league has been very successful with a lot of good sportsmanship, and good

fun being had by all of the participants.

As of Friday the 3523 was way out in front with a 31-8 season's record. The soldiers will stay there, but when the smoke clears they may have two more games on their string.

The second arsenal team, the Missilemen will be second in season play with at least a 25-14 record, with maybe a couple more games under their belts.

Cumberland Presbyterian, as of Friday, was third with 14-26, and the Ramblers fourth with 9-31.

Games Results

In addition to today's game, and last night's tilt, the 3523 and Missilemen were slated for play Aug. 22.

Results from last week show the Missilemen picking up two set-wins, one over the Ramblers, 15-8, 15-7, and one over Cumberland, 15-4, 15-9.

The Ramblers split their games, forfeiting to 3523 on Tuesday, then drubbing Cumberland 15-0, 15-9.

RSA SOFTBALL

1. 9330, 5-0.
2. Depot, Rockets, 3-1./
3. Thiokol, 2-1.
4. GM-2, 3-2.
5. Bulldogs, Rams, 1st EM. 2-2.
6. Consolidated, 2-4.
7. GM-1, 1-3.
8. HQ, 1-4.
9. Missiles, 1-5.

Depot, Rockets Tied In Second

3 Close Running Teams Challenging Leaders For League Supremcy

The inkling of success demonstrated last week by the 9330 softball team has become a full-blown habit this week with the TSU-ers leading the pack with a clear 5-0 win-loss record.

Their nearest competitors, as of Friday, were Redstone Depot and the Rockets, each with a 3-1 record.

9330 went to bat twice last week. They downed the GM-1 aggregation, 16-4, and the Headquarters (formerly Staff and Faculty) club 7-3.

Second Placers

Redstone Depot showed it was not to be counted out, however, by winning from the Rams, 10-9 and GM-2, 14-11. Headquarters also fell afoul of the other second-place tie team, the Rockets, to the tune of 11-8. The Rockets also took GM-1, 10-6, for a second win last week.

Thiokol, a team that very easily could have been in the first place tie, was leaning into it last Tuesday when they defeated the 1st Enlisted detachment team, 17-3. A game scheduled Thursday with 3523 was postponed.

Bitter Luck

Elsewhere in the loop, the Missile (second EM No. 1) were still searching for the winning combination. They provided victories for 3523, 10-4, and 1st EM, 12-0.

Consolidated Supply, formerly Post Ordnance, had the one run jinx last week as they dropped to GM-2, 6-5, and the Rams, 7-6.

Games up for decision today and the rest of the week are:

AUG. 26

1. HQ v. GM-1.
- 1-A. Missiles v. Thiokol
2. Bulldogs v. Rockets

AUG. 27

1. GM-2 v. 1st EM
- 1-A. Consld. v. Thiokol.
2. 9330 v. Rams.

AUG. 28

1. Missiles v. Rockets
- 1-A. Bulldogs v. GM-1
2. HQ. v Depot.

V. B. Loop Up To 8, Room For More

Prospects for a post volleyball league brightened last week as eight teams indicated they would play. However Special Services says there is still room for anyone else who wants to come in.

The league will probably get underway Sept. 22, or when softball play has ended. Games will be played after work probably on

Bobbie Shantz (center), the mighty mite of baseball, is greeted in the dressing room at Shibe Park, Philadelphia, by his teammates Ferris Fain and Dave Philley after becoming the first 20 game winner of the 1952 baseball season. His playful teammates hold the symbolic number 20 shirt in front of little Bobby, almost dwarfing him. (INP.)

Tally Up Next On Ringers, Leaners

Military personnel at Redstone will have a chance to ring up in a post horseshoe tournament to be held Sept. 22-24 by Special Services.

Three men from each of the following units will compete in the tournament, 3523 ASU, 9330 TSU, HQ, and HQ detachment, 1st Enlisted detachment, and 2d Enlisted detachment. Eliminations are being held in the units now.

Entries for the ringer finals must be in the Special Services office by noon of Sept. 17. The tournament will be held in the 9330 troop area. Awards will be presented the winners at the Fall Sports banquet.

Sports Quiz

(By Armed Forces Press Service)

QUESTIONS

- 1—What heavyweight title fight marked the last time a bout went beyond 15 rounds?
- 2—True or False? Dick Button is the only American who has won a world's skating title since 1950?
- 3—Who wrote the first book on football?
- 4—Madison Square Garden, New York City, was dreamed of

Mondays, Wednesdays and Fridays. Teams expected in the loop are two from 9330, one from 3523, Thiokol, one team from each of the two enlisted detachments, and two from Provisional Redstone Ordnance School.

as the nation's finest and largest sports arena years ago. Who had the dream and constructed the building?

ANSWERS

- 1—April, 1915, when Jess Willard knocked out Jack Johnson in Havana, Cuba, in 26 rounds.
- 2—True. In February he won his fourth title in Milan, Italy.
- 3—Walter Camp wrote "American Football" in 1891.
- 4—The late boxing and sports promoter Tex Richard.

Officers Mess To Feature Labor Day Barbecue, Events

Plans for a Field Day and barbecue have been announced by committee members of the Officers Open Mess. Members of the Mess and their guests are invited for a barbecue lunch starting at 1 p. m., and games and contests to be featured during the afternoon at the airport hanger. Juke box music will be available for dancing.

Pit Barbecue

The lunch, costing \$1 for adults and 60 cents for children, will offer a choice of barbecued chicken or pork, barbecued beans with sauce, potato chips, cole slaw, pickles, bread and lemonade. The meat will be barbecued in a pit at the airport. There is no admission charge other than the cost of the lunch.

Many Games

During the afternoon, ball throwing contests, bean bag pitch, spoon races, balloon blowing, marble games, broad jumping, hop, sack and shoe races, rolling pin, volley ball, softball, and horse shoe contests, father and son piggy-back races and other events will be offered with prizes for the winners.

Boys and girls will be divided into age groups for the various events in which they may participate. As an additional attraction, pony rides will be available to children for a small fee.

Plan Now

Those planning to attend should call Lt. Willis Grimes at either Ext. 3-2238 or 3-2218 so that arrangements can be made for food preparation.

Col. James Snooks is general chairman of the committees. Food, announcements, and entertainment committees are composed of Maj. Fnoch Sparks, Maj. Henry Kincaid, Maj. Stanley Skeiber, Capt. Joseph Hinesley, Capt. John Horan,

ENGAGEMENT ANNOUNCED—Miss Nancy Orgain, employee in the office of the Civilian Administrative Officer, is engaged to wed Lt. Karl A. Woltersdorf, Jr., according to an announcement made this week by her parents, Mr. and Mrs. John Lowry Orgain, 401 S. Lincoln St., Huntsville. The wedding date will be announced. (Photo by Jimmy Gill Studios.)

Orgain - Woltersdorf Troth Is Announced

Mr. and Mrs. John Lowry Orgain, 401 S. Lincoln St., Huntsville, announce the engagement of their daughter, Nancy, and Lt. Karl A. Woltersdorf, Jr., son of Mr. and Mrs. Karl A. Woltersdorf, Sr., 108 Echols Hill, Huntsville.

Miss Orgain is employed in the office of the Civilian Administrative Officer at the arsenal. She is a graduate of Huntsville high school and attended the University of Alabama. She is a member of Delta Delta sorority.

Lt. Woltersdorf, who is presently stationed at Ft. Benning, Ga., attended the University of the South, Sewanee, Tenn., and is a June, 1952 graduate of the United States Military Academy, West Point, N. Y. He is a member of Alpha Tau Omega fraternity.

A wedding date will be announced later.

Personals

Employees and their families from the Technical Library in Bldg. A-120 enjoyed a picnic on Monte Sano Aug. 23. Before leaving for the mountain, employees met at the home of Mrs. Jac Countess, 528 Adams Ave., and presented a gift to Miss Doris Vann, assistant chief of the library, who is a bride-elect of Aug. 29.

Lt. Stanley Bernstein, Lt. Keith Glasgow, Lt. Vincent Culbert, Dr. Henry Shuey, CWO Benjamin Reese and Lt. Grimes.

Pre - Nuptial Parties Honor Arsenal Employee

The Huntsville County club was the scene of a tea Aug. 20 honoring Miss Doris Vann, arsenal employee, who will be married Aug. 29. The hostesses were Mrs. J. W. Stutts, Jr. and Mrs. O. A. Ready, Jr.

Miss Vann wore a green velvet and net strapless dress with a net stole. She was presented a corsage of pink carnations by the hostesses.

A color scheme of orchid and pink was carried out in bouquets of asters and in the candles in silver candelabra. Both the punch table and the refreshment table were covered with lace clothes. The appointments were of silver. Seventy guests were invited to the tea.

On Aug. 12, Mrs. Charles Shelton, Mrs. T. W. Naugher and Mrs. Clarence Jones complimented Miss

Vann at a miscellaneous shower at the Shelton home, 106 Parkview Ave., Huntsville.

Pink flowers and candles were used on the lace covered refreshment table. More than 60 guests were present.

Personals

Col. and Mrs. R. A. Murchison and children, Camp Chaffee, Ark., spent Aug. 16 weekend with their nephew and niece, Col. and Mrs. Henry C. Thayer on the arsenal

Col. Murchison is the commanding officer of the Camp Chaffee hospital. Mr. and Mrs. E. Byrd Bass and children, Anniston, were Aug. 16 visitors at Thayers, and Col. and Mr. W. P. O'Neal, and children Huntington, W. Va. visited Thayers Aug. 18 and 19. Col. and Mrs. Thayer spent Aug. 24 weekend in Montgomery with Mrs. Thayer's father, Mr. George Snyder.

The first greenbacks were issued in 1862 to finance the War Between the States.

Field Service Division

By SUDIE AMSLER

It's "women-and-children first" in FSD as well as in the military. Judging from the photographs which have been flashed around Bldg. 827, there are some mighty handsome off-spring of FSD personnel.

Laverna Frazier brought a picture of her little Cherie Lynn, 1, and this baby is really angelic looking. There was one of Brenda Frazier, nine, too, and she is lovely. "Just like her mom," everyone said.

Ben Jennings showed us several poses of his pride and joy, Ferrell Anne, admitting frankly that he liked her better than the new beagle hounds he recently acquired.

Jeanne Bailey's little boy, Jackie Lynn, is a fine looking baby, and Jeanne says he really is an arm load.

Evelyn Hall's little Glenda is quite a photogenic young lady, too. Glenda is in the pink again after a recent tonsilectomy.

Repatee!

The Misses Turvey, Linda, 11, and Pamela, 8, daughters of Dave and June Turvey, came winging in from a two and a half months' stay with their grandmother in Ft. Worth, Tex. It was their first plane trip alone, and when they landed at the airport in Birmingham, the stewardess asked them,

"Wouldn't you two little girls like to stay with me?" To which they solemnly shook their heads and modestly replied, "No, ma'am."

Nite, Nite! — Ha!

Joe Del Forge reported to work pretty sleepy-looking a couple of mornings. His baby, Mary Joe, was finding this business of cutting teeth an irksome chore and demanded that Daddy pound the pavement with her.

"Grandmother" Dolores Killian, NGMECCP, returned from Raritan and New York City to find a number of "Blessings" in her apartment.

Her daughter, Mrs. M. E. Blessing accompanied by two little Blessings, had arrived from Colorado Springs, for a visit.

Coats? Propaganda!

Dolores said she had a wonderful time while in New York. She saw the Statue of Liberty for the first time; had to wear a coat almost every day, went to Radio City Music Hall for "Ivanhoe" and the Rockettes.

More Weather Stories!

In the women's world, Frances Whitaker spent two weeks in Rochester, Minn., where she took her father for an examination. Fran says her father is getting along fine and that she is glad - but glad - to be home. She almost "froze to death" while in Minnesota.

Busman's Holiday

Big news with Doris McDonald. Husband Ted arrived from Korean duty and "Dora Bell" took a month's vacation to renew acquaintance with him. They jogged down to Georgia, looped over to Louisiana and trekked to Texas by way of diversion, (wherever that is) and are now setting up housekeeping in an apartment on West Holmes St., and Oh, yes - Ted will be plain Mr. McDonald now.

While "Dora Bell" is welcoming her husband home, Dottie Evett

is telling hers au revoir. Alfred is limbering up his sea legs for an overseas mission for Uncle Sam, and Dottie is taking leave to be with him until his departure.

Emma Berkheimer and Sara Hix decided and or ceded their spot in The Rocket this week to Charlotte McGraw. Hi, Charlie — what's cooking?

Parting Plans

1st Lt. W. W. James is being separated from this man's wife this week. First, he, the wife, and little Sharon will drive to California for a visit of two weeks with Mrs. James' sisters. Later, they will settle in Silver Spring, Md. on Gist Avenue. Lt. James has accepted a position with the Wall Products Co., Inc. in Washington, D.C. Goodbye and good luck, you all.

New Man

From the V. A. Regional Office in Montgomery came Clyde B. Brown to Field Service Division to serve as chief of the Administrative Section. Brown is married and has one little daughter, Carole Anne, 5. He has just returned from two weeks of active duty with the Alabama National Guard at Camp Stewart, Ga. Evelyn Crabtree, Anita Hall and Ruth Mears are keeping their noses to the grindstone in their attempts to impress their new boss.

More New Men

Albert Panigoni is another newcomer to the Division. Panigoni is attached to the Operations Branch of NMP. He worked formerly for the Pine Bluff Arsenal, Pine Bluff Ark. His wife and two daughters are in Elmore, Ala. at the present time, but will join him later.

Alfred Bermender is new in NGMECCP. He came from the Savannah Ordnance Depot, Savannah, Ill. where he was assigned for two years as instructor in the Ammunition Inspection School. Bermender is an old hand in Ordnance, having begun his career back in 1941 with the Delaware Ordnance Depot. It is interesting to note that in the course of assignments, this marks his second tour of duty with Sol Cohen. Cohen and Bermender worked together at DOD in 1946.

As for the Bermender family, there are the wife and two children—Alfred, nine, and Margaret (Peggy) six. They are pleasantly located in an apartment over James Steak House, on the Square, in Huntsville.

Travelers Club

Francis L. Mullen, NGMECCP, is smarter and wiser after having spent a month at Raritan Arsenal, learning about distribution. He feels that his trip was successful in every way and says that he learned a lot. Good work, Frank.

William P. McNutt and Robert W. Black, Jr. are back at their respective posts after two weeks (McNutt's words, "two l-o-n-g weeks") of ORC training at Fort Benning, Ga. Both report that they enjoyed it, and McNutt admitted to having "learned a little."

Eyewash!

James K. Davidson finished with Philco. Jim gave interesting accounts of his tour of duty there. For instance, there were those week-end rips to Wildwood and Atlantic City, N.J. where he did a lot of "sight" seeing. He even broke his glasses while there. Roy Watts asked: "What was the matter? Did your eyes pop out so far they broke 'em?"

Davidson also brought reports from Bernard Troup and George

Personals

Mrs. Ed Dennis, 1103 Wellman Ave., Huntsville, honored Mrs. Bobby Kellough, Rohm and Haas employee, with a surprise stork shower Aug. 7 at the Dennis home. The decorations were baby pictures. Mrs. Robert Adams and Mrs. Cecil Jackson were contest winners. The refreshments were cookies and pink lemonade. Eighteen guests attended.

Mrs. Elsie Hugel, Budget and Fiscal Branch, spent Aug. 16 week-end in Atlanta visiting her husband, Sgt. Hugel who was there on temporary duty. Sgt. Hugel is assigned to Ft. Bragg, N.C.

Mr. and Mrs. Sam Hobbs, and son, Longwood Ct., Huntsville, are spending this week in Jacksonville, Fla. on a vacation. Mr. Hobbs is employed at the Photographic and Reproduction laboratory in Bldg. W-441.

Mr. and Mrs. Guenther Haukohl and children, 704 Locust St., Huntsville, have been vacationing in St. Petersburg, Fla. Mr. Haukohl is employed in the National Procurement Division.

Mrs. Edward Sparkman won the high score for the women, Capt. Robert Merchant had the men's high score, and Capt. Thomas McOsker won low score prize at the Couples Bridge club Aug. 18 at the Officers Open Mess. The next meeting will be Sept. 8 at the Mess as the regular meeting date would fall on Labor Day. Capt. and Mrs. Thomas C. Osker will be the host and hostess. Those planning to at-

Keener. In his opinion, both are reflecting credit to NMP.

At the moment, Jim is fixing to go to Pueblo, Colo. for several weeks.

In the recent election, Ora C. Lusk was appointed to represent FSD on the Civilian Welfare Council. Nice work, Chig.

On covering the waterfront, we find two skippers from FSD. Mel and Margie Grouel launched their new cabin cruiser last week. They named it the Becky Bee for Margie's little sister. Emmett V. Doyle is skipper number two, and takes great pride in his new role.

"High - Level" Ions May Be "Saucers"

Washington (AFPS) —An Army physicist has produced and controlled flying saucers at will under laboratory conditions.

At Ft. Belvoir, Va., Noel W. Scott, a physicist employed in the Research and Development Laboratory of the Army Corps of Engineers recently showed how miniature saucers could be generated by the "glow discharge" of electricity inside a two-foot-higher bell jar.

He demonstrated how his varicolored saucers could be made to waver, jump about and even disappear at a wave of the hand. When a magnet was held close to the jar, the small disks followed

tend should call McOskers at Ext. 3-2229 by noon of Sept. 8 so that even tables may be arranged.

it around and around inside their glass cage.

"The same sort of ionized conditions that exist inside the bell jar," Mr. Scott said, "frequently exist in the ionized layers of the upper atmosphere. This is a well-established fact."

"I am convinced that the sort of thing witnessed in the jar frequently occurs on a large scale in the heavens and that it has given rise to a lot of the so-called flying saucer reports which have baffled so many observers."

In 1804, bank notes were issued in denominations of \$3, \$4, \$7, \$8, and \$12 and other odd amounts.

Engineering Group

BY JEAN WALKER

Everyone but the people in Bldg. 781 was having a drouth until the recent rains but we were having showers all the time.

The water kept on the roof to keep the building cool surely does help but the roof started leaking. That is why you can see buckets of water in the aisles, beside desks and all over the place. We knew those galvanized buckets to be used to dump

cigarettes into would come in handy for something.

Since so many people from above the Mason-Dixon are living here now, you can, usually find some pretty lively discussions, both good-natured and otherwise, about the North and the South.

There is one Yankee, Rita Garfinkel, (notice we use only one word - thats because we like her) who is following the old saying "When in Rome do as the Romeos do".

Daisy Mae Style

Since Carl Jones, deputy chief of Mechanical Branch is always teasing Rita about how to become a true Southerner, the rest of the branch decided Jones had been giving her some misdirections when they saw her come in barefooted, carrying her shoes. However, they later found out a broken strap was the reason.

No column from Engineering Group would be complete without a story concerning a TV set of someone from Electronics Br.

Steve Johnston's two year old son is starting at an early age to be an electronic engineer, just like his dad.

Steve was working on the antenna, when hearing a noise behind him, he turned around to see his son climbing off the ladder to the edge of the roof. Steve says that no child training book could tell him what to do in a case like this, but a neighbor came to the rescue and climbed up the ladder behind little Stevie while his father talked to him.

This brought his education to a sudden halt, at least as far as outdoor training is concerned.

Carol Burwell in Engineering Records Br. says the only cure for homesickness is to go home. She flew to Philadelphia for a few days and is not back happy as can be.

Floitsam

Like the parody, "I used to work in Chicago - I did but I don't anymore," Louis Sisco in Specs and Standards Br. before the drouth used to be a farmer - he did but he don't anymore.

Everyone was really amazed to see John Kernachan, Mechanical Br., usually easy-going and quiet, buzzing around making preparations for several trips.

Marie Boyd isn't the only one in Engineering Group who blushes easily. Sara Moore is running a close second.

Treed?

Sara, after working in Electronics Br. as long as you have, you should be used to their teasing by this time - or maybe there really is something about eating lunch under the tree everyday.

As P. J. Matter, chief of Specs and Standards Br. can verify, don't let anyone tell you that we do not have DDT in this building.

After a day when DDT was particularly strong here, Matter went home and when he kissed his wife she backed off and said, "Phew, I not only have to smell that cotton poison on your clothes but I have to taste it on your lips also".

You too will find a bitter taste by running your tongue over your lips sometime when the DDT is strong in the building.

Free Education

Ralph Oden in Design Standardization Br. has turned detective. He is trying to find out who sent his name in answer to an advertisement for a correspondence course on how to carry on good conversa-

Thiokol Corp.

By PAT CRICK

Thiokol is still under the influence of the vacation minded. Willodene Butler left for Charter Oak, Mich. to visit relatives. Charlotte and Ar-

lin Smith are enjoying a vacation in Boston, Mass. Betty Gog has returned from a week in Panama City and is sporting a set of sunburn "ouches".

Tom Burkett is vacationing in Gulf Shores. Kathleen and Jim Medlock spent a few days in Atlanta and the rest of the time about home. Leo Long is another—at home" vacationer.

Our vote for an even tempered redhead is Ann Wicker, new stenographer. Ann reported for work one morning with a swollen mouth caused by fruit allergy. The following day Ann commented on a broken tooth and the third day remarked that her foot was sore from being stomped on. The human element being what it is, Ann took a hard razzing. All that and more too! You might say Ann got the dirty end of the deal due to a shortage of paper towels in the fingerprinting section. True, the gentleman in charge loaned his shirt tail for cleaning purposes. And—P.S.—Ann is still smiling.

Charley Elett has been passing the cigars. It's a new baby girl named Deborah Ann. Deborah was born Aug. 17 and weighed seven one half pounds.

Thiokol extends its sympathy to George Capuzzo in the death of his mother.

Paul Davis is now back at work after a week's absence with a tonsillectomy.

SEEN AROUND

The sign:

IF YOU DON'T KNOW—ASK on Laura Carriger's desk has taken on a new aspect. The sign has been severed in the center and now the two pieces, resting some distance apart, read:

IF YOU

DON'T

KNOW

ASK

Well there are times when the divided operation does seem more appropriate.

John Lawrence, office manager, drives a new Desoto these days. We understand the Desoto has a new super market feature—"Self help" driving.—Just what we women have been needing—so mutter the men!

Heat Treatment

We've been hearing complaints of parents concerning their children. The younger generation seems to be quite proficient in obtaining desired results.

Bill Driver finds that it may become necessary to "put up or shut up". —Put up young son, Terry, or shut up the refrigerator permanently. Terry, age one and one half seeking to beat the heat, has climbed in and been removed three times from the spacious lower refrigerator shelf. What a cool headed idea!

Innocent Age

Then there's young Joe Walker son of Jean and Joe Walker. Joey has been confined to the Children's Hospital in Birmingham for surgical correction of polio.

Jean has been worried about Joe's mischievous attitude affecting the other children confined with Joe. However Jean revised her opinion after a two year old popped his head around a corner and yelled "Get the ***XXX!! (Censored out of here!!!! Now the Walkers are planning a reform campaign for Joey when he returns home.

Gone, Not Foregone

Familiar faces missing from the employ of Thiokol are the following: Kyle C. Long, Maintenance, Herman C. Andrews, Control Lab.

tion.

Certainly anyone knowing Ralph knows that he doesn't need instructions about talking because he can out talk anyone we know of. Ralph is taking the joke nicely though and is having as much fun out of it as anyone.

Rocket Classified Service

FOR SALE: Sidewalk bicycle nearly new; child's large scooter in excellent condition, and a tricycle. Call Mrs. Barry Chandler, Jr., Huntsville 1844-J.

WASHINGTON (APPS) — A House subcommittee has approved a measure calling for extension of veterans' preference benefits to men who entered the Service after April 8, 1952 and before July 2, 1955. The bill would grant preferences in government jobs to disabled and non-disabled veterans. Veterans' preference for federal employment expired April 28.

Edna Parsons and Jesse C. Anderson, Personnel Department; George L. Spraggins, Pilot Line and Meritt L. Wickle, Jr., Testing, Spraggins and Wickle will be college bound after a short vacation.
